HARRIS SEEDS

Wholesale Price List

MARKET GARDENERS AND FLORISTS

THREE IMPORTANT NEW VARIETIES FOR 1957

GREEN LIGHT CELERY

New Harris introduction. Large erect plants of best Utah type.
For the East and Mid-West. See page 5

GLAMOUR TOMATO (below)

New crack-resistant main crop type for market and canning.
Large, firm fruit, remarkably free of cracking. See page 22

EPOCH HYBRID ONION

Excellent new U.S.D.A. hybrid. Outstanding for long storage and bulk handling. Uniform deep globe shape, dark brown skin.

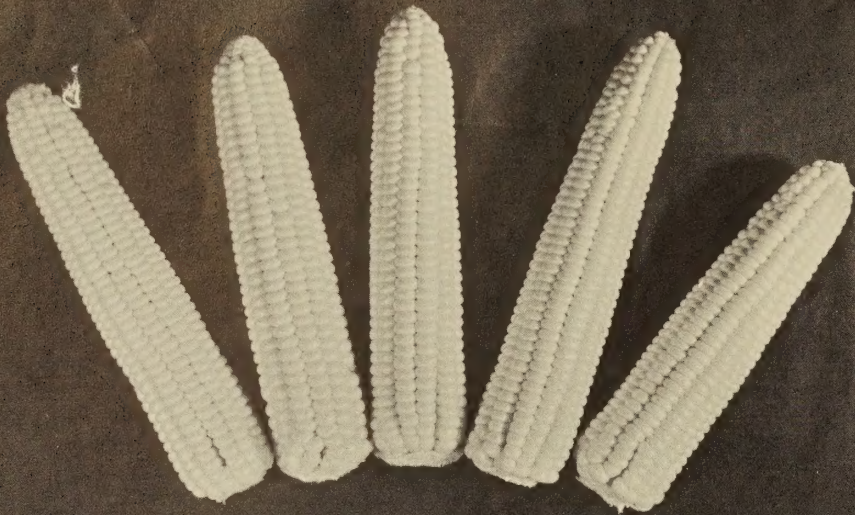

See page 15

JOSEPH HARRIS COMPANY, Inc.
MORETON FARM, ROCHESTER 11, N. Y.

Located on Buffalo Rd., Route 33

HARRIS SEEDS

HARRIS' NORTH STAR

Still Supreme in the Early Class

Last year's cold wet spring proved that North Star still does the best job of producing corn for the early market. Here are some of its advantages:

- Vigorous seed, can be planted extra early.*
- Comes up strongly even in adverse weather.*
- Matures uniformly at a very early date.*
- Large ears, dark green husks, good flag leaves.*
- Fine market type, 8 in. ears, mostly 12 row, well-filled to tips.*
- Bright kernels, sweet, tender, well-flavored.*

The heavy yields mean higher returns on this profit-making hybrid, first choice of nearly all early corn growers in our selling area.

See full descriptions and prices of these and many other important varieties of sweet corn on pages 8 and 9.

**If You Grow Sweet Corn,
TRY THESE THREE OUTSTANDING HYBRIDS**

**Thousands of Growers Have Found
Them the Top Money Makers
In their Seasons.**

← **HARRIS' NORTH STAR**

↑ **HARRIS' NORTHERN CROSS**

HARRIS' NORTHERN CROSS

High-Yielding, Handsome, Second-Early

Following North Star in season, another exclusive Harris' hybrid wins top honors for market and shipping. Here's why so many successful growers plant large acreages of Northern Cross:

- Husky, strong-growing plants, dark tassels and silks.*
- Tremendous production, often two good ears per stalk.*
- Uniform, well-shaped ears, extra dark green in color, with long fresh flag leaves.*
- Cylindrical ears completely filled with bright yellow kernels.*

If you haven't tried Northern Cross for market, we suggest you give it a real test this year.

F-M CROSS—Fine-Grained, Large Ears

Rapidly becoming one of the most popular varieties in the East and Central States, this hybrid fills the requirements of critical modern buyers as well as growers. It is an early-midseason type, widely grown for main crop. Here's what everyone likes about it:

- First and foremost, the fine-grained, closely packed deep narrow kernels on a large ear.*
- Choice quality with attractive appearance.*
- Large vigorous plant, ears borne high, easy picking.*
- Heavy yields, resistance to bacterial wilt.*

When well-grown on good land, F-M Cross gives wonderful results and we highly recommend it.

HARRIS SEEDS

THE FIRST CHOICE OF MANY EXPERT GROWERS

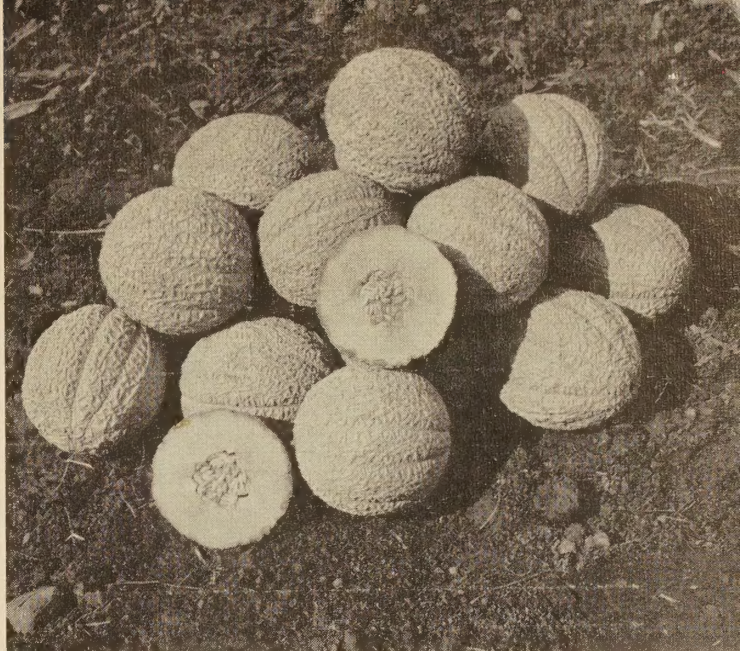

Frank Sawicki of Southold, Long Island, gets highest prices at auction for his crops of our Snowball Imperial Cauliflower.

Ralph Toto of Old Bridge, N. J., finds our new Green Light celery the best in type and quality under Eastern conditions.

Chas. Augello (left) and Al Vigneri (right), shown with our salesman Fred Rath, grow fine crops of our Cornell 456 on the Elba, N. Y., muck.

A Great Harris Introduction

565 HARVEST QUEEN

One of the finest market and shipping melons ever offered, Harvest Queen takes its place with North Star, Moreton Hybrid, Fireball and other outstanding Harris specialties as the acknowledged leader in its class.

We call your attention to these features:

Widespread adaptation throughout the major melon-growing sections of the East and Central States.

Vigorous vines, high yields of uniform fruit.

Medium size with oval shape, excellent for crating.

Tough rind with heavy netting, holds well after picking.

Extra-thick deep orange flesh.

Wonderful sweetness and flavor.

If you grow melons, try Harvest Queen.

Oz. 50c; 1/4 Lb. \$1.50; Lb. \$4.50; 5 Lbs. or more @ \$4.20; 25 Lbs. or more @ \$3.90; 50 Lbs. or more @ \$3.75.

~~~~~ Please read before ordering ~~~~~

## TERMS AND DISCOUNTS

### Cash Discount 3%

Our regular terms are cash with order for which we allow a discount of 3% on vegetable and flower seeds only. No discount on Plants and Roots, Onion Sets, Potatoes, Accessories or Field and Grass Seeds. All these items are strictly net cash with order.

**C.O.D. SHIPMENTS.** Not recommended because of extra C.O.D. fees and frequent delays in delivery. 25% cash down payment must be sent with order and cash discount is not allowed on C.O.D. orders. No C.O.D.'s accepted for plants, roots, potatoes, onion sets, nursery stock.

### Time Payments

If you wish to open an account with us, send name of your bank and at least two business references. To customers of established credit we offer these terms:

**Market Gardeners' Terms.** (Vegetable Seeds only.) All bills due and payable net August 1. (For goods shipped after that date, due Dec. 1st.)

**Florists' Terms.** (Flower Seeds only.) Due net June 1st. (On goods shipped after that date, Dec. 1st.)

**Note:** All Plants and Roots, Onion Sets, Potatoes, Accessories of all types, Field and Grass Seeds are strictly net cash with order and may not be charged.

## DELIVERY OF SEEDS

### Shipping Charges

**Prepaid Items: Except for Beans, Sweet Corn and Peas,** we pay shipping charges on all vegetable and flower seeds in the U.S.A. (Not Canada.) We usually send small lots by parcel post and larger lots by freight. If you want a shipment by parcel post which we could send more economically by freight, please consult your post office and include postage with your remittance; we will then refund the freight rate. If you specify express, we will ship by express collect and refund the freight rate.

**Not Prepaid Items: Beans, Sweet Corn and Peas** are shipped at your expense unless your seed order (not including Plants, Accessories, etc.) amounts to \$20.00 or over. We will then prepay by freight or parcel post, whichever is less. If wanted by express or mail on larger lots, see above.

**Plants and Roots, Onion Sets, Accessories, Field and Grass Seeds** are shipped at purchaser's expense except where quoted postpaid. Specify parcel post, express, freight or truck—note shipping weights.

### Method of Shipment

**PARCEL POST.** The most economical for smaller shipments: Up to 300 miles from Rochester, mail is cheaper than freight on 55 lbs. or less. Beyond 300 miles, 40 lbs. or less. Consult your post office for rates and send payment for postage on not prepaid items.

**EXPRESS.** Rates are high but service usually fast. Sent collect (see above). Be sure to give your nearest express office.

**FREIGHT.** Cheapest for large shipments but often slow. Minimum is \$3.00. Allow for delay and give nearest freight office and railroad.

**TRUCK.** Where direct service is available from Rochester, truck is usually faster than rail freight at slightly higher cost. No C.O.D. shipments by truck.

## CONDITIONS OF SALE

All of our seed is thoroughly tested for vitality and germination, and every package is marked with the results of our tests. We guarantee arrival in good condition and warrant to the full amount of the purchase price that our seeds and plants are of good vitality and true to name as described on the container. So many other factors besides the seed influence the success or failure of crops that, in common with all responsible seedsmen, we specifically limit our liability in all instances to the purchase price of the seed.

**PRICES** are subject to change without notice and to our stocks being unsold. For smaller quantities than listed here, refer to our general catalog which will be mailed to you separately.

**PLEASE ORDER EARLY.** While we can give your orders prompt service here, we suggest you allow for possible delay in shipping next spring.

~~~~~

CONTENDER—Long, smooth pods—mosaic resistant.

22 Contender

Tremendous Yields of Fine Oval Pods

For market, shipping and roadside stands where oval or semi-round pods are desired, many of the best growers prefer Contender. It is early, resistant to common bean mosaic and the dwarf compact vines set enormous crops, carrying the pods just outside the main stems where they are easy to pick.

The pods are very long (5½ to 7 in.) and smooth, with a marked tendency to be curved but still very attractive. They are thicker and of better eating quality than Stringless Black Valentine, yet hold up satisfactorily for shipping and are widely grown for market in all sections. Like most beans, they do best where soil moisture and fertility are high.

Our stock of Contender is true to type, reliable and productive, and we highly recommend it. See prices below.

90 Wade

Upright Vines—Round, Dark Green Pods

An excellent resistant, medium late variety, well adapted in many sections. The vines make a tall, erect growth, holding the pods well up and yielding large crops. The straight, smooth 5½-6 in. pods have a rich dark green color, most attractive for market, and they are slow to wilt in shipping. Their smoothness, color and fine quality are outstanding. Resistant to common bean mosaic and powdery mildew. See prices below.

NOT PREPAID: Beans are shipped at your expense unless your vegetable seed order is \$20.00 or more. We then prepay freight charges. See page 1.

78 SLENDERGREEN (New). Smooth, Slim Pods.....	.65	2.20	5.85	.34	.32
Big crops mature uniformly on husky vines. Round, slender pods are trim, straight and handsome, 5½ - 6 in. long. They stay slim and smooth without showing lumpiness until quite old. Fine quality.					
80 STRINGLESS BLACK VALENTINE. See above.....	.55	1.90	4.80	.27	.25
83 TENDERLONG 15. Mosaic-Tolerant60	2.00	5.25	.30	.28
Vines erect with concentrated set, coming on fairly early. Produces good yields of uniform round green pods 5½ in. long, used for market and processing.					
84 TOPCROP. Early, Dependable60	2.10	5.55	.32	.30
Best early round-pod type, prolific and vigorous with concentrated set and even ripening. Pods 5 - 5¾ in. long, straight, plump and of fine quality. Unusually heavy yields.					
90 WADE. Excellent Round Green Pods. See above.....	.65	2.00	5.25	.30	.28

ASPARAGUS SEED

One ounce will produce about 600 roots.

208 Waltham Washington (New)

The Latest Improvement in Yield and Type

An exceptionally productive new strain with excellent quality and good rust resistance. The spears are large and vigorous, and the buds remain tight and attractive until quite tall. They have a smooth dark color with the usual purplish tinge of the Washington variety. Developed by Prof. R. E. Young of the Waltham Station, Mass., after 25 years of patient selection and testing, Waltham Washington is a superior, high-yielding type that we recommend.

Oz. 80c; ¼ Lb. \$2.25; Lb. \$6.50;
5 Lbs. or more @ \$6.00 per Lb.

207 Viking

Dependable Stock

This strain is a reselected Washington type, developed several years ago at the Vineland Station, Ontario, Canada. It has been grown very successfully in commercial crops and produces more uniformly large spears than the standard Mary Washington.

Oz. 55c; ¼ Lb. \$1.50; Lb. \$4.50;
5 Lbs. or more @ \$4.25 per Lb.

Asparagus Roots: One-year roots of Waltham Washington and two-year roots of Viking available for spring shipment. See page 24.

BEANS

One pound of beans will plant 150 ft. of row.
60 to 75 lbs. per acre.

80 Stringless Black Valentine

Most Popular for Shipping

This slender oval bean has a wonderful market appearance and a great ability to stand shipping and handling. It is hardy and dependable under a wide range of conditions from Florida to New England and westward.

Our strain is the finest market type, with slender straight oval pods of uniform length and handsome appearance. The upright sturdy plants bear heavily and the true slim shape is retained even under adverse conditions. Vigorous, healthy seed, grown in Idaho or California. See prices below.

STRINGLESS BLACK VALENTINE
Finest market type—
a superior strain.

37 Improved Tendergreen

A Mosaic Resistant Strain

We offer an excellent strain of the famous Tendergreen bean, so widely grown for market and canning. It has pods of good length, 5½ to 6 in., well-rounded and meaty, fairly smooth with good dark color. The quality is excellent. The large vigorous vines are mosaic resistant, spreading in habit but hold the pods up well. Maturity in midseason with a fairly concentrated set. If you grow Tendergreen beans, be sure to grow this strain. See prices below.

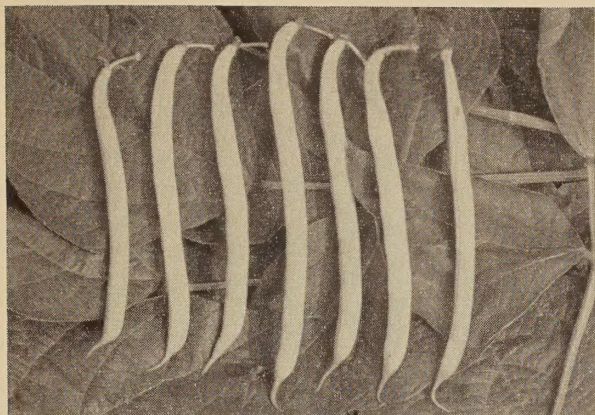

IMPROVED TENDERGREEN
High quality—round, straight pods.

77 Seminole (New)

Handsome Round Green Bean

Round bean growers in the Middle West and some other sections have been much pleased with Seminole, a recent release of the Everglades Station in Florida. The large vines set fine crops of smooth 5½-in. pods, maturing uniformly, several days later than Tendergreen. Meaty and of fine quality when picked young, the medium green pods are true round, fill well to the ends and have a strikingly attractive appearance. Resistant to mildew, mosaic and many strains of rust. Brown mottled seed. See prices at left.

BEANS—Continued on next page

KINGHORN WAX—The best round wax.

WAX-PODDED BUSH BEANS

21 Cherokee Wax

The Best Wax Bean for Market

This oval-podded wax bean resembles a yellow Stringless Black Valentine, with the same dependability and productiveness. The smooth clean look of the pods and their uniform oval shape make Cherokee the market favorite. Under a wide range of conditions, you can expect heavy crops of 5 to 6 in. pods, nearly straight with clear light yellow color and good quality. Cherokee is an ideal market type and is extensively used by the most important growers. See prices below.

CHEROKEE WAX—Heavy-yielding oval wax.

NOT PREPAID (See page 2)

	1 lb.	5 lbs.	15 lbs.	25 lbs. or more @	500 lbs. or more @

55 PENCIL POD BLACK WAX. Round and Meaty.....	.65	2.10	5.55	.32	.30

Old favorite round wax bean. The yellow pods are nearly straight, thick-meated and of good quality. Black seed.

43 Kinghorn Wax

Round Slender Pods—Rich Golden Color

Now the leading round wax bean, not only for processors but also for market. A pure white-seeded Brittle Wax, Kinghorn has proved highly dependable and productive. The vigorous, upright vines bear smooth, attractive, fully-rounded pods, 5 to 6 in. long, meaty and of creamy golden color. High quality. See prices at left.

HORTICULTURAL AND POLE BEANS

40 Kentucky Wonder

Special Strain—White-Seeded

This special white-seeded strain of Kentucky Wonder produces better yields and finer pods than others we have tested. The tall vigorous vines are remarkably healthy and prolific and the pods are exceptionally long, straight and meaty. If your market wants Kentucky Wonder beans, try this stock; it has been a top favorite for many years. See prices at right.

FRENCH HORTICULTURAL—Bush shell bean.

28 French Horticultural

Harris' Special Strain—Finest Shell Bean

Harris' French Horticultural is often considered the best bush shell bean available and we are usually short of seed. For 1957, a better supply is in prospect and we have hopes of meeting the demand for this superior strain.

The vigorous vines are of semi-runner habit, and on moist heavy land the runners are sometimes quite long. The pods are uniformly long and attractive, nearly straight and brilliantly splashed with scarlet. The beans are large and plump and show red stripes as they mature. See prices below.

44 King Horticultural—Pole Type

Harris' Special Large-Seeded Strain

Uniform, attractive and heavy-yielding, this leading strain is widely grown both as a snap or green-shelled pole bean. The broad pods are stringless, a little shorter than French Horticultural with larger, rounder seed and almost as good coloring. On good well-drained land it can be grown without support. This is an excellent strain, developed and grown only by us. See prices below.

NOT PREPAID (See page 2)

FAVA BEANS or Broad Beans

96 Broad Improved Long Pod—First Choice for Market

These large flat oblong beans are used in the green shell or dry stage and are profitable on some markets. The vines grow erect, medium tall, and produce good crops of pods up to 7 in. long. Our customers have been well pleased with this stock. Must be planted early.

Not Prepaid (See Page 2). Lb. 60c; 5 Lbs. \$2.15; 15 Lbs. \$5.70; 25 Lbs. or more @ 33c per Lb., 500 Lbs. or more @ 32c per Lb.

LIMA BEANS

26 Fordhook U. S. 242—Uniform—Heavy Yielding—Dependable

Fordhook U. S. 242 is the best and most widely grown bush lima. It has proved itself more dependable, more productive and more profitable than the old Fordhook, and it consistently sets big crops of fine beans even under adverse conditions, such as hot, dry weather. The large, vigorous plants produce heavy yields from the first picking right through till frost.

The pods are remarkably uniform—every one is good sized, nearly straight and closely filled with 3 or 4 choice, thick beans. The fine shape and size hold up even on the late sets, and the quality is excellent.

Our treated seed is the finest to be had and has built a reputation with the best growers for high yield and dependability. See prices below.

NOT PREPAID (See page 2)

	1 lb.	5 lbs.	15 lbs.	25 lbs. or more @	500 lbs. or more @

Produces quantities of 3 - 3 1/4 in. pods, containing 3 or 4 small flat well-colored beans. Noted for fine quality and long-lasting fresh green color.					
26 FORDHOOK U. S. 242. Heavy Yields.					
See above60	2.10	5.55	.32	\$.30
35 IDEAL or Mammoth Podded POLE LIMA.60	2.10	5.55	.32
Pods 5 to 7 in. long, early and prolific. Broad flat seeds, delicious to eat.					

FORDHOOK U. S. 242—The best and most productive bush lima. ➔

HARRIS' FREE DOUBLE-TREATMENT GUARDS LIMAS AGAINST MAGGOTS AND ROT

Our Orthocide-Dieldrin treatment permits earlier planting, gives better stands and fine crops. All our lima bean seed is treated at no extra charge.

CROSBY GREEN TOP
Harris' superior bunching strain.

BEETS $\frac{1}{4}$ lb. of seed will sow about 250 ft. of row. Sow 10 lbs. per acre for rows 14 in. apart. 6 to 8 lbs. per acre for rows 18 in. apart.

211 Crosby Green Top

The Best Bunching Type

We developed this exclusive green-topped beet out of our famous Harris' Special Crosby, and it has now become the most popular bunching strain in many sections. The tall erect tops hold their fresh look and their bright glossy green color all season long, even in cool weather when other strains get red-dish and dull.

The roots are of the finest bunching type, smooth-skinned, refined and well-colored. The uniform shape with slender tap roots, together with the green tops makes them bring premium prices. For the best in bunching beets, plant Crosby Green Top. Also valuable to grow for greens. See prices below.

223 King Red (New)

Shorter-Topped Detroit Type

An excellent market strain of Detroit especially recommended for muck and wherever a shorter top is desired. Also very popular to grow for canners in the East.

The tops are several inches shorter than our Detroit, and the globe-shaped roots are smooth and attractive with dark red skin and small tap roots. The interiors are deep red throughout and the quality is excellent. A good yielder, handsome and widely adapted. See prices below.

KING RED
Excellent Detroit type.

	$\frac{1}{4}$ lb.	1 lb.	5 lbs. or more @	25 lbs. or more @
210 BEETS FOR GREENS.....	\$.40	\$1.00	\$.95	\$.85

BROCCOLI 1 oz. produces 2000 to 3000 plants. 4 oz. per acre.

233 Green Mountain

A new early strain, well-liked in some areas for both market and freezing. The bluish-green center heads are fairly small-budded, and have branched stems that may be easily divided for the freezers. Lateral shoots develop rather slowly but the type is good. Matures early, adapted especially for spring and summer crop. Plants uniform in type and very productive.

Oz. 75c; $\frac{1}{4}$ Lb. \$2.10; Lb. \$6.00;
5 Lbs. or more @ \$5.75 per Lb.

CATSKILL—Fine big sprouts—a wonderful strain.

234 Waltham 29

Fine Big Heads for Fall Market

A uniform heavy-yielding type, the most widely grown for fall crop in the East. The vigorous plants are short and stocky and mature very evenly. They produce large, heavy center heads, of dark blue-green color and with evenly developed curd. When these are cut, the strong side shoots bear good sized, tight heads, excellent for freezing or market.

Not recommended for spring transplanting, but very popular for fall, especially in the Northeast and along the Atlantic Coast. Developed by Dr. R. E. Young of the Waltham Field Station, Mass. Note: Be sure your soil has adequate boron.

Oz. 75c; $\frac{1}{4}$ Lb. \$2.10; Lb. \$6.00;
5 Lbs. or more @ \$5.75 per Lb.

BRUSSELS SPROUTS

1 oz. produces 2000 to 3000 plants. 4 oz. per acre.

236 Catskill—Heavy Yields—Finest Sprouts

Since the Joseph Harris Company first introduced Catskill, it has been universally recognized as the best variety to grow in the East. Expert growers in many of the best sprout growing sections now use it almost exclusively. They prefer its dwarf, compact, uniform growth and the heavy sets of large, firm, dark green sprouts. The quality and dependability of our strain make it by far the finest and most productive to be had.

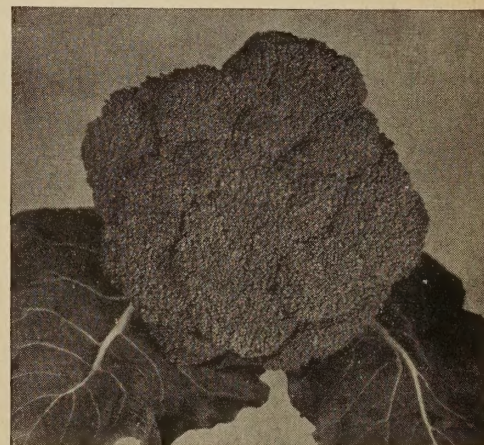

$\frac{1}{4}$ Oz. 70c; $\frac{1}{2}$ Oz. \$1.20; 1 Oz. \$2.15;
 $\frac{1}{4}$ Lb. \$7.10; 1 Lb. \$25.00.

230 Italian Green Sprouting

Calabrese Strain—Widely Adapted

For many years the standard variety and still recommended. It is medium early with large plants and produces the compact, tightly budded heads that the market wants. The side shoots develop freely and are of good size and excellent color. This strain has been successful for spring, summer and fall crops and is widely adapted.

Oz. 60c; $\frac{1}{4}$ Lb. \$1.65; Lb. \$5.00;
5 Lbs. or more @ \$4.75 per Lb.

WALTHAM 29—The best fall broccoli.

CARROTS

An ounce plants about 300 feet of row.
Sow 2 to 4 lbs. per acre, depending on the width of the rows.

307 Gold Pak (New)

The Ideal Long Slim Carrot

An All-America Winner in 1956 and already our best-selling carrot for bunching and packaging. The tops are short, dark green and strong, and the roots are long, trim and slender, just what the buyers want. The outside color is deep orange and the interior is bright orange with small cores. Exceptionally uniform, well-shaped and smooth, even when left a long time in the field. Roots are 8½ to 10 in. long, nearly cylindrical, very attractive. Adapted on both muck and upland. See prices below.

313 Imperator Long

Attractive Bunching Type

For several years now, this has been the standard shipping and packaging carrot in the country and is still highly popular. It is earlier than Gold Pak with large vigorous tops, more diameter at the shoulder and slightly more tapered shape. The color is good and the uniformity and fine appearance of our strain have won it a leading place with critical growers. See prices below.

315 Nantes — Long Strain

Fine Flavor—Uniform Type

The fine appearance and high quality of the original Nantes, or Coreless, are here combined with added length to make a better bunching carrot. Very early with a long, nearly cylindrical and slightly pointed shape, it has a bright waxy surface and a rich orange red color. Very sweet and tender. Tops short and small. See prices at right.

GREEN LIGHT—John Pirrello (right), expert grower of Rush, N. Y., and Wilbur Scott, our plant breeder, are well pleased with Green Light's performance.

384 Utah 52-70

Excellent Main Crop Strain

Now the leading Utah strain in the country, well liked both in the West and East. It is a strong grower, rugged and healthy, and makes tall erect plants that stand handling well. The stems are thick, round, smooth, waxy and extra long to the first joint, 10 to 11 in. Excellent quality but somewhat susceptible to pithiness when past maturity under New York conditions. See prices at right.

NO-DAMP-OFF SPHAGNUM MOSS

The perfect medium for starting celery seed. This finely ground moss, used alone or as a ¼-in. layer over your regular soil, increases germination, holds moisture and prevents damping off.

10 oz. pkg. 95c; 2 cu. ft. \$3.25
postpaid to 5th zone.

CELERIAC — "Knob" Celery

352 LARGE SMOOTH PRAGUE

This is the standard market garden variety, producing good sized bulbs of finest type.

Oz. 85c; ¼ Lb. \$2.65; Lb. \$8.00.

321 Royal Chantenay

Heavy, Smooth, Cylindrical Roots

This excellent strain grows somewhat more cylindrical in shape and about an inch longer than Red Cored Chantenay. The greater length gives extra tonnage per acre and the smooth even shape with little taper means less waste in processing. It has proved highly successful with both growers and canners, and we strongly recommend it. Fine interior color and quality. See prices below.

ROYAL CHANTENAY

Big tonnage—excellent canning type.

CELERY

An ounce of seed will produce about 8000 plants.
It requires 20,000 plants to the acre.

370 Green Light (New) —(See Photo on Front Cover)

Tested and acclaimed by several leading growers in the East, this new Harris introduction is outstanding under our conditions and has the shape, type and quality to compete with Western celery on our markets. The plants are slightly shorter than Utah 52-70 but with good length to the first joint, 9 to 10½ in. They are full, erect and compact, well squared at the base, and can be handled with a minimum of breakage. In the crate, they make a beautiful pack. The stems are very thick and well-rounded, slightly ribbed, crisp and of excellent quality. They hold in prime condition longer than 52-70 and the hearts are good.

Not recommended for early planting as it bolts rather easily but the best yet for late summer and fall crops, especially on muck. Try Green Light this year. See prices below.

Yellow or "Self-Blanching" Celery

	¼ oz.	½ oz.	Oz.	¼ lb.	1 lb.
358 CORNELL 19. Long, Crisp and Tender.....	.50	\$.85	\$1.55	\$5.25	\$18.00
Long-stalked, smooth ribbed and deeply rounded. Better quality and keeping ability than Cornell 619. Yellows resistant and adapted to both muck and upland. Bolts quickly if started too early.					

Green Varieties

362 EMERSON PASCAL. Blight Resistant, Highest Quality...	.50	.85	1.55	5.25	18.00
Early, blight resistant. Unusually tender and brittle with smooth thick stems and good length. Distinctive foliage. Plant close (5 to 6 in.) for most erect growth.

384 UTAH 52-70. Tall, Vigorous Type. See at left.....	.70	1.15	2.15	7.10	25.00

GOLDEN ACRE SPECIAL

Painstaking selection by Wilbur Scott keeps our strain at the top.

241 Badger Market (New)

Outstanding for Small Solid Heads

To meet the fresh market demand for small, firm heads of high quality, grow Badger Market, a new variety from Dr. J. C. Walker of Wisconsin. It is an attractive second-early type, about a week later than Golden Acre, highly resistant to yellows and moderately resistant to mosaic. It stands well without bursting and responds to good fertility and moisture.

The small round bluish-green heads are unusually compact with short cores and excellent quality, tender with mild flavor. Plants small and open, should be planted close. An ideal market type, especially where other varieties get too big. See prices below.

BADGER MARKET—Yellows resistant.

273 Greenback Y.R. (New)

Fine Midseason Type for Market

Introduced last year, Greenback proved highly successful for market and shipping in many areas. A medium-sized, firm, vigorous variety, it matures after Copenhagen, yields well and has high quality. The plants are fairly large with dark blue-green leaves, somewhat crinkled and ruffled at the edges. The heads are round to slightly deep, solid, exceptionally well-colored and attractive.

Greenback stands cold well and is used for wintering-over along the coast as it resists bolting. Also valuable as a midseason market type all during the summer and fall. Resistant to yellows. Prices at right.

GREENBACK Y.R.—Fine color and quality.

CABBAGE 1 oz. produces 1500-2000 plants in open ground, about 3000 in frames. 1/4 to 1/2 lb. per acre.

271 Golden Acre Special—The Best Early Cabbage

This finely-bred special Harris strain is just about the finest early Golden Acre on the market. It is highly uniform, very attractive in appearance, and ripens a large proportion of heads at one time. The plants are compact and quick-growing, producing round firm heads of fine quality. These features have made it the favorite of the most particular growers. We strongly recommend our strain to those who want absolutely the best in extra early cabbage. See prices below.

272 Golden Acre Yellows Resistant

Fine Early Resistant Strain

Growers who have yellows find this uniform stock highly profitable and dependable for early market. Almost as early as our Special Strain, it has short-stemmed plants and solid round heads of ideal size and excellent blue-green color. For first early crop on infected soil, this is the finest resistant type. See prices below.

290	RED ACRE. Early Round Red..... Since this fine strain is not available this year, we suggest 288 Resistant Red Acre in its place.		Crop Failed		
291	RED DANISH..... Firm, round heads with a fine deep red color, good for storage.		Crop Failed		
288	RESISTANT RED ACRE (New)..... Heads round, solid, well-colored. Slightly larger and later than Red Acre. A good uniform stock.	.95	3.00	9.00
294	WISCONSIN BALLHEAD, IMPROVED. Yellows Resistant..... Well-adapted for summer and early fall crops on yellows soil. Plants fairly small, heads round, clean and firm. Earlier than most Danish, not cold-resistant and not a storage type.	.85	2.65	8.00	7.75
296	WISCONSIN COPENHAGEN. Yellows Resistant..... Resistant Copenhagen Market strain with deeply rounded, solid heads of excellent color and ideal size for market, 3 - 4 lbs. Ready 7 to 10 days after Golden Acre. For summer or fall.	.80	2.25	6.75	6.50
295	WISCONSIN HOLLANDER. Yellows Resistant..... This vigorous taller-growing late Danish type has medium to fairly large round heads of good firmness and color.	.85	2.50	7.50

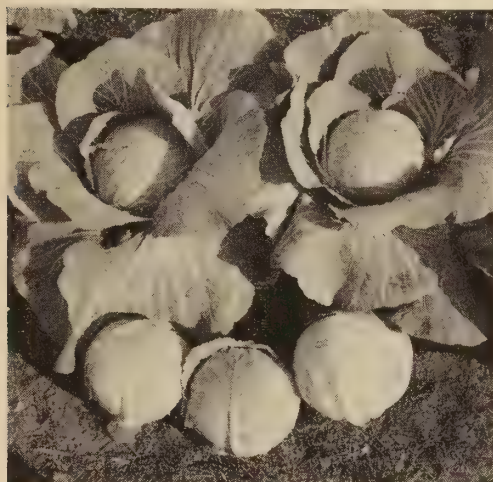

THE CABBAGE SEED SITUATION. Unusual freezing weather in both the Pacific Northwest and Europe destroyed many cabbage seed crops last winter and good seed is scarce. We urge early ordering and care in planting. Except for a few lots grown in the West on which germination would be greatly affected, our seed will be **HOT WATER TREATED** as usual.

255 Harris' Danish Ballhead Cabbage—Special Strain. Uniform—Solid—Superior Keeper

For modern markets, the medium sized, firm, well-colored heads of our special Danish Ballhead are considered the best obtainable. The plants are short-stemmed and compact, and the rounded heads are well wrapped, attractive, bluish green and of perfect size for market and shipping. Whether grown in midsummer, early fall or for winter storage, they command top prices.

Its vigor, uniformity and solidness make our Danish a consistently heavy yielder, and it is an excellent keeper, holding its color well and coming out of storage in excellent shape. It matures along with most Danish types but stands much longer without splitting.

Growers all over the Northeast report our strain outstanding for uniformity, firmness and market quality. For the best, grow Harris' Special Strain. See prices on preceding page.

BADGER BALLHEAD

Good firm heads of desirable size and shape.
Resistant to yellows.

240 Badger Ballhead (New)

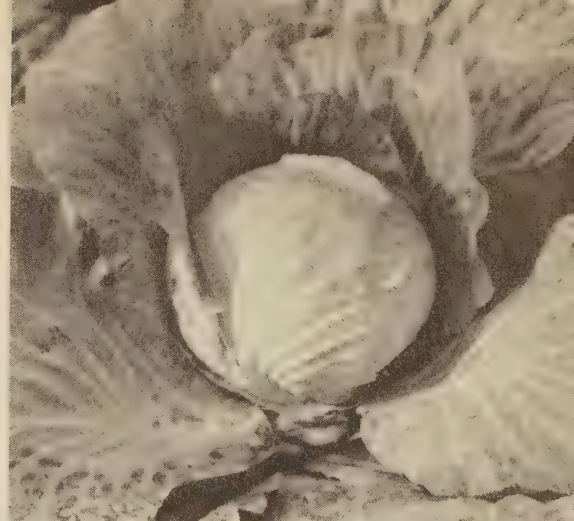

A Fine Resistant Danish

Developed at the University of Wisconsin, Badger Ballhead is an excellent new resistant Danish cabbage for market and shipping. The short-stemmed plants are very compact and the heads are small to medium in size, round or deep in shape, and of fine bluish-green color. The outer leaves are strongly attached for good shipping protection. Well-adapted for late summer and fall use, highly recommended for yellows soil. See prices on preceding page.

256 Hollander, Short Stem

Refined, Hard-Heading Danish Strain

This is the same fine uniform strain offered several years ago as "Danish Ballhead, Hollander Type." The blue-green heads are deep round or oval, a little smaller than our Danish Special and they mature a few days earlier. The sturdy plants are short stemmed and adapted to close planting. Many growers for market and storage have found this highly successful. See prices on preceding page.

DANISH BALLHEAD—Harris' Special Strain.

CHINESE CABBAGE

Sow in July or August.

1 to 1½ lbs. will sow one acre.

282 Michihli—The Best Variety

Michihli is an improved strain of Chihli cabbage, more uniform and of better color. Its outer leaves are dark rich green without yellow shading and the heads are hard and blanch well. It is a sure header with greater vigor, very successful on muck and upland. Hot Water Treated.

Oz. 35c; ¼ Lb. 95c; Lb. \$2.75;
5 Lbs. or more @ \$2.50 per Lb.

CAULIFLOWER

One oz. produces up to 2000 plants in open ground or 3000 in frames.

344 Snowcap—Early—Fine, Deep Heads

An early variety, maturing almost with the earliest strains and producing smooth, deep, solid heads that rival the later types. Medium-sized, well-domed with good color and texture, these fine heads mature quickly and evenly and cut out clean. The plant affords good head protection with plenty of jacket leaves. Excellent for early fall, late spring and midseason crops. Highly recommended. See prices below.

339 Snowball Imperial—The Finest Strain

Snowball Imperial, a highly successful Harris introduction, is now widely recognized as the best Snowball or Erfurt strain on the market today. Not only for fall crops but in midsummer as well, it has excelled all others in quality, color and uniformity. It cuts out practically 100% perfect heads, deep and solid with snow-white curds.

The stocky plants have an abundance of jacket leaves giving excellent protection to the medium-sized heads. Ready to cut fairly early, it matures over a short period, an advantage for cauliflower specialists.

The consistently superior color and uniformity of Snowball Imperial make it our most highly recommended variety, outstanding in Florida, Long Island and the Catskills and well adapted all over the East. Be sure to plant some this year. See prices below.

340 Snowball, Perfected Strain—Vigorous, Dependable Stock

The standard midseason cauliflower and still preferred by many growers because of its vigor and longer harvest period. The heads of this strain are large and deep with a white attractive curd. The robust plants provide good leaf coverage and since they mature at different times, the crop is more easily handled by the smaller grower.

Our stock of this strain is uniform and dependable and has been well received by critical customers. See prices below.

Our Cauliflower Seed is HOT WATER TREATED for protection against black-leg and black rot.

342 Snowball 25—Vigorous Later Type

This rugged strain of Snowball cauliflower has also proved one of the very finest obtainable and has given great satisfaction. It is a little later than Snowball Perfected and has a rather long harvest period which is preferred by many growers. The plants are robust and leafy and they produce fine deep smooth heads, extra heavy and solid. Under a wide range of conditions, Snowball 25 cuts a very high percentage of No. 1 heads and we recommend it highly. See prices at right.

SNOWBALL IMPERIAL

NORTH STAR
Harris' profit-making early hybrid.

SWEET CORN

One pound of seed will plant 350 to 400 hills; 10 to 12 lbs. will plant an acre.

138 Sun-Up —The First to Market (65 days)

Sun-Up is our earliest market hybrid and is very popular for extra early crops. It is usually ready to pick a few days before North Star, and the ears are 6½ inches long with 10 or 12 rows of broad plump kernels with remarkable sweetness for this season.

This exclusive Harris' variety is grown from a three-way cross, and it combines earliness, vigor, good quality and size in the first-early season. Not wilt resistant. See prices on next page.

130 North Star

Still the Best for Early Market (67 days)

Now universally recognized as the finest early variety, our North Star is truly a great corn. Developed and sold only by us, it is still the largest and most profitable kind to grow for the higher priced early market.

North Star is bred for early planting and makes a rapid vigorous growth even under tough, cold weather conditions. The sturdy plants bear quantities of large, handsome ears, dark green in color with plenty of blades or flag leaves.

The kernels are deep creamy gold, tender and sweet, and the ears are fully seven inches long, mostly 12-rowed and filled right to the tip. The large thick husks make them fresh and attractive looking. Altogether a wonderful hybrid for all growers of early corn. See prices on next page.

Caution: North Star is not resistant to wilt (Stewart's disease) but can be protected by a thorough spray program. For weed control we suggest a pre-emergence spray instead of 2,4-D.

107 Carmelcross

Large Ears, Fine Quality (72 days)

Highly popular second-early hybrid, very widely adapted. The ears are large, 8 to 8½ in. long, closely filled with 12 to 16 even rows of broad golden kernels, delicious to eat. The large husks cover the tip well and the size and quality make them desirable for market.

The dwarf stocky plants are well adapted for spraying or dusting and they yield well under a wide range of conditions. Fairly good resistance to wilt, needs protection under severe conditions. See prices on next page.

Wilt in 1957?

Because of last year's cold winter, bacterial wilt or Stewart's disease was not a problem in most areas. However, a mild winter could bring a recurrence and we suggest that growers keep in touch with State College recommendations or write us in late March or early April.

CARMELCROSS
Second early—large ears, fine flavor.

132 Northern Cross

Outstanding for Market (73 days)

The beautiful market appearance, unusual vigor and tremendous yields of our Northern Cross have created a great demand among many of the largest and best growers. Northern Cross is a second-early hybrid, ripening just after Golden Beauty and has a husky, strong-growing plant distinguished by its dark tassels and silks.

The good-sized symmetrical ears have smooth dark green husks with many long flag leaves, giving a wonderful fresh look for local markets or shipping. The 8 in. ears are cylindrical, perfectly filled to the tip with 12 rows of rather small kernels of bright yellow color.

Not resistant to wilt but can be well protected by spraying. See prices on next page.

112 Golden Beauty

Attractive Early Hybrid (70 days)

Golden Beauty is a high quality, wilt-tolerant corn maturing just after North Star. Developed by Dr. W. H. Lachman of Mass. and an All-America Winner, its attractive husks are smooth and tight, though somewhat slender, with good color and fair flag leaves. The husked ears are 7 in. long, usually well filled to the tips with 12 to 14 rows of medium sized, refined, bright golden kernels. Very popular because of its quality, yield and ability to stand wilt (although it should be sprayed under severe wilt conditions). See prices on next page.

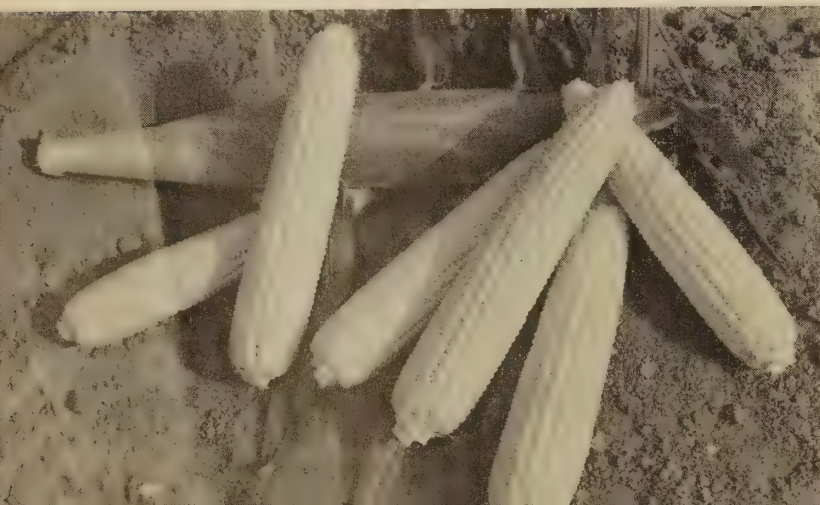

NORTHERN CROSS
Handsome market appearance—heavy yields.

103 Barbecue

Early-Midseason—Choice Quality (75 days)

Maturing just after Carmelcross, this attractive hybrid brings high quality corn earlier than ever before. The smooth bright husks are slender, trim in appearance, somewhat small for large ear markets but fine for roadside stands. The uniform ears are about 8 in. long with 12 even rows of rich golden kernels, sweet, tender and well-flavored. They have fine sales appeal and the quality will bring customers back for more. Moderate wilt resistance. Developed by Dr. Lachman in Mass. See prices on next page.

F-M CROSS
Small bright kernels on a big handsome ear.

109 F-M Cross

Wonderful Small-Grained Hybrid (79 days)

Here is the corn that markets want! Large ears, high quality, good appearance and most important, narrow deep tender kernels with a bright appetizing look.

F-M Cross is an excellent yielder with tall vigorous plants, picks easily and is resistant to wilt. It matures just ahead of Golden Cross and is widely used for main crop. The ears are cylindrical with smooth bright green husks and good flag leaves. Husked, they average 7½ to 8½ in. long, closely packed with 14 to 16 rows of delicious small kernels.

This hybrid needs good soil and plenty of fertilizer, also irrigation if possible, but it well repays care in production. It is a top quality corn we highly recommend. See prices on next page.

145 Wonderful (New) —Harris' Finest Flavored Corn—Absolutely the Best to Eat (81 days)

"Wonderful to eat," says everyone who has tried this deliciously sweet, tender new Harris corn. When well grown, it is large and handsome enough to sell on stands and local markets and many growers with a real quality trade have found it highly successful.

The husks are long and medium-slender with good flags, and the 8 to 9 in. ears are tapered or pointed to the tip. The kernels are fairly small, closely packed, occasionally with uneven row count from 12 to 16 (see photo). But the taste is the wonderful feature—tender pericarp, creamy texture, rich sweet flavor. It matures just ahead of Golden Cross and holds well in prime condition. For the best eating corn, grow Wonderful. Moderate wilt resistance. See prices below.

WONDERFUL—Favored where top quality counts.

117 Golden Harvest

An Improved Golden Cross (84 days)

Similar to Golden Cross in season, type and quality, Golden Harvest has several advantages: better seedling vigor, greater wilt resistance, and darker, more attractive husks.

The 8 in. ears are remarkably uniform, cylindrical and well filled to the tips and have the advantage of white silks. Tender and sweet, the golden kernels are practically the equal of Golden Cross in quality, and because of its resistance to wilt, Golden Harvest is much safer to grow. See prices below.

122 Iochief

Fine-Grained, Wilt-Resistant (85 days)

Now one of the most widely grown midseason hybrids, Iochief makes a big attractive ear with 14 to 20 rows of narrow, close-packed, very deep kernels which have a bright, appetizing look and a clear golden color.

The ears are large, 8 to 9 in. long, slightly tapered and well wrapped in a good husk, and they mature just after Golden Cross. The plants are highly wilt resistant and drought tolerant, and the husky well-rooted stalks grow erect with few suckers. When planted close, they produce a heavy tonnage per acre.

A wonderful main crop corn, Iochief's only fault is that it is hard to pick. Prices below.

115 Golden Cross Bantam

Standard Midseason Type (84 days)

For many years this famous hybrid was the most widely grown corn for market and canning and it is still a good one. Our strain produces uniform, attractive ears, 8-in. long and of fine quality (surpassed only by our new Wonderful). They are well filled to the tip and bear 12 to 14 straight even rows of medium sized kernels. Unfortunately it has little wilt resistance and we suggest Golden Harvest in wilt areas. See prices below.

***THICK KERNELS.** Just as productive as the flats but not as even in size. Supplied on orders of less than 10 lbs. and a real bargain in larger quantities.

EXTRA REASONS FOR GROWING HARRIS' SWEET CORN: All these money-saving services are FREE.

IOCHIEF—Glossy, deep-kerneled, attractive.

140 Tempo (New)

Vigorous and Productive (86 days)

For tremendous production of good sized ears, try this vigorous market and shipping hybrid. Of the type widely grown for midseason or main crops, it has dark attractive husks, long tip coverage and good flag leaves. The husked ears are quite large, slightly tapered and well filled at the tips, and they have the small deep, tight-packed kernels that present day markets require. The seven-ft. plants are wilt resistant and usually nearly every one produces two marketable ears. See prices below.

108 Double Duty

Great Yields of Handsome Ears (86 days)

This main crop hybrid is a top yielder and produces attractive ears of popular market type under many conditions. The long tip coverage, dark smooth husks and abundant flag leaves provide a ready sale. The small deep glossy kernels are well-arranged in 14 to 16 rows and the tips are well-filled. Frequently the tall plants bear two fine ears. Good wilt resistance. See prices below.

MARKETER—Highly popular.

CUCUMBERS

¼ lb. of seed will plant about 300 hills or 200 ft. of row.
2 lbs. per acre in hills or 3 to 4 lbs. drilled.

430 Marketer

Still the Leading Slicing Variety

By far the most popular cucumber we offer, Marketer has the shape, size, color and yielding ability that both growers and their customers want. The smooth slender fruits are uniform and trim in appearance with dark green color, extending all the way down to the blossom end. They average 7 to 8 inches long, straight and slightly tapered at the ends. The flesh is thick with a small seed cavity.

Marketer produces tremendous yields of these slim, elegant, deep green fruit. One great advantage is that the fruit on the late pickings is just the same excellent type as on the first. For extra fancy slicers, grow our Marketer. See prices below.

401 Ashley

Excellent Dark Green New Variety—Highly Resistant to Downy Mildew

This new mildew-resistant slicer from Dr. W. C. Barnes in South Carolina has made a great hit in all sections, even where mildew is not a problem. Ashley is early, a week or ten days ahead of Marketer, and the splendid deep green color is outstanding. The shape proved entirely satisfactory despite an occasional tendency to taper at the stem end. The yields are excellent and they are good shippers. Try Ashley this year. See prices below.

437 Sensation Hybrid—Heavy Yielding—Improved Type

This productive F₁ hybrid has been much improved in appearance and performance. The vines are large-leaved and very vigorous, standing up well all season and bearing large crops in spite of mosaic and some other diseases. The color is now much better and although they are thicker and more blunt-ended than Marketer, the fruit are of fine market type, especially when picked frequently. Hybrid vigor gives heavy yields, and Sensation has proved a most profitable kind to grow. See prices below.

SENSATION HYBRID—Tremendous vigor and yields.

CHICORY or Italian Dandelion

387 CICORIA CATALOGNA (Radichetta).

This is the asparagus type used for spring planting. Grows rapidly, resembling dandelion. Young leaves and seed stalks are harvested.

Oz. 50c; ¼ Lb. \$1.35; Lb. \$4.00;
5 Lbs. or more @ \$3.75 per Lb.

388 CICORIA, SAN PASQUALE.

Produces an abundance of broader, more deeply cut leaves, lighter green in color.

Oz. 50c; ¼ Lb. \$1.35; Lb. \$4.00;
5 Lbs. or more @ \$3.75 per Lb.

CHICORY or French Endive

386 WITLOOF, Special Forcing Strain.

An exceptionally fine strain, especially selected to produce the highest percentage of perfect heads when forced.

Oz. 50c; ¼ Lb. \$1.40; Lb. \$4.25.

COLLARDS

392 VATES. The Best Variety

An excellent type developed by the Virginia Truck Experiment Station. More dwarf-growing and compact; greater uniformity than the older kinds.

Oz. 20c; ¼ Lb. 55c; Lb. \$1.50;
5 Lbs. or more @ \$1.35; 25 Lbs. or more @ \$1.25.

CORN SALAD

393 LARGE ROUND-LEAVED. Dark Green Strain.

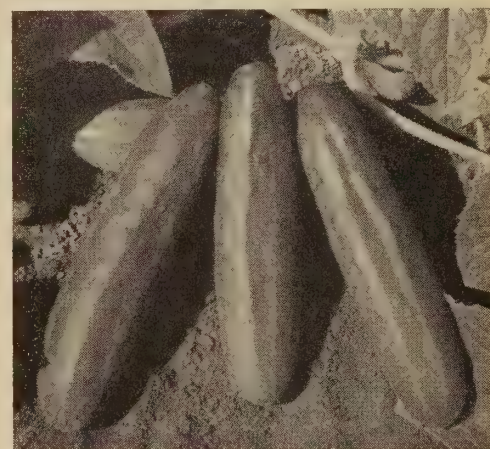

The leaves are uniformly large and dark green. Finest quality imported seed.

Oz. 35c; ¼ Lb. 85c; Lb. \$2.50.

435 Ohio MR 17

Excellent Mosaic-Resistant Pickle

With its mosaic resistance, heavy yields and excellent type, Ohio MR 17 has proved to be the best pickle to grow for many markets and packers. Developed by the Ohio Experiment Station and the H. J. Heinz Co., it is a little longer than MR 25 or the old standard National Pickling, nearly cylindrical with blunt ends and has a very attractive appearance. Slightly darker than most pickles, makes a fine uniform pack. See prices below.

ASHLEY—The best mildew resistant variety.

	Oz.	¼ lb.	lb.	5 lbs. or more @	25 lbs. or more @
401 ASHLEY (New). Beautiful Dark Color. See above.....	\$.35	\$1.00	\$3.00	\$2.90	\$2.75
405 CHINA. Extra Long Fruit of High Quality.....	.55	1.45	4.00
Grows up to 15 or 20 in. long, usually curved with rather light green color. Not a market type, but has a delicate flavor that is often much appreciated. Vigorous and disease resistant.					
416 GREEN THUMB PICKLE. Smooth, Dark Green Fruit.35	.90	2.50	2.35
A white-spined Double Yield type, early and productive, with cylindrical shape, blunt, rounded ends and dark green color.					
418 HARRIS' DOUBLE YIELD. Fine for Pickles.....	.30	.80	2.25	2.10	2.00
Good early yields of smooth, handsome dark green pickles, straight, blunt-ended and cylindrical. Vines produce abundant crops, start to bear very early.					
430 MARKETER. The Outstanding Slicer. See above.....	.35	.85	2.50	2.25	2.00
50 lbs. or more @ \$1.75					
434 NIAGARA. Highly Mosaic Resistant Slicer.....	.35	.95	2.75	2.50	2.25
Excellent mosaic resistance. Long blunt-ended fruit, nearly cylindrical with glossy dark green color. Fruit are sometimes scarred and curved, but Niagara is well liked by many growers in mosaic areas.					
435 OHIO MR 17. Mosaic-Resistant Pickle. See above.30	.80	2.25	2.10	2.00
432 OHIO MR 25. Fine Pickling Type. Very Resistant.30	.80	2.25	2.10	2.00
Shorter, more blunt-ended than Ohio MR 17 with even greater mosaic resistance and the same attractive, medium dark color. Uniform and handsome.					
437 SENSATION HYBRID. Very Prolific. See above.....	3.75	12.00	39.00
439 STONO (New). Mildew Resistant Slicer.....	.35	.85	2.50	2.25	2.00
Vigorous and productive, resistant to downy mildew and a good slicing variety. Slightly later, not as well-colored as Ashley but often has somewhat more vigor.					
438 STRAIGHT EIGHT. Early Slicer.....	.35	.85	2.50	2.35	2.25
A very early slicer, producing heavily when others are just beginning to bear. Smooth straight blunt-ended fruit but only fair color. Often profitable.					
445 WISCONSIN SMR 12. Resists Scab and Mosaic.....	.35	.85	2.50	2.35	2.10
Highly resistant to both scab (spot rot) and mosaic and a heavy yielder of firm, attractive, well-shaped pickles. Fruit of National Pickle type, lighter colored than the Ohio strains and excellent for processing.					

CRESS

396 EXTRA FINE CURLED, Pepper Grass.

A hardy quick growing annual, producing an abundance of dark green leaves.

Oz. 20c; ¼ Lb. 55c; Lb. \$1.50.

398 WATERCRESS, Improved Broad Leaved.

A much better strain than the common wild Watercress. Excellent for forcing.

½ Oz. 55c; Oz. 95c; ¼ Lb. \$3.00; Lb. \$9.00.

DANDELION

453 LARGE THICK LEAF.

A uniform strain of the cultivated dandelion, vigorous in growth, upright with good hearts.

Oz. 95c; ¼ Lb. \$3.20; Lb. \$10.00;
5 Lbs. or more @ \$9.50 per Lb.

DILL

458 LONG ISLAND MAMMOTH.

Popular, highly productive type, plants about 2½ ft. tall.

Oz. 20c; ¼ Lb. 45c; Lb. \$1.10;
5 Lbs. or more @ \$1.00 per Lb.

FENNEL

1 oz. plants 100 feet of row; 3 lbs. per acre.

480 GIANT EARLY (New)

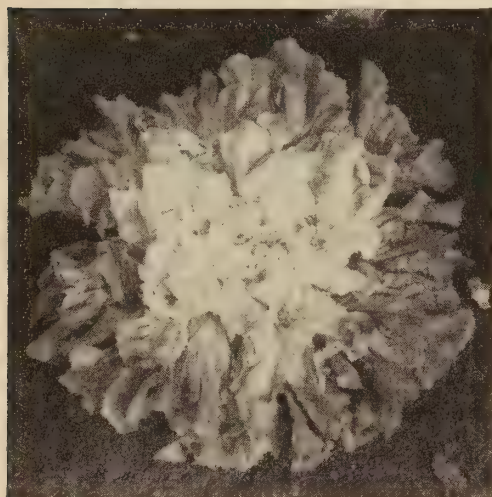

This unusual strain is valuable for early harvest because it quickly grows large thick rounded bulbs. Plants widely branched and spreading. Should be harvested promptly when ready.

Oz. 65c; ¼ Lb. \$1.80; Lb. \$5.50;
5 Lbs. or more @ \$5.25.

482 MAMMOTH.

This later-maturing strain is preferred for main crop as it holds up well. Plants erect, fairly large thick bulbs. Highly recommended.

Oz. 35c; ¼ Lb. 95c; Lb. \$2.75;
5 Lbs. or more @ \$2.50.

FULL HEART BATAVIAN ENDIVE
Uniform, tight-packed heads.

LEEK

An ounce of seed will sow about 200 feet of row.

SWISS SPECIAL. Crop Failure.

496 AMERICAN FLAG

The standard type of leek, widely grown. Large medium green leaves, thick stalks of good length. Supply very limited.

Oz. 90c; ¼ Lb. \$2.90.

EARLY WHITE VIENNA KOHLRABI

EGG PLANT

An ounce produces about 2000 plants.

462 Black Magic Hybrid

Hybrid Vigor Gives Wonderful Crops

This remarkable F₁ hybrid is the best egg plant we know, early, dependable and highly productive all season. The vines are fairly tall and spreading and so husky that most fruit are held off the ground. The medium-sized oval fruit have an excellent glossy dark color before fully grown and the vines produce continuously over a long period, from early until frost. See prices below.

BLACK MAGIC HYBRID EGG PLANT

461 Black Beauty

This standard variety produces good crops of handsome deep purple fruit, broad oval in shape. It has been widely grown but is now surpassed by our Black Magic Hybrid. See prices below.

	Oz.	¼ Lb.	Lb.
461 BLACK BEAUTY. See above.	\$.80	\$2.35	\$7.50
462 BLACK MAGIC HYBRID. Harris' Vigorous F ₁ Hybrid. See above.			
	1/8 Oz. 85c; ¼ Oz. \$1.50; ½ Oz. \$2.60	4.50	16.50 55.00
463 EARLY LONG PURPLE		.85	2.65 8.00
Fruit 6 to 8 in. long, not over 2 to 3 in. through. Early and very prolific.			

ENDIVE

An ounce sows about 100 feet, 2 to 3 lbs. per acre.

473 Full Heart Batavian—Escarolle—Dark Green Strain

This is by far the most successful market endive, and our strain is excellent. It is the true dark green Escarolle with broad leaves and deep compact hearts that blanch readily to a beautiful golden color. The plants are quick-growing and uniform, producing fine, large heads, tightly packed with thick, slightly curled and crumpled leaves. Tender, sweet and with no bitterness, it is usually considered the highest quality endive. Widely used for fall crops. See prices below.

	Oz.	¼ lb.	lb.	5 lbs. or more @
473 FULL HEART BATAVIAN (Escarolle). Dark Green Strain. See above.	\$.30	\$.70	\$2.10	\$2.00
477 GREEN CURLED. Also called "Chicory," Green Ribbed.	.30	.70	2.10	2.00
Leaves finely cut and curled. Exceptionally uniform with a fine heavy heart. Vigorous grower, light green midribs.				
478 GREEN CURLED PANCALIER. Best for Late Market. Pink Ribbed.	.30	.70	2.10	2.00
This strain is somewhat flatter growing than Green Curled and has pink-colored midribs. It does best on rich soil and is a favorite of market gardeners because of its fuller, heavier hearts which blanch very easily.				

French Endive—Witloof Chicory—see under Chicory on page 10.

KALE

Two pounds of seed will sow about one acre.

487 VATES or Dwarf Curled.

By far the best type. Uniform, finely curled leaves of splendid dark bluish-green color. Does not turn yellow in cold weather. From the Virginia Truck Experiment Station.

Oz. 35c; ¼ Lb. 85c; Lb. \$2.50;
5 Lbs. or more @ \$2.30 per Lb.

489 SIBERIAN. Also called "Early Sprouts."

Plants very large and spreading, leaves broad and thick, curled only at the edges. Color blue green. Very hardy and used largely for wintering over.

Oz. 30c; ¼ Lb. 75c; Lb. \$2.20;
5 Lbs. or more @ \$2.00 per Lb.

GARLIC

Separate the bulbs into flakes or "cloves" and set out like onion sets. Bulbs for planting:

Lb. 75c; 5 Lbs. or more @ 70c per Lb. postpaid.
25 Lbs. or more @ 55c per Lb., not prepaid.

HERBS for Flavoring, Etc.

VATES KALE

KOHLRABI

1 oz. sows about 200 feet.

492 EARLY WHITE VIENNA. The Finest Strain.

We offer an exceptionally uniform, early short-topped strain of this popular variety. It is adapted for growing under glass as well as outdoor use. The tops are small with few leaves and the bulbs mature quickly. They are nearly round in shape, very even in size, excellent quality.

Oz. 45c; ¼ Lb. \$1.20; Lb. \$3.50;
5 Lbs. or more @ \$3.25.

GREAT LAKES 659 — Dominick Sorantino, Jr. of "Level Acre Farms," Cedarville, N. J., grows fine crops of this firm-heading strain.

LETTUCE

An ounce of seed will sow 250 feet of row; about 2 lbs. per acre.

521 Great Lakes 659 —The Outstanding Strain—Solid, Round Heads

Great Lakes 659 is now the most popular and successful lettuce under most northern and eastern conditions. Except for hot weather growing on muck where Cornell 456 is somewhat more tip-burn resistant, this sure-heading uniform type is preferred. It is earlier than the regular Great Lakes and the round heads are harder, somewhat smaller and of excellent dark green color. The heavily blistered, deeply cut leaves wrap closely around the heads, often covering them. Its ability to head well and hold its quality in cool fall weather is an important feature. Highly recommended. See prices below.

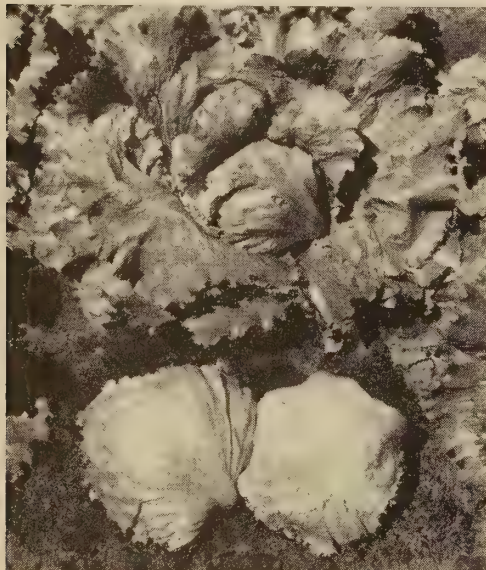

508 Cornell 456 —Best for Muck—Withstands Summer Heat

Still the standard variety for summer lettuce growing on muck in the East and also good on upland. It is an unusually hard-heading medium-sized type, resistant to bolting and tip burn, and it produces a high percentage of fine clean heads even under difficult conditions.

Our strain is noted for its uniformity, even maturity and dependability. It is adapted for our Eastern conditions and is one of our most popular varieties. Earlier than Great Lakes, it has an attractive glossy color and is very firm. See prices below.

533 Pennlake —Best Early Lettuce for Upland

Upland growers find our Pennlake without equal for early planting, for it regularly produces clean, firm, uniform heads of superior quality for spring crops. Outstanding for earliness and compact heads, it cuts a high percentage at one time. Its rather smooth, dark green leaves protect the head well, and the crisp, well-rounded, medium-sized heads are just right for market. Use Pennlake for early crops, both transplanted and field-sown. See prices below.

PENNLAKE—Uniform—early—compact.

535 Parris Island Cos

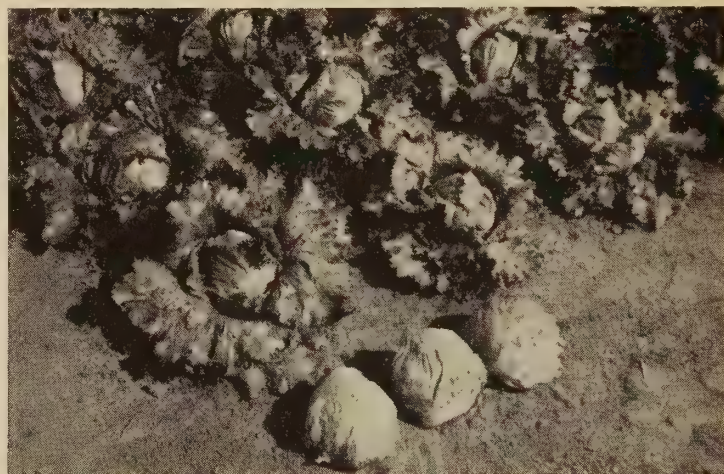

Mosaic Resistant

An excellent dark green strain, mosaic resistant and slow bolting, that produces large uniform heads of a most desirable type. Slightly later than Trianon, its dark color is preferred on the market and it is a rugged, dependable producer. See prices at right.

PARRIS ISLAND COS
Large, dark green heads.

We highly recommend both AMERICAN VEGETABLE GROWER and AMERICAN FRUIT GROWER magazines to our customers. Both are filled with valuable information for commercial growers. See coupon enclosed for money-saving subscription rates.

CORNELL 456—Our strain is preferred by many expert muck growers.

	Oz.	¼ lb.	lb.	5 lbs. or more @
502 BIBB. Grown for Its Delicious Flavor.....	.40	\$1.10	\$3.25	\$3.00
An old favorite, best adapted for forcing and early spring crops, as it bolts very quickly in hot weather. Small, loosely folded heads with dark green outer leaves, blanching to yellow inside. Very tender and delicate flavor.				
504 BLACK SEEDED SIMPSON.....	.30	.75	2.00	1.85
Widely grown loose leaf type. Broad light green leaves.				
508 CORNELL 456. Hard, Clean Heads. See above.....	.65	1.85	5.75	5.50
25 Lbs. or more @ \$5.25.				
517 GRAND RAPIDS. Popular Loose Leaf Type.....	.25	.75	2.25	2.10
Used by many critical growers for outdoor as well as greenhouse growing. The leaves are light green and uniformly well curled.				
518 GRAND RAPIDS U.S. No. 1.....	.30	.80	2.35	2.20
A distinct, very finely curled strain, preferred by many growers. Stands longer than other Grand Rapids types.				
519 GRAND RAPIDS TIP-BURN RESISTANT H5-4.....	.30	.80	2.35	2.20
Resistant to tip-burn under glass and well adapted for outdoor use. Plants more uniform, more evenly frilled and heavier, more compact than the regular. Fine dark green color.				
520 GREAT LAKES. Very Long Standing—Tip-Burn Resistant.....	.65	1.80	5.50	5.25
Popular with upland growers for mid-summer use. Produces large, solid heads under many conditions. Highly resistant to tip-burn and very slow to bolt. Crisp, thick leaves.				
521 GREAT LAKES 659. Widely Adapted. See above.....	.65	1.75	5.25	5.00
25 Lbs. or more @ \$4.90.				
533 PENNLAKE. Highly Recommended For Upland. See above.....	.70	1.90	5.75	5.50
25 Lbs. or more @ \$5.25.				
539 SLOBOLT. Long-Standing Grand Rapids Type.....	.50	1.50	4.50	4.25
Stands far longer than other loose-leaf types. Thick clusters of curly leaves. Not adapted for greenhouse growing but increasingly popular for outdoors.				
541 SALAD BOWL. Distinctive Loose Leaf Type.....	.65	1.65	4.75	4.50
A wonderful loose-leaf variety, unusually attractive, fine flavored and very long standing. Its notched and curled bright green leaves form a distinctive, compact rosette that will stand a long time even in hot weather. Adapted for prepackaging.				
542 WHITE BOSTON. Special Strain, Dependable Producer.....	.35	.85	2.50	2.35
There is no better strain than ours. Large headed and so uniform that there is practically no waste in cutting the crop.				

COS OR ROMAINE

535 PARRIS ISLAND. Dark Green—Mosaic Resistant. See at left.....	.35	.90	2.50	2.35
25 Lbs. or more @ \$2.25.				
540 TRIANON SELF-FOLDING. Long Uniform Heads.....	.30	.80	2.25	2.00
The standard lighter green type, uniform and of fine quality.				

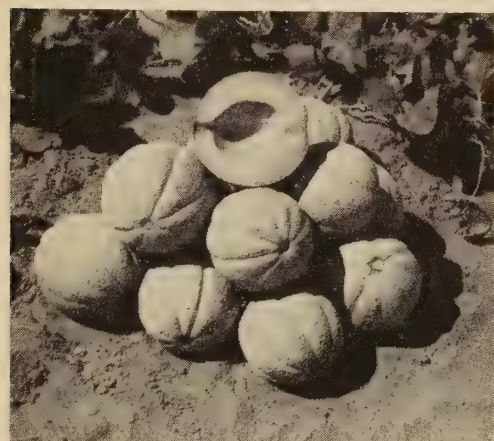

MUSKMELONS

An ounce of seed will plant about 50 hills;
2½ to 3 lbs. per acre.

565 Harvest Queen

The Leading Market and Shipping Melon

One of the greatest achievements of our plant breeders, Harvest Queen is rated the finest melon yet developed in many sections. It is a fusarium resistant Queen of Colorado type, slightly earlier and yields better. The oval melons are medium sized, just right for crating and shipping, with a thick ropy net covering the hard rind. They ripen from blue gray to golden yellow. The deep orange, extra thick flesh is fine textured and very firm with a delicious sweet musky flavor. The quality is still excellent five or six days after picking. See prices below.

DELICIOUS 51—Fusarium Resistant
Large, early fruit.

569 Iroquois—Large, Uniform, High Quality

Increasingly popular in the Middle West and the leading market variety for the Northeast, Iroquois is an excellent larger-fruited type, resistant to fusarium wilt, and very attractive and delicious.

The fruits are medium-large, round to oval in shape with prominent ribs and good netting; the rind is tough and holds up well in handling and shipping. The fine textured, thick flesh is deep orange with consistently high flavor and sweetness. It ripens in mid-season and is very prolific. See prices below.

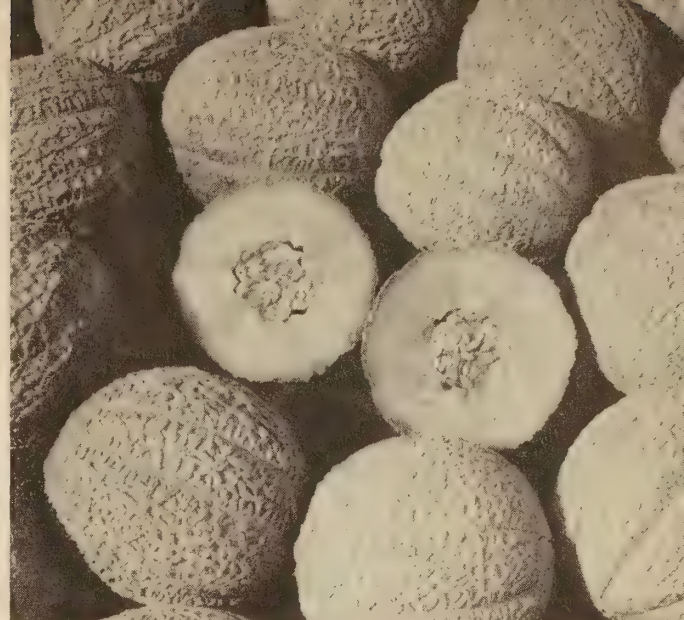

560 Delicious 51

Best Early Melon

Resistance to fusarium wilt has been added to this famous early melon, long noted for its large size and sweet flavor. It ripens a week or more before Iroquois and the round or slightly oval fruit are finely netted and moderately ribbed. The orange flesh is juicy and very sweet. Not a shipping type but ideal for roadside stands and local markets. See prices below.

IROQUOIS
Fine quality—resistant to fusarium wilt.

HARVEST QUEEN—"Sensational . . . It will be our
main crop melon this coming season."
Robert L. Smith, Mitchell, S. Dak. Dec. 24, 1955

567 Honey Rock, Fusarium Resistant

Uniform, Medium Size, Sweet Flavor

One of our recent introductions, this fusarium resistant strain is excellent wherever Honey Rock is grown. It is an early, medium-sized oval melon with heavy netting, 4 to 5 lbs. in weight, and the fine-textured flesh is very sweet, with a real "musky" flavor. Uniform, vigorous and a heavy yielder, it has a tough rind and high resistance to fusarium wilt. We find it best if picked at "half slip" stage. See prices below.

HONEY ROCK, FUSARIUM RESISTANT

NEW! JIFFY POTS for Transplanted Melons

No longer is it necessary to remove plant bands or clay pots in setting out melons. Grow them in these light peat and fibre pots—the roots grow through them as the plant develops and you set pot and all with a transplanter. No shock or wilting, gives plants a better start. Two sizes, 2¼ in. and 3 in. See inside back cover.

	Oz.	¼ lb.	lb.	5 lbs. or more @	25 lbs. or more @
560 DELICIOUS 51. Fine New Resistant Strain. See above..	\$.50	\$1.50	\$4.50	\$4.25	\$4.00
565 HARVEST QUEEN. Fusarium Resistant. See above.....	.50	1.50	4.50	4.20	3.90
	50 Lbs. or more @ \$3.75				
566 HEARTS OF GOLD (Large Strain).....	.35	.85	2.50	2.25
A fine melon for shipping, medium in size, round and well netted. Flesh thick, orange yellow, of uniformly excellent flavor. Our stock is the large strain of this well known variety.					
567 HONEY ROCK. Fusarium Resistant. See above.....	.50	1.35	4.00	3.75	3.50
569 IROQUOIS. High Quality—Big Yields. See above.....	.50	1.50	4.00	3.75	3.50
MARKET KING. We have discontinued this long-popular melon in favor of our Harvest Queen which is of better type and is resistant to fusarium wilt.					
575 SCHOON'S HARD SHELL or New Yorker.....	.35	1.00	3.00	2.75	2.50
Similar to Queen of Colorado but larger, it has an oval shape with a very hard rind and good netting. The flesh is thick and has an excellent flavor. Heavy yielding, rather late variety.					

MUSTARD

An ounce will sow about 300 feet.

	Oz.	¼ lb.	lb.	5 lbs. or more @
594 FORDHOOK FANCY	\$.15	\$.45	\$1.25	\$1.15
Handsome, upright-growing variety with bright green leaves, deeply fringed and cut.				
595 LONG STANDING. (Southern Curled).....	.15	.45	1.25	1.15
Early, vigorous variety, yet stands a remarkably long time without bolting to seed. The large medium-green leaves are crumpled, beautifully fringed and curled. Mild delicious flavor.				

MUSHROOM SPAWN

Prepared with dried and crumbled tobacco stems. Easy to handle, goes farther in planting and helps repel insects. ½ lb. spawns 35 sq. ft. Full directions with order.

½ Lb. \$1.45; 1 Lb. \$2.75; 5 Lbs. or more at \$2.50 per Lb. Write for quotations on larger quantities.

OKRA or Gumbo

Ounce of seed will sow about 50 feet of row.

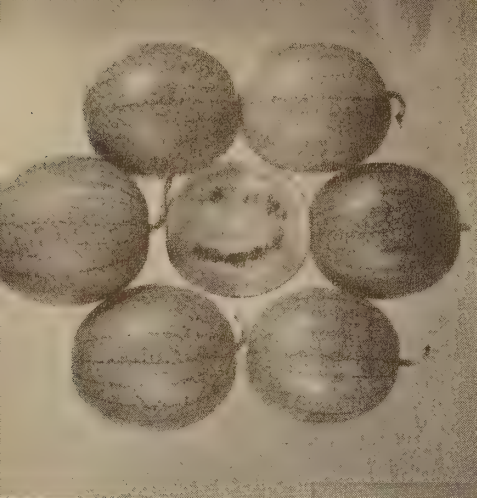

596 DWARF GREEN LONG POD.

Large, deep green pods, somewhat ribbed and borne abundantly on dwarf plants. Excellent type for shorter season areas.

Oz. 20c; ¼ Lb. 50c; 1 Lb. \$1.25;
5 Lbs. or more @ \$1.10.

597 EMERALD. A vigorous, heavy yielding type developed by Campbell Soup Co. Pods of good size, dark green, smoothly rounded instead of ribbed.

Oz. 20c; ¼ Lb. 50c; 1 Lb. \$1.25;
5 Lbs. or more @ \$1.10.

NEW HAMPSHIRE MIDGET

589 Rhode Island Red

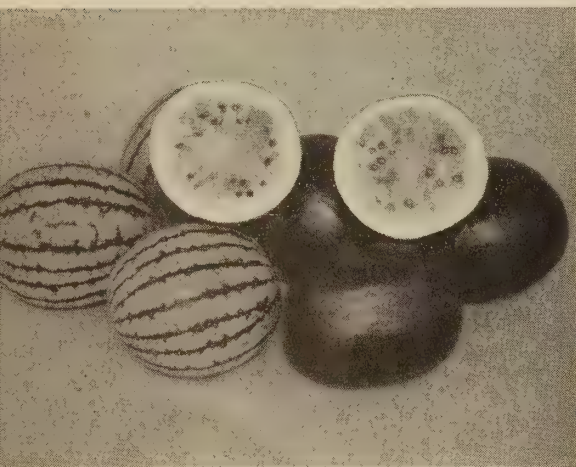

Fine Striped Watermelon for the North

This handsome, well-flavored watermelon is very early and productive in short season areas. The attractive, oval, striped fruit are medium-sized, 8 to 12 lb. normally and larger under good conditions, and the firm rind stands handling well. The bright pink-red flesh is smooth and fine-textured with a rich sweet taste. Seeds dark brown to tan in color. One of the best early melons and very popular with our customers. See prices at right.

579 California Honey

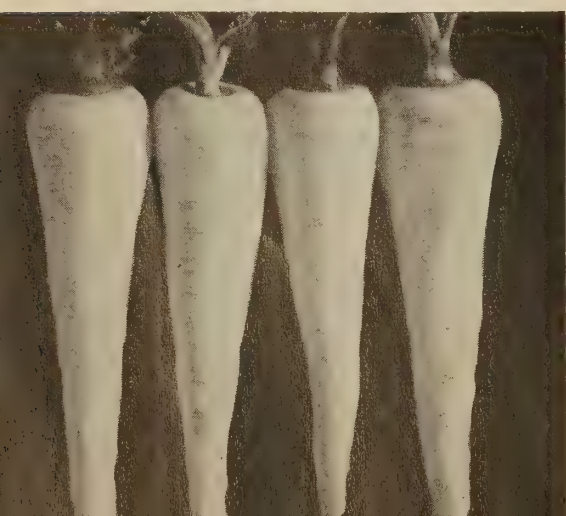

Or Early Arizona—New, Early, Top Quality

Wonderful for short season areas, this strong-growing variety produces heavy crops of solid dark green, round to oval fruit, slightly smaller than Rhode Island Red. The bright scarlet-red flesh contrasts with the dark brown seeds and the quality is excellent, high in sugar, crisp and delicious. We highly recommend it. See prices at right.

RHODE ISLAND RED (left) and CALIFORNIA HONEY

HARRIS' MODEL PARSNIP

WATERMELONS

An ounce of seed will plant about 25 hills; 2 to 3 pounds to the acre.

591 Takii Gem (New)

Excellent Small-Seeded Midget Type

This new early "Ice-box" watermelon resembles the popular New Hampshire Midget but has better quality, much smaller seeds and fewer of them. The fruit are oval in shape, 5-6 in. in diameter with a thin mottled green skin and sweet, bright red flesh. Seeds medium brown to dark. Very limited supply. See prices below.

586 New Hampshire Midget

Widely grown extra early type, very productive. Small size (about 6 in. long by 5 in. in diameter), crisp red flesh, black seeds. The rind is thin and brittle and the fruit should be picked promptly when ripe. Dependable in nearly all areas. See prices below.

587 Sugar Baby (New)

Small, Round, Dark Green, Fine Quality

Another new "Ice-box" type that looks highly promising. This one is slightly larger and later than New Hampshire Midget, almost perfectly round and about 7 in. in diameter. It has a good hard rind that shows stripes early but ripens to almost solid dark green. The flesh is more firm, crisp and solid than the midget types, good bright red with small seeds. The flavor is excellent, sweet and tasty.

This small melon will stand handling and its superior quality should give it a real place. Try it this year. See prices below.

PARSLEY

An ounce of seed will sow about 200 feet of row.

635 Paramount

Most Attractive, Tightly Curled Leaves

For extra fine curled leaves and rich dark green color, Paramount is the best parsley we know. It is highly uniform with no flat leaves and the stems are strong and of good length. Rather slow-growing but excellent for late summer and fall. Holds its color well in cool weather. Widely used for forcing and muck growing as well as upland. See prices below.

	Oz.	1/4 lb.	lb.	5 lbs. or more @
631 CHAMPION, or Triple Moss Curled.	\$.30	\$.75	\$2.25	\$2.15
This is a very superior strain. Although not quite as finely curled as Paramount, it is an early, rapid growing stock which will produce an abundance of fine parsley and give great satisfaction.				
635 PARAMOUNT. Finest Curled. See above.35	.85	2.50	2.25
637 PERFECTION. Highly Recommended. See above.35	.85	2.50	2.25
638 Plain Leaf.25	.70	2.00	1.85
Large flat leaves, not curled. Used for flavoring.				

PARSLEY FOR ROOTS

633 HAMBURG (Heimisher). Parsnip Rooted. Selected Stock.25	.70	2.00	1.85
The roots are up to 8 in. long, parsnip-shaped, smooth and white. We have a very fine stock of this variety, which produces long, straight, thick roots.				

PARSNIPS

An ounce will sow 150 feet. 2 1/2 to 3 lbs. per acre.

640 Harris' Model

Smooth White Roots—Best for Packaging

These are smooth, snow white, long tapered parsnips, with a minimum of side roots or prongs. They are of good length, but not too long and their smoothness is quite remarkable, giving the roots a very attractive appearance. They usually sell for top prices.

Growers all over the country demand our true originator's strain both for packaging and busheling.

Oz. 25c; 1/4 Lb. 60c; 1 Lb. \$1.60;
5 Lbs. or more @ \$1.50; 25 Lbs. or more @ \$1.40;
50 Lbs. or more @ \$1.25.

641 All-America

Broad Shouldered—Early

Excellent large, broad shouldered variety that makes a good diameter early. Roots are remarkably smooth and white, quite tapered, fine quality.

Oz. 20c; 1/4 Lb. 55c; 1 Lb. \$1.50;
5 Lbs. or more @ \$1.40; 25 Lbs. or more @ \$1.30.

"I will not raise any other parsnip than your Harris Model. They are the finest I have ever raised."

E. D. Gray, Angola, Ind.

Feb. 1, 1956

ONIONS

An ounce of seed will sow 125 feet of row.
It requires 4 to 6 lbs. of seed per acre.

HYBRID ONIONS

601 Aristocrat (New)

Large—Uniform—Big Yields—Good Keeper

One of the finest hybrids developed by Dr. Henry A. Jones of the U.S.D.A., Aristocrat is a large, heavy-yielding onion which has given remarkable performances in many areas, especially on muck in the Middle West. It outyields Brigham Yellow Globe or Downings, keeps better and comes out of storage with firm flesh, tight scales and dark color. The bulbs are large, slightly deeper than globe-shaped and very attractive. The medium brown skin is well-retained in storage and grading. We urge muck onion growers to try this important, widely adapted new hybrid. See prices below.

ARISTOCRAT
Heavy yields—widely adapted.

608 Epoch (New)

Superior Storage Hybrid—For Bulk Handling

Epoch was developed by Dr. Jones from Brigham parentage and the resulting hybrid has exceptionally fine keeping ability and most attractive appearance. It is a medium-sized extra-firm onion with deep globe shape, small necks and a beautiful dark brown skin that adheres well at all times.

Adapted best in northern areas such as Wisconsin, Michigan and Canada, Epoch does best on deep, moist, peaty muck. It matures early, yields well and is excellent for bulk handling. But the best feature appears after storage when it produces an unusually high percentage of uniform, number one bulbs. Buyers prefer these quality onions and we recommend Epoch most highly. See prices below.

EPOCH

Very firm—an especially good keeper.

Tight, dark brown skin.

ABUNDANCE, AUTUMN SPICE, EARLY HARVEST, ELITE and our own HIGHLIGHT were all in production from 1956 crops but are already sold out for this year. We hope to have them for 1958.

YELLOW ONIONS

	Oz.	1/4 lb.	lb.	5 lbs. or more @	25 lbs. or more @

WHITE ONIONS

603 BELTSVILLE BUNCHING				Sold Out	
610 JAPANESE BUNCHING. For "Scallions"..... A hardy, non-bulbing type of onion that makes long slim pure white stems and is popular for bunching. Used both for summer crops and wintering over.	.45	1.35	4.00	3.90	3.75
617 SOUTHPORT WHITE GLOBE. The Finest White..... Large globe shaped white onions. A very profitable variety both for bunching and mature bulbs which keep better than other white onions in storage.	.50	1.55	4.75	4.65	4.50
624 WHITE BUNCH or White Lisbon..... Widely grown as an early bunching onion because of its vigor and strong green tops which hold up well. Mild flavor, highly recommended.	.50	1.40	4.25	4.15	4.00
625 WHITE PORTUGAL or SILVERSKIN. For Bunching..... Early flat, white onions of mild flavor. Excellent for pickling and early green onions, also for sets and for bunching. A very popular variety.	.50	1.35	4.00	3.90	3.75
626 WHITE SWEET SPANISH..... The largest and mildest white onion. Deep globe shape, small necks, very clear skin and firm white flesh. Has rapid vigorous growth and is widely used for bunching as well as mature bulbs.	.65	1.80	5.75	5.65	5.50
616 SOUTHPORT RED GLOBE. The Best Red Onion..... Large, perfectly round, deep red onion; keeps well.	.50	1.40	4.25	4.15	4.00

620 Sweet Spanish—Utah Strain

Large, Mild Sweet Onions of Finest Quality

Sweet Spanish makes bigger onions of milder flavor than other kinds and is more resistant to thrips. Although somewhat later in maturity, it can be grown successfully from seed or greenhouse-grown plants almost anywhere in the East. Large and handsome, the onions often weigh over a pound and the flesh is white, sweet and very mild. They have a uniformly deep globe shape with small necks and heavy golden brown skin. Ours is the "jumbo" strain, selected for extra size, uniformity and quality. Highly recommended to all growers for quality markets. See prices of seed at right and of plants on next page.

WE CAN TREAT YOUR ONION SEED

For SMUT and MAGGOT Control

Dr. Newhall developed this highly effective pelleting process, using a large amount of Tersan fungicide for smut plus Aldrin for maggots. On early orders for 1 lb. or more of a variety, we can supply this treatment at extra cost: 1 to 3 lbs.—\$1.75 per lb.; 4 lbs. or more—\$1.65 per lb.

The seed will be treated and shipped just before planting time.

See next page for other Onion Seed,
Onion Plants and Onion Sets.

IOWA 44—Glossy, golden-brown skin.

ONIONS—Continued

611 Iowa 44

Home Grown Seed—Excellent Keeper

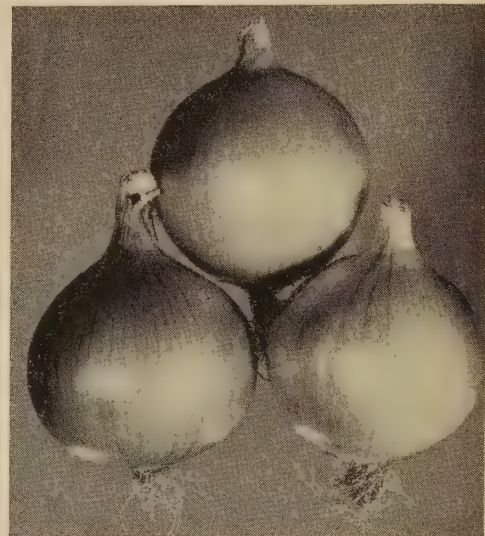

This stock is produced from selected bulbs grown on the Elba muck and is a popular storage variety there. The firm, medium-sized, well-colored onions are superior keepers, coming out of storage in late winter with unusually good color, firmness and quality.

The shape is an attractive globe or deep globe with small necks, and the heavy thick skin has a dark golden brown color that is even superior to Brigham. Iowa 44 is an exceptionally fine storage onion and we highly recommend it. See prices on preceding page.

600 Brigham Yellow Globe

A Dependable Variety for Storage

This strain is a fine storage onion, extensively grown in many muck sections and popular for upland as well. A good yielder of firm, deep-globe shaped bulbs with small necks and a heavy dark skin that remains in good condition during storage. Highly regarded by critical growers. See prices on preceding page.

SWEET SPANISH—Utah Strain.

ONION PLANTS—Sweet Spanish—Utah Strain

SWEET SPANISH ONION PLANTS

15 or 20 crates are needed per acre if set 4 or 5 in. apart in 18 in. rows.

Sweet Spanish "jumbos" nearly always bring premium prices and Eastern growers can share in this profitable market by growing them from our plants, flown direct to us by plane from Texas. They reach you in fresh vigorous condition and can be stored for some time.

Our true Sweet Spanish produces tremendous crops of the splendid large firm onions the market wants. Order early and set them out as soon as the land can be worked. Earlier plantings mean bigger crops and they will stand considerable frost. Plants usually available between April 5th and May 20th.

Please Note: Sold in bunches only. A bunch is a handful as pulled in the field and may contain 50 to 110 or more plants, depending on the size.

Price: 10 bunches \$3.95 postpaid. Not prepaid, single crate (60 bunches) \$10.75; 4 to 9 crates at \$10.25 each; 10 crates or more at \$9.85 per crate. (Weight about 30 lbs. per crate.)

EBENEZER—Fine solid onions from our sets.

ONION SETS

About 18 to 25 bushels of onion sets are required to plant an acre.

Harris' onion sets are clean, firm, well graded and true to type and are used with great satisfaction by many particular growers. We highly recommend them.

980 EBENEZER. Best Yellow Sets. (3/4" bar screen) The standard yellow variety, producing marketable bulbs very early. Large, flattened in shape, uniform, and of fine quality. Good keepers if grown to maturity. These fine sets are very popular with our customers. See photo at left.

Peck \$2.70, postpaid. Not prepaid: Bu. (32 lbs.) \$5.50; 2 bu. \$10.80; 10 bu. or more @ \$5.25.

982 WHITE or Silverskin Best for bunching. Medium-sized flat onions. Clear white, fine appearance.

Peck \$2.80, postpaid. Not prepaid: Bu. (32 lbs.) \$5.75; 2 bu. \$11.30; 10 bu. or more @ \$5.50.

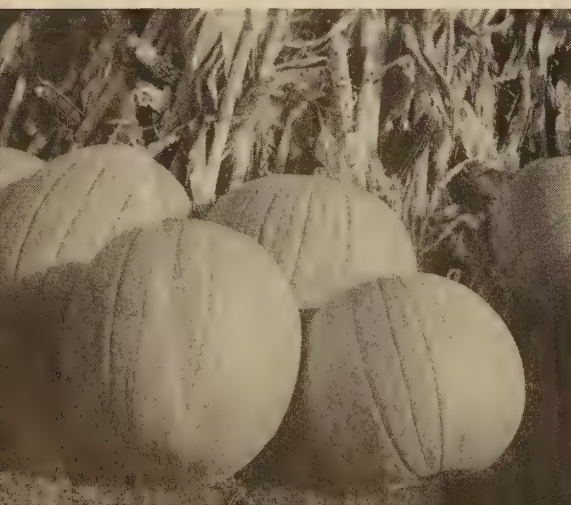

Please Note: Orders for onion sets may be entered at any time. They will be shipped as soon as we feel that the danger of freezing is past. Arrival in good condition guaranteed.

PUMPKINS An ounce of seed will plant 20 hills; about 3 lbs. to the acre.

686 Connecticut Field

(Or "Big Tom"). Large, Handsome Fruit

We offer an excellent stock of this fine old variety, now so widely grown for Hallowe'en carving. The handsome fruit weigh up to 20 lbs., sometimes much more, and have a smooth hard ribbed surface of bright, attractive color. Many of our customers grow both Connecticut Field and Jack O'Lantern to get the wide range of size and type the Hallowe'en trade requires. See prices below.

CONNECTICUT FIELD Big, bright fruit—popular for Hallowe'en.

687 Jack O'Lantern (New)

Medium-Sized, High Pumpkin

This new selection was designed especially for the Hallowe'en trade. The fruit are generally higher than true round (some are too long) and average in size between Small Sugar and Connecticut Field. The smooth skin has a fine bright orange color, but not the glossy ribbed surface of Connecticut Field. We suggest a limited planting of these along with Connecticut Field for a good range of sizes to sell. See prices below.

	Oz.	1/4 lb.	lb.	5 lbs. or more @
686 CONNECTICUT FIELD or Big Tom.....	.25	\$.65	\$1.75	\$1.60

692 ORANGE WINTER LUXURY..... This improved strain has netted deep orange skin and orange yellow flesh. A very uniform stock.	.20	.60	1.60	1.50
695 SMALL SUGAR or Pie Pumpkin..... Most popular for canning and pies. Fruit are small (6-8 lbs.) but produced in great numbers. Hard smooth, deep orange skin; thick sweet dry flesh of excellent quality. Very profitable.	.25	.65	1.75	1.60

PEAS

One pound of peas will plant 100 feet. Two to four bushels per acre.

195 World's Record—Early, Large Pods (59 days)

Popular because of its earliness, good size and fine quality. Many of the best growers find it highly profitable for first early crop. The pods are large and attractive, 3 to 4 inches long, pointed, medium dark green with six to eight large peas of fine flavor.

The vines are usually about 2½ feet high, sturdy and bear large crops which are ready to pick over a very short period. Widely adapted throughout the Northeast, our stock is the true type and very dependable. See prices below.

160 Greater Progress—The Best Kind to Grow for Market (62 days)

If you grow peas for market, plant our Greater Progress, a remarkable large-podded early strain that has become tremendously popular in all sections. The husky vines are extra dwarf, not over 18 in. tall, and they are literally loaded with large well-filled deep green pods, borne out where they are easy to pick. They mature very early and come on evenly over a short period.

The pods are uniformly long, pointed and nearly straight, giving a most handsome appearance. Dark green in color, they are well-filled with big tender peas of good flavor. Now recognized as the best-looking, best yielding and most profitable pea for early or main crop production, and widely grown for roadside stands, market and shipping. We have the greatest confidence that you will like Greater Progress. See prices below.

LINCOLN

Attractive, well filled pods—finest flavor.

168 Lincoln

Foremost Quality and Yields (69 days)

If you have a market that appreciates real quality, Lincoln is the variety to grow—no other can approach its wonderful flavor.

The pods are fairly long (3-3½ in.), narrow, pointed and slightly curved and they are completely filled with small, delicious dark green peas that are excellent for freezing. They are borne in tremendous quantities on the dwarf vigorous vines and are easy to pick. Lincoln is one of the earliest of the midseason group, and we think it is the most delicious of any group. See prices below.

DOMESTIC RYE GRASS

The best grass for winter cover. Sowed alone or on your crops in midsummer or early fall, it prevents erosion, holds nitrogen and provides valuable humus with its thick growth and matted roots. You will find it an easy, inexpensive way to benefit your soil. Sow 15 to 20 lbs. per acre.

Lb. 45c; 5 Lbs. \$1.50;

10 Lbs. \$2.50 postpaid to 5th zone.

Not paid: 25 lbs. or more at 15c per lb.;

100 lbs. or more at 14c per lb.;

500 lbs. or more at 13c per lb.

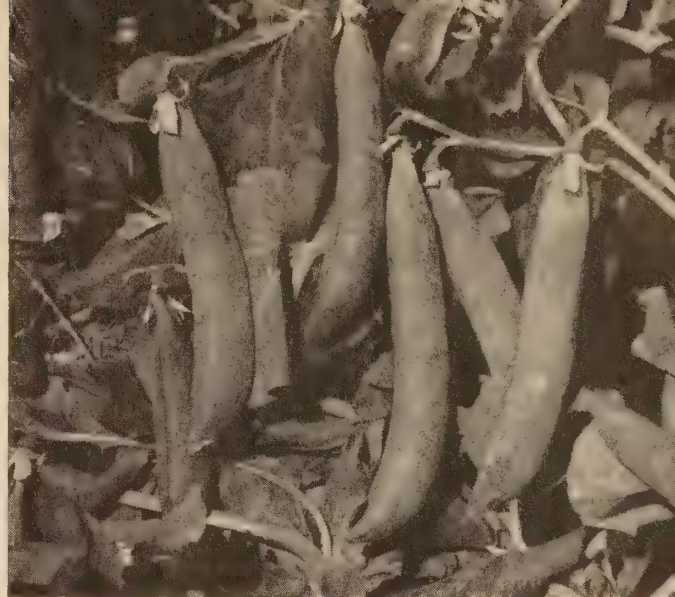

NOT PREPAID: Peas are shipped at your expense unless your vegetable seed order is \$20.00 or more. We then prepay freight charges. See page 1.

170 LITTLE MARVEL. (15 in.) 62 days. Larger-Podded Strain This is a special strain with broader pods and bigger peas. Pods well-filled, excellent quality. Vines stocky and very prolific.	.60	2.00	5.25	16.80	.30
195 WORLD'S RECORD. (2½ ft.) 59 days. See above.....	.60	2.00	5.10	16.25	.29

MEDIUM AND LATE VARIETIES

152 ALDERMAN. (4½ to 6 ft.) 74 days. Dark Podded.... Still the best of the late tall-growing peas. Very large well-filled pods of excellent quality. Popular on the market and most profitable for growers.	.55	1.85	4.65	15.10	.27
168 LINCOLN. (2½ ft.) 69 days. Finest Quality. See above.	.65	2.20	5.40	17.90	.32
180 MIDSEASON GIANT. (2 ft.) 72 days..... The best of the very large-podded midseason group. Stands up and bears well under many conditions. Dark green pointed pods, 4½ to 5 in. The vigorous vines produce large yields and the quality is excellent.	.60	2.00	5.25	16.80	.30
182 ONEIDA. (2½ ft.) 68 days..... Dark green blunt-podded type well-liked for market in New England and some other sections. Pods of good size, 3½ - 4 in., closely filled with high quality peas. Attractive and dependable.	.60	2.00	5.25	16.80	.30
193 VICTORY FREEZER. (2½ ft.) 67 days..... This hardy, early-midseason variety bears quantities of 3-3½ inch blunt pods and ripens so uniformly that vines can be stripped at one picking. Valuable wherever quality is more important than size.	.60	2.00	5.10	16.25	.29
194 WANDO. (2½ ft.) 67 days. Produces in Hot Weather.. This small-podded midseason variety is especially valuable for midsummer crops as it produces well even in hot weather. The straight, blunt dark green pods are 2½ to 3 in. long and well-filled. Fine quality.	.60	2.00	5.10	16.25	.29

GREATER PROGRESS

The best large-podded early variety.

157 Freezonian

Finest Quality—Attractive Pods (62 days)

All the famous quality and dependability of the old Thomas Laxton are here combined with huskier vines and bigger yields. Freezonian is one of the leaders among the modern early peas for home use, roadside stands and local markets.

The good-looking, blunt pods are 3 to 3½ in. long, uniform in size, and they ripen just after World's Record. The pods are very well filled with plump, dark green peas, and the crops are remarkably heavy. Freezonian is ideal for growers for the early market and excellent for freezing. See prices below.

FREEZONIAN

Early and very productive—tender and delicious.

SPERGON-TREATED PEAS. Another free Harris' service—all our peas are Spergon-treated for better stands, more even growth and bigger yields, at no extra cost.

PENNWONDER—Early, fine type.

656 Calwonder

Large, Prolific—Most Popular

For big yields of fine heavy peppers, our Calwonder is an outstanding strain. Early enough to ripen full crops even in shorter seasons, it produces large attractive blocky fruit with exceptionally thick meat, just what the market wants.

The sturdy plants are more dwarf than California Wonder, yield more heavily and the fruit ripens a week or ten days earlier. Not as fully 4-lobed, but smooth, uniform and of fine appearance and quality. The deep green color changes evenly to bright red. This is our most popular pepper. See prices below.

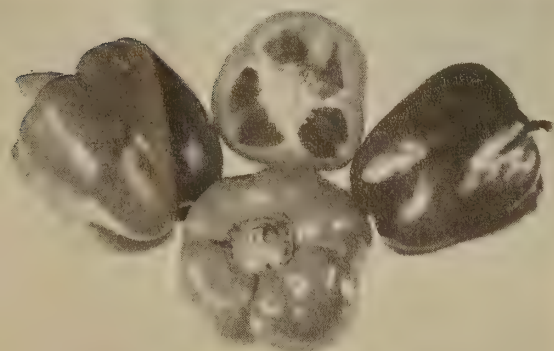

CALWONDER—Blocky shape, thick flesh.

684 Yolo Wonder

Excellent Resistant Type

This California Wonder type is highly resistant to tobacco mosaic, the disease which stunts fruit and reduces yields in many pepper sections. Not an early variety, Yolo Wonder is a fine yielder in fairly long seasons and is a highly dependable producer. Fruit very large, not quite as well-shaped as our California Wonder but thick-meated and attractive, entirely satisfactory for market. Plants uniform, very vigorous, large-leaved and compact. Rapidly replacing California Wonder in several important areas because of its resistance. See prices at right.

YOLO WONDER—Very large—mosaic resistant.

PEPPERS

An ounce of seed will produce about 1000 plants.

675 Pennwonder

Dependable Early Pepper

Combining good size, blocky shape and thick meat with high yield and earliness, Pennwonder is now recognized as a most reliable early pepper variety.

The plants make a uniform, sturdy growth and bear profusely. The fruit are often tapered in shape on the first set but are more blocky thereafter, and they are thick-fleshed, smooth and of good size. The color is a fine dark green turning to rich red and the quality is excellent. See prices below.

652 California Wonder

The Leading Main Crop Type

This is the standard market garden and shipping variety and we offer a fine true stock. The plants are sturdy and even, heavy producers where the seasons are fairly long, and the fruit is of the best type, very smooth and symmetrical with 3 or 4 lobes. The flesh is extra thick, firm and sweet with good flavor. Usually marketed in the green stage but will ripen to brilliant red.

Where mosaic is not a problem we highly recommend this handsome well-shaped pepper. See prices below.

672 Hungarian Wax—Early, Very Hot

This excellent re-selected stock is widely grown for market and canning. Vigorous and prolific, it ripens early to a waxy yellow, turning bright red when fully ripe. The fruit are 5 to 6 in. long and 1½ in. in diameter at the shoulder, smooth, tapered and pointed. Our strain is of the finest type and very hot. See prices below.

CALIFORNIA WONDER

670 Hot Portugal—Large and Hot

For the finest of large hot peppers, grow our Hot Portugal. The fruit are 6 inches or more in length and ripen very early. They are fiery hot, a brilliant glossy scarlet color and have a smooth attractive shape. The sturdy plants produce large numbers of peppers of excellent market type. See prices below.

	Oz.	¼ lb.	lb.	5 lbs. or more @
650 ALLBIG (Illinois F-5). Large, Heavy Fruit.....	\$.95	\$2.95	\$9.50	\$9.25
Big, thick-fleshed peppers mature earlier than Calwonder with this vigorous variety. Fruit are large, long, somewhat roughened. Sturdy vines stand up and produce over long season.

Ideal for short season areas and for extra early crops. Medium sized, somewhat tapered fruit with fairly thick flesh of good quality. Produces red peppers right from the start of the season and very productive.				
681 WORLDBEATER No. 13. Large—Mosaic-Resistant.....	.80	2.40	7.50	7.25
A fine strain developed at New Jersey Experiment Station. Fruit large, somewhat rough and tapered, thick-fleshed and attractive.				
684 YOLO WONDER. Mosaic Resistant. See at left.....	.80	2.40	7.50	7.00
25 lbs. or more @ \$6.00 lb.				

RADISH ¼ lb. of seed will sow about 300 ft.
10 to 15 lbs. per acre, depending on the width of the rows.

705 Cavalier A Short Top Scarlet Globe Type—For Forcing or Outdoor Crops

The short tops, brilliant deep scarlet color, beautiful shape and ability to stand a long time make this the best oval forcing type we know. The roots are firm and solid, of the true olive shape and unusually uniform for type. It is often possible to pull practically 100% of number one radishes. The tops are somewhat shorter than Early Scarlet Globe and just right for bunching. Cavalier is also especially good on muck soils.

It is one of the finest radishes grown and market gardeners everywhere are most enthusiastic over it. Many of them tell us that these radishes sell for the best prices even when the market is slow, and the strain we offer has proved the best to be had. See prices below.

CHERRY BELLE—Very popular round type.

708 Champion (New)

All-America Bronze Medal Winner

Primarily a home garden type, Champion is a big, firm, large-topped radish that grows to silver dollar size without becoming pithy. The roots are round, bright scarlet in color, very firm with smooth-textured flesh and pleasant flavor. It resembles Comet but is larger, not quite as even in shape and with taller tops. May be tried for extra early planting in cold weather. See prices below.

707 Comet

Long Standing—Wonderful for Packaging

This fine round radish stays crisp and solid even in warm weather, and the deep sparkling red color and smooth globe shape make it very attractive for both bunching and packaging. The tops are somewhat larger than our Early Scarlet Globe Special and it is best adapted for outdoor use.

Growers like Comet's uniform large size, even shape and rich color, and their customers appreciate the superior quality and crisp white flesh. It holds up well for market and shipping, and the strain we offer is the best obtainable. See prices at right.

COMET—Fine color for packaging.

706 Cherry Belle

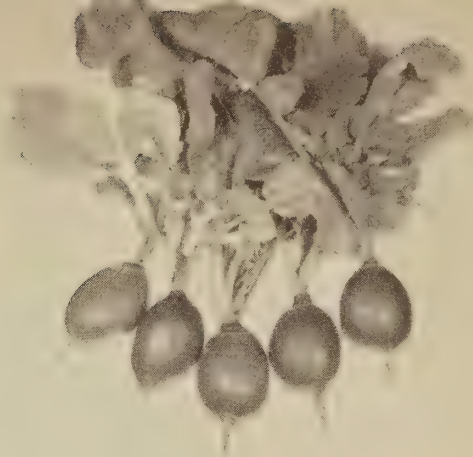

Extra Short Tops—Round and Firm

An excellent variety for packaging, Cherry Belle is also widely grown for greenhouse and frame forcing, muck crops and general outdoor use on irrigated land. It is an exceptionally short-topped radish which grows quickly but holds its firmness well. Round as a marble, the brightly colored roots have uniform shape and crisp mild flesh. The tap roots are very fine and they are not apt to crack.

Cherry Belle is becoming more popular with specialist growers every year and is a fine firm radish that we highly recommend. See prices below.

EARLY SCARLET GLOBE SPECIAL

CAVALIER—Short tops—fine for muck.

716 Early Scarlet Globe, Special

Short Tops—Uniform and Attractive

This special, short-topped Early Scarlet Globe is one of the most widely grown radishes, especially adapted for outdoor use on muck and upland. It is a market grower's favorite, round to oval in shape, bright scarlet in color and most attractive for both bunching and packaging. The short tops are right for summer and the firm crisp flesh is of high quality. A leader for many years and highly recommended. See prices below.

725 Icicle—Short Top Strain

By Far the Best White Radish

This is an ideal stock of Icicle radish both for forcing and outdoor growing on muck and upland. It is so much superior to ordinary stocks that there is no comparison. Very quick-growing, the roots are formed early and their smooth thick shape, uniformity and clear white color are outstanding. The tops do not grow too long indoors but are just right for bunching outside. See prices below.

710 EARLIEST SCARLET WHITE-TIPPED. Forcing Strain..	.45	1.15	1.05
The radishes are round, brilliant scarlet with white bottoms. Tops are small. The finest strain of white-tipped radish, superior both for forcing and outdoor growing.					
716 EARLY SCARLET GLOBE. Special Strain. See above.	.35	.95	.90	.80	.72
725 ICICLE. Short Top Strain (White). See above.....	.40	1.10	1.00	.90	.80
734 WHITE STRASBURG40	1.15	1.05	.95
Popular for summer use. Roots large and white with tapering shape.					

WINTER RADISH Sow in August and store in moist sand for winter.

701 BLACK SPANISH TURNIP.....	.45	1.20	1.10
Roots are round or turnip shaped and grow very uniform in shape and size. Clear white flesh, skin deep black without white streaks.					

SWISS CHARD

¼ lb. of seed will sow about 250 feet of row.

830 Fordhook Giant

The leaves are very dark green, large, thick and heavily crumpled. Broad white midribs. Makes a vigorous, sturdy growth. Highly popular variety, very widely grown.

¼ lb. 55c; Lb. \$1.50; 5 Lbs. or more @ \$1.25.

833 Large White Ribbed, Dark Green

This smooth-leaved type is preferred by many market gardeners. The wide ribs are smooth and straight, clear white and attractive.

¼ lb. 55c; Lb. \$1.50; 5 Lbs. or more @ \$1.25.

SALSIFY (Vegetable Oyster)

¼ lb. of seed will sow about 400 feet of row.

740 MAMMOTH SANDWICH ISLAND

The largest and best variety. Long, tapering fleshy roots with but few side shoots.

Oz. 50c; ¼ Lb. \$1.35; Lb. \$4.00;
5 Lbs. or more \$3.75 per Lb.

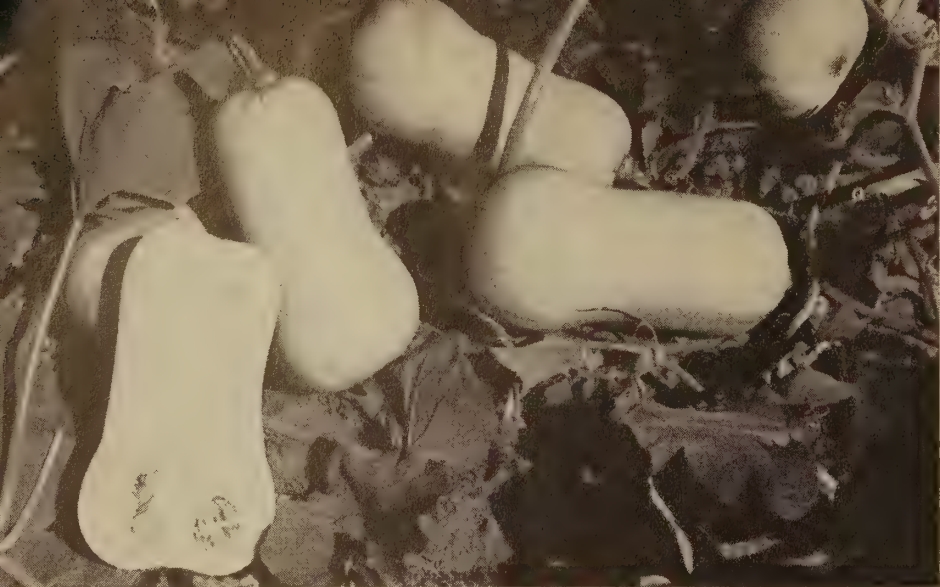

SORREL OR SOUR-GRASS

¼ lb. of seed will sow about 1000 feet of row.

745 NARROW LEAVED. Special Strain.

This is the best variety for market, producing long slender bright green leaves.

Oz. 55c; ¼ Lb. \$1.55; Lb. \$5.00;
5 Lbs. or more @ \$4.50.

BUTTERNUT—Our strain is famous for its thick, straight necks.

770 Blue Hubbard —Harris' Famous Selected Strain

Our special large, rugged strain produces immense yields of big, well-shaped squash that bring the highest prices. The thick-fleshed fruit is uniformly heavy and stores well.

Our strain is the result of years of careful breeding here on our own farms, and is recognized as the finest, purest stock grown. It cannot be obtained elsewhere.

Blue Hubbard is still in good demand on most markets in the East, and the fine quality, enormous yields and excellent keeping quality of our famous strain make it one of the most profitable squash to grow. See prices below.

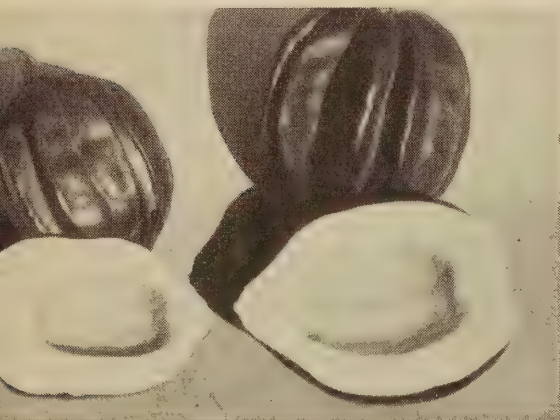

TABLE QUEEN

ROYAL ACORN

Both are very successful market types.

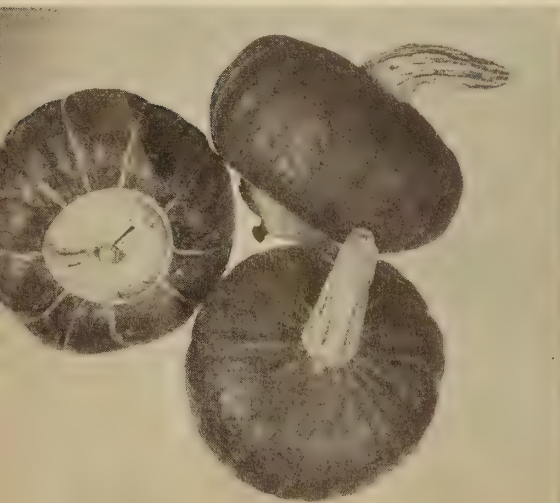

773 Buttercup

Small Fruit, Finest Quality

Its distinctive appearance, small size and top quality are bringing Buttercup a steadily increasing sale on roadside stands and local markets. The squash are dark green, turban shaped and about 8 in. in diameter with a prominent grey "button." The flesh is thick and extra dry and sweet. Many markets now require small "family-sized" squash, and Buttercup has a reputation for quality that makes it a ready seller. See prices at right.

BUTTERCUP

The best-tasting squash.

WINTER SQUASH

¼ lb. of seed will plant 50 hills;
3 to 4 lbs. of seed per acre.

774 Butternut

The Best Strain Obtainable

Now the most widely-grown small squash in the East, Butternut's popularity is rapidly spreading to other sections. Our strain, grown and selected on our farms, has top rating with the most important growers, and we are proud of its uniformity, yield and dependability.

The fruit are of moderately long shape with *straight* thick necks that are solid meat. In size (3 to 4 lbs.) it is ideal for modern markets and customers now recognize its distinctive appearance as a guide to the finest of quality. Butternut matures early, bears big crops for summer and fall sale and also keeps well enough in storage for early winter use. Resistant to squash vine borers and highly prolific on nearly all soils, this is the squash to grow. See prices below.

BLUE HUBBARD—Large, heavy, uniform.

ZERLATE
For Blight and Anthracnose
For healthier, better keeping squash spray regularly with **ZERLATE**, excellent fungicide for all vine crops.
3 lbs. (makes up to 200 gals.)
\$2.60 postpaid to 5th zone.

815 Royal Acorn

The Ideal Acorn Squash

The demand for Royal Acorn and its smaller relative, Table Queen, keeps growing steadily because market gardeners often find them very profitable to raise. Royal Acorn's fruit have the true pointed acorn shape but grow bigger than Table Queen, measuring up to 6-7 in. long and 5 in. across. There is always a ready market for these attractive dark green squash and the big vines yield tremendous crops. See prices below.

	Oz.	¼ lb.	lb.	5 lbs. or more @	25 lbs. or more @

50 lbs. or more @ \$4.00 per lb.					
780 DELICIOUS. Popular Medium-Sized Squash.....	.35	.95	2.75	2.50
The attractive pointed shape and dark green skin make this an excellent market type. Bright orange flesh of high quality. Very widely grown and well adapted in many sections.					
792 GOLDEN DELICIOUS. Large, Heavy-Yielding Strain..	.35	.95	2.75	2.50
This strain produces enormous crops of thick-meated orange squash of fine quality. Excellent for market, commercial canning and freezing.					
793 GOLDEN HUBBARD. Deep Orange-Red Color.....	.35	1.00	3.00	2.75
797 HUBBARD—True. A Superior Keeper.....	.30	.85	2.50
800 IMPROVED WARTED HUBBARD. (Dark Green).....	.30	.85	2.50	2.25
Larger, more warted, and darker green than the true Hubbard.					
810 QUALITY. Very Fine Flavor. Excellent Market Type..	.35	.95	2.75	2.50
One of the best medium sized squash with thick meat, rich flavor and heavy yields. Excellent for storage and freezing. Thin hard dark green shell, and attractive heart shape give fine market appearance. Highly recommended.					
815 ROYAL ACORN. (Mammoth Table Queen.) See above.	.25	.75	2.25	2.00
820 TABLE QUEEN. Also called Acorn and Des Moines...	.25	.75	2.25	2.00
The Individual Squash. Small dark green fruit 5 to 6 in. long, 4½ in. in diameter, deeply ribbed, very hard. See photo above.					
823 WARREN. Improved Essex Hybrid.....	.35	1.10	3.00	2.75
This squash is still well-liked in New England. The fruit are medium to fairly large, heavily warted and bright orange red, with a distinctive "button."					

SUMMER SQUASH

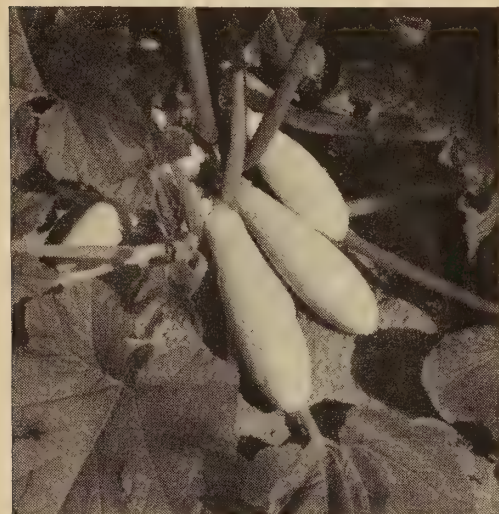

1/4 lb. of seed will plant about 100 hills.
5 to 6 lbs. of seed per acre.

HYBRID SUMMER SQUASH

817 Seneca Prolific Hybrid (New)

True Hybrid, Uniform and Productive

This new F₁ hybrid is the earliest and most productive yellow summer squash with us. The fruit resemble Early Yellow Prolific but are very smooth skinned with a deep creamy yellow color, free of mottling and greenish streaks. If kept picked, the vines will produce great numbers of excellent, uniform fruit throughout the season. We recommend this vigorous hybrid as the best to grow whenever yellow squash for market are desired. See prices below.

	Oz.	1/4 lb.	lb.	5 lbs. or more @	25 lbs. or more @
775 CASERTA. Extra Early.....	\$.35	\$.85	\$2.50	\$2.25
Tremendous early yields make Caserta a fine variety for roadside stands and local market. Medium sized fruit of distinctive glossy light green color with broken stripes of darker green.					
785 EARLY YELLOW PROLIFIC. Fruit of Excellent Type....	.25	.75	2.00	1.75
Uniform, attractive fruit of clear yellow color and even tapered shape that packs well for market. Early and remarkably heavy yielding. The most popular yellow squash, and this is an excellent strain of our own growing.					
794 HARRIS' HYBRID COCOZELLE. Best of Its Kind.					
See at right65	1.85	5.75	5.50	\$5.00
795 HARRIS' IMPROVED COCOZELLE.....	.25	.75	2.25	2.00
The true long slender straight type that critical growers want. Developed and grown entirely by us, it produces very uniform fruit and is surpassed only by our hybrid.					
807 MAMMOTH WHITE BUSH SCALLOP or "Cymling" ..	.25	.65	1.75	1.60
The standard type, producing large yields of thick, creamy white, well scalloped fruit. Bush vines.					
817 SENECA PROLIFIC HYBRID. Smooth Color. See above.	.70	1.90	6.25	6.00	5.50
YANKEE HYBRID. (Discontinued). We believe Seneca Prolific Hybrid has all the advantages of Yankee plus smoother, better colored fruit. See above.

SPINACH

Sow 12 to 20 lbs.
of seed per acre.

753 Hybrid No. 7 (New)

For Fall Crops Only—Flat Leaves

Developed by Dr. Henry A. Jones of the U.S.D.A., Hybrid No. 7 is a quick-growing, heavy yielding spinach with thin, flat, medium green leaves. The large, vigorous plants are resistant to blue mold (mildew) and blight (cucumber mosaic). It bolts very quickly in spring or summer but for fall, it may have a place wherever a flatter-leaved type can be marketed. See prices below.

	lb.	5 lbs. or more @	25 lbs. or more @	100 lbs. or more @
749 AMERICA. Extraordinary Long-Standing Type. See at right.	\$.60	\$.48	\$.39	\$.38
750 BLIGHT RESISTANT SAVOY. Dependable For Fall. See above.	.55	.45	.35	.34
752 DARK GREEN BLOOMSDALE. Special Stock.....	.55	.45	.35	.34
This extra dark green strain is very early with large heavily crumpled leaves, yet it stands almost as well as Long Standing. 100% uniform, deep color holds well. Used for early spring and for wintering over.				
753 HYBRID NO. 7 (New). Blight Resistant. See above.....	1.00	.95	.90	.85
755 LONG STANDING BLOOMSDALE.....	.55	.46	.36	.35
An excellent large-growing strain, recommended for early spring planting. Faster growth, broader frame than America, can be cut sooner yet stands well without bolting.				
762 OLD DOMINION. Blight Resistant.....	.55	.45	.35	.34
Very popular for fall use and for wintering over when blight is a problem. Also used in early spring as it stands longer without bolting than Blight Resistant Savoy.				
768 VIKING. Large Leaved—Long Standing.....	.55	.47	.37	.36
Early, large leaved, grows rapidly, yet stands for a long time. It has big, broad, flattened, dark green leaves and produces immense crops. Used by canners.				
758 NEW ZEALAND SPINACH. Valuable for Summer. 1/4 lb. 35c	1.00	.90	.85
Not a true spinach, but grows a large plant with small thick leaves, may be cut repeatedly for greens in hot weather. Seed should be soaked 24 hours before planting.				

750 Blight Resistant Savoy

Dependable for Fall Crops

In late summer and fall when other varieties blight, this is the kind to use, for it can be depended on to produce large crops of dark green, well crumpled leaves. It is practically 100% resistant to blight. Although this variety does not stand as well as others in the spring, our fine strain will stand three or four days longer than most. See prices below.

HARRIS' HYBRID COCOZELLE

794 Harris' Hybrid Cocozelle

Big Crops of Striped Fruit

Earlier, more vigorous and a better yielder, this is the best long Cocozelle yet developed. Produced exclusively by us, it is a true hybrid of the kind that markets want.

The compact bush vines start to produce extremely early and if kept picked continue to bear at an astonishing rate all season. The fruit are medium long and slender with dark and light green stripes. They are handsome and of the best quality.

Increasingly popular on most markets, this Cocozelle has real hybrid vigor and uniformity. Most profitable to grow. See prices at left.

829 Zucchini Hybrid

Enormous Yields, Ready Very Early

Its tremendous extra-early yields make this vigorous F₁ hybrid highly interesting to market growers, and in addition it is an attractive, fine quality dark green summer squash of excellent type. Far earlier and more productive than the regular Zucchini, its fruit are of handsome, slightly tapered shape with a beautiful dark glossy green color, finely flecked with lighter green. The vines are compact and easy to pick, and bear heavily all season. Excellent flavor. See prices at left.

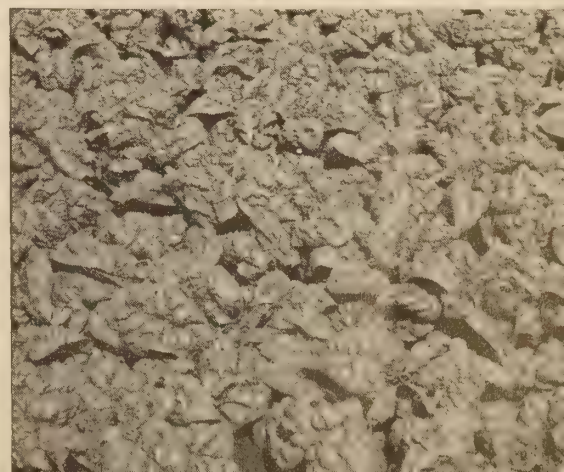

749 America

The Best Savoy Spinach for Summer

Now well-established as the best variety for warm weather use. The glossy dark green color and the heavily crumpled, thick-textured leaves have pleased both growers and buyers.

Not an early variety, America develops rather slowly but will stand in prime condition for at least a week or ten days after Long Standing Bloomsdale has bolted. The heavy compact plants are about 6-8 inches high and 10-12 inches across, and the firm dark leaves hold up better for market than any other kind. Most outstanding in hot weather, America has such fine quality that it is widely grown for spring crop. Just what growers have been looking for. See prices at left.

AMERICA—Long-standing in warm weather.

HARRIS' MORETON HYBRID—Size, yield and quality—the finest early tomato.

871 Moreton Hybrid

Order Early—Supply Limited

This true F₁ hybrid of our own breeding is the finest early tomato yet offered in our opinion. It combines hybrid vigor, earliness, size, fine appearance and wonderful quality, and it usually excels all standard varieties until Longred's season.

Maturing with Valiant here, it is even earlier with some growers. Throughout the season it continues to bear large firm handsome fruit in great quantities. They are smooth, globe or slightly flattened, 6 to 7 oz., solid and meaty, and they color evenly to a rich red. The flavor and sweetness are so good that Moreton is now the only tomato we grow for our own tables. Vines husky, spreading, good foliage cover.

One of our most successful introductions, Moreton is widely adapted and highly prolific. The demand is so great that we have not been able to produce enough seed. Order early to avoid disappointment. See prices in box below.

862 Glamour (New)

Real Crack-Resistance—Main Crop Type

Highly promising for New York and nearby areas, Glamour is a new crack-resistant mid-season tomato developed by W. D. Enzie of Birds Eye Hort. Research Laboratories and released to us by Hunt Foods, Inc. Field tests and crops the past two years have been very successful.

Maturing with Longred, Glamour bears good-sized to large fruit all season. They are flattened globe in shape, smooth, clean-shouldered and attractive. The firm, meaty flesh is quite mild in flavor and colors well from the inside. Pale green when immature, they ripen rather slowly to a bright red and hold up well in handling.

Even when other varieties are deeply cracked or scarred, Glamour has a very high percentage of No. 1 fruit, excellent for market and making a better grade at the canning plant. It blossoms and sets freely and the high yield of crack-free tomatoes should make it most profitable to grow. Hot Water Treated Seed. See prices on next page.

GLAMOUR—Clean and smooth, excellent market and canning type.

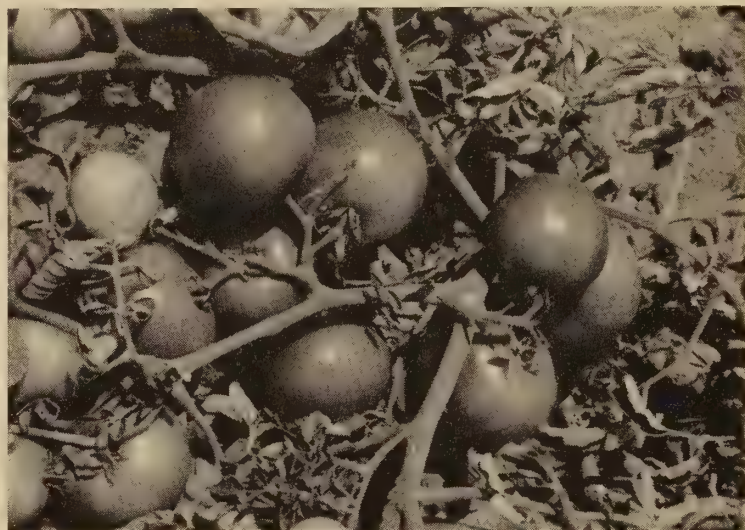

TOMATOES An ounce of seed will produce about 2000 plants.

861 Fireball —The Best First-Early—Heavy Yields of Firm Fruit

If you want extra early tomatoes, here is a great money-maker. Ripening well ahead of the standard varieties, Fireball produces big crops of smooth, firm fruit at a time when prices are still high.

The vines are very small with little foliage and should be planted close, 1 to 2 ft. apart, for big returns per acre. The blossoms set in large clusters even at cool temperatures and the medium-sized fruit ripen quickly from pale green to bright red. They are most attractive for an extra early variety—smooth, uniformly globe-shaped, 4 to 5 oz., and they are remarkably firm even when dead ripe. Good quality, not acid or sour.

Fireball is another great Harris' achievement, not adapted for mid-season crop but highly profitable for the first early tomatoes in nearly all sections. Try it this year. See prices on next page.

FIREBALL
Extra-early fruit on dwarf vines.

858 Early Hybrid

(Earliana x Valiant.) Noted for its extra early crops and heavy yields of medium-sized, slightly flattened fruit. Grown especially as a first-early staking or trellis variety in Canada, New England and sometimes Michigan. It needs fertile soil with good moisture for best results. Vines large and vigorous. See prices in box below.

859 Early Red Chief (New)

Good on Light Soils

Grown for early market and also suitable for canning, Early Red Chief is popular in several northern sections, especially on lighter soils. The husky vines give good protection to the medium-sized round fruit and the quality is good, meaty and well-flavored. Not an extra early variety, it matures just after Valiant and bears well until frost. Prices on next page.

868 Longred

Outstanding Main Crop Tomato

Longred is the leading midseason variety for New York State and many other areas, both for market and processing. It matures early enough for full production in our seasons and continues to bear until frost.

The fruit are exceptionally smooth and uniform in appearance, deep globe-shaped with thick walls and solid flesh. They have a fine rich red color and their interiors are very attractive. Longred ripens uniformly and the large size and deep smooth shape hold up well on all pickings.

Developed by Prof. Tapley at Geneva, Longred has abundant, fine leaved foliage and a free setting habit, giving heavy yields at each picking. N. Y. State Certified Seed. See prices on next page.

885 Rutgers

An Old Favorite—Still Popular

Rutgers still leads the field in many important tomato growing sections. It combines large size, solid structure, fine flavor and a good rich red color that goes all through the fruit, making it excellent for both market and canning. The vines are large and very husky and stand up well even late in the season.

Our strain has been grown and selected here in the North for years and we think it is superior to others as a market type. The uniform size, smoothness and even shape have been improved through our careful work and we highly recommend it. N. Y. State Certified Seed of our own growing. See prices on next page.

"Again we are sending for more Moreton Hybrid. They were the best tomatoes we have ever raised yet and we have raised nothing but tomatoes for the last 15 years."

Mrs. Christian Rose, Grandville, Mich.
Jan. 1, 1956

MORETON HYBRID TOMATO
Big crops of superb fruit from our plants.

HARRIS' MORETON HYBRID TOMATO PLANTS

We specialize in growing stocky transplanted plants of our famous Moreton Hybrid tomato, by far the best early kind. It has hybrid vigor, large size and excellent quality, ripens early and bears all season. (See description on page 22.)

MORETON HYBRID TRANSPLANTS.

Ready about May 15th to June 5th.

100 plants \$4.95 postpaid.

Not paid: 500 \$12.50; 1000 \$22.50.

(Weight 500—about 18 lbs.

1000—about 30 lbs. Heavier later in season.)

MORETON HYBRID SEEDLINGS.

Ready April 10th to May 15th. Small plants grown directly from seed in flats. Should be transplanted and grown in frames for several weeks before setting in field. Not less than 50 sold. Sent Special Handling.

50 seedlings \$1.50; 100 \$2.50; 500 \$8.00;

1000 \$12.50 postpaid.

POTTED MORETON HYBRID. Large Plants.

About May 15th to June 5th. Grown and shipped in 2 1/4 in. Jiffy Pots for quicker starting, less shock in transplanting.

Not prepaid: 96 plants \$11.50.

(Weight about 50 lbs.)

STRAWBERRIES *Please note shipping directions at top of page.*

Hardy, vigorous, Northern grown strawberry plants, carefully sorted and properly packed. Either fresh dug or dormant stock from cold storage. Available in April or early May. Order early. Weight 1000 plants—about 65 lbs.—heavier later in season. Full variety descriptions in retail catalog.

***CATSKILL.** Big Yields, Late-Midseason. 100 \$3.50 prepaid. Not paid: 500 \$10.50; 1000 \$19.25.

EMPIRE. Large, Vigorous, Handsome. 100 \$3.50 prepaid. Not paid: 500 \$10.50; 1000 \$19.25.

***FAIRFAX.** Excellent Quality. 100 \$3.50 prepaid. Not paid: 500 \$10.50; 1000 \$19.25.

***PREMIER.** Early. Standard Berry. 100 \$3.50 prepaid. Not paid: 500 \$10.50; 1000 \$19.25.

***SPARKLE.** Midseason. Attractive. 100 \$3.50 prepaid. Not paid: 500 \$10.50; 1000 \$19.25.

***SUPERFECTION.** Everbearing. 100 \$5.75 prepaid. Not paid: 500 \$17.50; 1000 \$30.00.

*Grown from Virus-Free Stock.

ASPARAGUS ROOTS

Shipped as early as weather permits.

Waltham Washington. New vigorous, uniform, high-yielding strain. This is the latest and best variety. (See page 2.)

1-year roots only—100 \$3.95 postpaid.

Not prepaid, 500 \$11.00; 1000 \$20.00.

5000 or more at \$18.00 per M.

Viking. An improved type.

2-year roots only—100 \$4.95 postpaid.

Not prepaid, 500 \$14.50; 1000 \$27.50.

5000 or more at \$25.00 per M.

Shipping weights:

1 yr. roots—500 about 35 lbs., 1000 about 70 lbs.

2 yr. roots—500 about 50 lbs., 1000 about 100 lbs.

VEGETABLE PLANTS AND NURSERY STOCK

All items on this page strictly net cash with order

We are pleased to offer a selected list of plants and nursery stock, for our customers in the Northeast. Long distance shipments are often not satisfactory so we limit our shipments as follows:

SHIPPING AREA—Plants and roots on this page sent only to New England, New York, New Jersey, Penna., Ohio, Indiana and Mich.

SHIPPING CHARGES—Where quoted "postpaid," we send by mail with no extra charge for postage. Where quoted "Not Paid" we send by express or mail at purchaser's expense.

Express—Sent collect—be sure to give us your nearest express office.

Mail—Please send us payment for postage charges with your remittance. From weights listed below, you can determine rate at your post office.

Tomato Plants—Standard Varieties

We also grow sturdy transplanted plants of Fireball, Longred, Rutgers. Ready about May 15th to June 5th.

TOMATO TRANSPLANTS.

100 plants \$4.10 postpaid. Not paid, 500 \$9.25;

1000 \$17.50. (Weight 500 plants—about 18 lbs.

1000—about 30 lbs. Heavier later in season.)

TOMATO SEEDLINGS. Same varieties as transplants. Ready about April 10th to May 15th. Small plants should be transplanted and grown in frames for several weeks. Not less than 50 sold. Sent Special Handling.

50 for 90c; 100 \$1.45; 500 \$3.85; 1000 \$6.25 postpaid.

POTTED TOMATOES. Ready May 15th to June 5th. Fireball and Rutgers only.

Not prepaid: 96 plants \$9.50 (Wt. about 50 lbs.)

CABBAGE. Well-hardened transplants.

Golden Acre Special. April 15th to May 15th.

100 plants \$3.35 postpaid. Not paid, 500 \$7.50;

1000 \$14.00. (Weight 500 plants—about 14 lbs.

1000—25 lbs.)

MUSKMELON. Potted Plants.

Delicious 51, Iroquois, Harvest Queen. After June 5th. See our Retail Catalog for prices on small quantities. If you can pick up plants here, write for quotation on 100 plants or more.

SHIPPING DATES—Approximate shipping dates listed below. For specific dates, mark your wishes clearly on the order and we will do our best, subject to weather conditions.

NO C.O.D.'S—All plants and nursery stock are strictly net cash with order and cannot be shipped C.O.D.

SAFE ARRIVAL GUARANTEED

If your plants are delayed on the road or for any other reason they do not arrive in good condition, *notify us at once* and proper adjustment will be made. We cannot be responsible for plants living after they are planted as this depends on factors we cannot control, such as weather and soil conditions.

250 or more plants are furnished at the 500 rate; 750 or more at the 1000 rate. For prices on quantities less than listed here see our general catalog.

ONION PLANTS. Fresh, Texas-grown plants.

Sweet Spanish Utah Strain. Husky vigorous plants flown direct to us from Texas between April 5th and May 20th. We forward them promptly and they reach you in prime condition. Sold by bunches only. Each bunch is a handful as pulled in the field and may contain 55 to 110 or more plants, depending on the size. (Weight about 30 Lbs. per crate.)

10 bunches \$3.95 postpaid. Not paid: Crate (60 bunches) \$10.75; 4 to 9 crates at \$10.25 each; 10 or more at \$9.85 each.

PEPPER SEEDLINGS. Small, early plants.

Vinedale, King of the North, Pennwonder, Calwonder, Hot Portugal. To be grown in frames for 3 or 4 weeks before setting out. April 15 to May 15. Not less than 50 seedlings sold. Sent Special Handling.

50 seedlings 95c; 100 \$1.50;

500 \$3.95; 1000 \$6.50 postpaid.

We regret that we cannot supply transplanted pepper plants except in home garden quantities. See retail catalog.

EMPIRE
Bright, glossy fruit—very productive.

RASPBERRIES

Strong, well-grown 1-year plants, selected from disease-free fields. Full variety descriptions in retail catalog. Weight: Red varieties 1000-125 lbs., Purple and Black varieties 1000-300 lbs. Not shipped beyond the 4th zone. *Please note shipping instructions at top of page.*

BURGUNDY (Purple) New. Vigorous. 25 \$7.50; 50 \$13.90; 100 \$22.50 prepaid.

COLUMBIAN (Purple) 100 \$14.00 prepaid. Not paid: 500 \$45.00; 1000 \$85.00.

DURHAM (Red). Fall Bearing. 25 \$5.50; 50 \$8.50; 100 \$14.95 prepaid.

LATHAM (Red). Standard Variety. 100 \$14.00 prepaid. Not paid: 500 \$45.00; 1000 \$85.00.

SHUTTLEWORTH (Black) The Finest Black Cap. . . . 100 \$11.50 prepaid. Not paid: 500 \$35.00; 1000 \$65.00.

TAYLOR (Red) Fine Quality. Best to grow. 100 \$14.00 prepaid. Not paid: 500 \$45.00; 1000 \$85.00.

SEPTEMBER (Red) Best "Everbearing" Variety. . . 25 \$5.95; 50 \$9.75; 100 \$15.95 prepaid.

BAILEY BLACKBERRIES (New). High Quality. . . . 25 \$7.25; 50 \$13.50; 100 \$21.50; prepaid.

HARRIS' FLOWER SEEDS

FOR TERMS SEE INSIDE FRONT COVER

SEE OUR RETAIL CATALOG FOR MORE COMPLETE DESCRIPTIONS

THE NUMBER OF SEEDS PER OUNCE IS INDICATED FOR EACH FLOWER

Harris' BEDDING PETUNIAS

Petunias average 289,000 seeds to the ounce.

F₁ HYBRID BEDDING PETUNIAS

Those varieties marked * are not subject to "blindness."

See note in box on this page.

FIVE NEW ONES

Some Things to Watch For In F₁ Hybrid Petunias

LACK OF BLOOM. Last season a few varieties of the new F₁ hybrid petunias showed a tendency to vegetative growth, late flowering and general lack of bloom. We believe this "blindness" is an inherited factor associated with the use of male sterile parents in producing a hybrid crop. The use of steriles is relatively new and improvements may be expected very shortly. *Meanwhile, we have marked with an asterisk* the hybrids grown with male parents which will not show any of this "blindness."*

BOTRYTIS. Another frequent difficulty under humid conditions is the very common fungus disease which spots the flowers and throws the plants out of bloom. Some varieties are much more resistant than others. AZTEC and INCA are two new otherwise desirable hybrids but so susceptible to botrytis that we are not offering them. FIRE DANCE is also quite susceptible.

W3842 F₁ GLITTERS.* Very dwarf plants spreading 16 to 18 inches are gay with brilliant 2 inch scarlet blooms having petals tipped or striped with white. The first multiflora or bedding hybrid of this color and one of the most showy petunias in our Trial Grounds. The plants bloom early and are very free flowering. We predict that there will be a big demand this spring for plants of this new All-America Winner. 10"

500 seeds \$1.00; 1000 seeds \$1.85; 1/128 Oz. \$3.60; 1/64 Oz. \$6.90; 1/32 Oz. \$12.50; 1/16 Oz. \$23.00; 1/8 Oz. \$43.00; 1/4 Oz. \$80.00; 1/2 Oz. \$145.00.

W3852 HARRIS' F₁ JETFIRE.* (A Harris Exclusive.) Frankly, we bred this orange-scarlet hybrid to protect our customers from seed shortages that have occurred in Comanche. It blooms earlier than Comanche but not as early as Red Satin. The plants are dwarfer and more compact than Comanche; the 2½-inch flowers not quite as large. While the color is the same brilliant orange-scarlet of Comanche, it does show some variability. 12"

500 seeds 90c; 1000 seeds \$1.65; 1/128 Oz. \$3.00; 1/64 Oz. \$5.50; 1/32 Oz. \$10.00; 1/16 Oz. \$18.00; 1/8 Oz. \$33.00; 1/4 Oz. \$60.00; 1/2 Oz. \$100.00.

HARRIS F₁ PACESETTER—Plants bloom in the flats while still short and stocky.

W3828 F₁ RED SATIN.* If there is any doubt about the popularity of the scarlet-red color only recently available in petunias, witness the tremendous reception Comanche received. Red Satin, an All-America Winner for '57, is a new one in this color. It is only 12 inches high, uniformly dwarf, blooms earlier and thrives under difficult growing conditions. Plants are globe-shaped and do not break apart in midseason. The 2½ to 3-inch flowers are a clear, scarlet-red which does not fade. Plants produce flowers while still in flats and remain dwarf all summer; two decided improvements over Comanche. There will be terrific publicity for Red Satin this winter so we advise growing lots of plants.

500 seeds 90c; 1000 seeds \$1.75; 1/128 Oz. \$3.10; 1/64 Oz. \$5.75; 1/32 Oz. \$10.50; 1/16 Oz. \$19.00; 1/8 Oz. \$35.00; 1/4 Oz. \$63.00; 1/2 Oz. \$110.00.

W3847 HARRIS' F₁ PACESETTER.* (A Harris Exclusive.) A visitor who saw our new deep rose hybrid in the Trial Grounds this summer suggested that we call it "Dream Girl Plus"! We call it Pacesetter because it is an example of the new and better hybrids being produced by our plant breeders. The color is a little deeper and more lustrous than Dream Girl but with the same white throat. Blooms are slightly smaller, 2-2½ inches, but the plants are dwarfer and produce more flowers. Plants bloom in the flats while still small and stocky. Actually, Pacesetter is Celestial Rose made into a hybrid! 12"

500 seeds 90c; 1000 seeds \$1.75; 1/128 Oz. \$3.10; 1/64 Oz. \$5.75; 1/32 Oz. \$10.50; 1/16 Oz. \$19.00; 1/8 Oz. \$35.00; 1/4 Oz. \$63.00; 1/2 Oz. \$110.00.

W3846 HARRIS' F₁ COTTON TOP.* (A Harris Exclusive.) We have been amazed at the increasing interest in and demand for our Summer Snow, the first good white bedding hybrid but under some conditions purple streaks occasionally appeared in the blooms. In breeding to eliminate this, we have produced a hybrid which is more erect, more compact growing and with 2¼ inch pure white flowers of extra good substance. Once you plant Cotton Top you will agree that it is by far the best white bedding hybrid produced to date. 13"

500 seeds 90c; 1000 seeds \$1.75; 1/128 Oz. \$3.10; 1/64 Oz. \$5.75; 1/32 Oz. \$10.50; 1/16 Oz. \$19.00; 1/8 Oz. \$35.00; 1/4 Oz. \$63.00; 1/2 Oz. \$110.00.

3830 SINGLE LOW GROWING ELITE MIXTURE.

A mixture, especially blended for plant growers, of the following F₁ hybrid petunias: Glitters, Red Satin, Jetfire, Pacesetter, Cotton Top, Dream Girl, Cover Girl, Starbright, Gypsy, Silver Medal. To complete the color range we have added our open pollinated Blue Bedder and Dark Purple. Because of the sturdy appearance of the plants and the blooms that appear on small transplants, this mixture is one of the most popular at our Garden Store.

500 seeds 75c; 1000 seeds \$1.40; 1/128 Oz. \$2.50; 1/64 Oz. \$4.50; 1/32 Oz. \$8.00; 1/16 Oz. \$14.00; 1/8 Oz. \$25.00; 1/4 Oz. \$45.00; 1/2 Oz. \$80.00.

HARRIS' COTTON TOP—More erect and compact than Summer Snow and free from purple streaking.

W3832 HARRIS' F₁ DREAM GIRL.* (A Harris Exclusive.) Since we introduced Dream Girl in 1953, we have been unable to keep up with the increasing demand for seed. Growers can sell all the plants they can produce.

The 2½" blooms are a deep rose which is not harsh but practically fade-proof and the small white throat accentuates this warm color. The uniformly erect and compact plants are covered with bloom all season. Seedlings are most vigorous, and transplants sell themselves because of their sturdy appearance. 12"

W3839 HARRIS' F₁ GYPSY.* (A Harris Exclusive.) A warm burnished, glowing salmon-scarlet blooming early and profusely. Plants of this first generation hybrid are neat and compact about 15 in. high and a foot wide. The large flowers open a vivid scarlet becoming a brilliant salmon-pink when fully mature. Blooms early and continuously. 15"

W3848 HARRIS' F₁ SUMMER SNOW.* (A Harris Exclusive.) It was only natural that there would be a demand for a low, large, early and free flowering white hybrid so necessary to complement the red and pink hybrids. Harris' Summer Snow fills this need. The plants grow as compact mounds producing 2½" blooms early and long after other white petunias have petered out. 13"

W3849 HARRIS' F₁ STARBRIGHT.* (A Harris Exclusive.) Our new hybrid starred petunia is vastly superior to the open pollinated starred varieties. Plants are much more vigorous and upright, flowers are larger and produced in greater abundance. It is taller than some of the other hybrid bedding varieties but this only makes it more showy. Blooms are a deep crimson, in the center of which is a white star. 15"

W3831 HARRIS' F₁ COVER GIRL.* (A Harris Exclusive.) For many gardeners who want pink bedding petunias in which the color is not as intense as the Celestial Rose group, Harris' Cover Girl is the answer. Apple blossom pink best describes it. The individual plants are almost globe shape and only a foot high. Dainty but with lots of sparkle. 12"

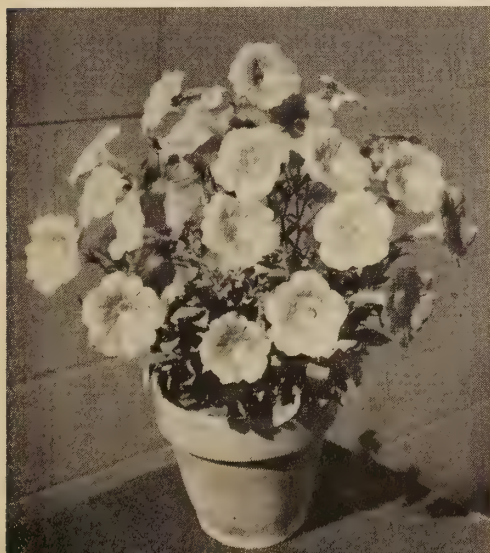

W3838 F₁ SILVER MEDAL. Opens soft medium salmon changing to silvery pink as the flowers mature. Plants are taller, wider, more vigorous and more uniform in habit of growth than the open pollinated bedding varieties. 14"

ANY ONE OF THE ABOVE F₁ HYBRID BEDDING

PETUNIAS: 500 seeds 90c; 1000 seeds \$1.65; 1/128 Oz. \$3.00; 1/64 Oz. \$5.50; 1/32 Oz. \$10.00; 1/16 Oz. \$18.00; 1/8 Oz. \$33.00; 1/4 Oz. \$60.00; 1/2 Oz. \$100.00.

W3820 F₁ COMANCHE. We are not offering this because delivery is expected too late for plant growers and the supply will probably be very short. We strongly recommend the new RED SATIN as an improvement on Comanche with more brilliant red color and more compact growth. We also offer JETFIRE, a new red of our own growing which has darker veining and, like Red Satin, more compact growth and abundance of bloom.

We are using, and can recommend highly, the use of Milled Sphagnum Moss for petunia seed sowing. See page 36.

OPEN POLLINATED BEDDING PETUNIAS

W3821 WHITE PERFECTION. The best all around white open pollinated bedding petunia available because of its compact growth and abundance of bloom. 15"

W3826 CELESTIAL ROSE. The finest all-purpose bright pink. A clear pink without the large white throat of Rosy Morn. This is the most compact and uniform open pollinated strain available. 12"

W3825 DARK PURPLE. A very much improved stock, very compact growing and a deep velvety dark blue-purple. 14"

W3827 HEAVENLY BLUE Improved. Ours is a much improved strain of clear, light blue which combines so well with other petunia colors. 15"

W3841 SNOWBALL IMPROVED. This is considered to be the finest dwarf white of the open pollinated varieties. More compact and well rounded than many and more free flowering. 12"

ANY ONE OF ABOVE TEN COLORS: Lg. Pkt. 45c; 1/8 Oz. 90c; 1/4 Oz. \$1.70; Oz. \$5.00.

W3823 ROSY MORN. An unusually good strain of the ever-popular white-throated pink for bedding, boxes, etc. 10"

W3844 CREAM STAR. The 2" blossoms of this variety have pointed petals which give the variety its name. Creamy yellow in color deepening to a golden yellow throat. 14"

W3853 TWINKLES. Very dwarf, compact, brilliant rose with a well defined pure white star. Makes a cute border that is irresistible. 10"

W3834 HOWARD'S STAR. Crimson-maroon with a distinct five-pointed white star. A little taller than the dwarf bedding types. 15"

W3829 BLUE BEDDER IMPROVED. Here is a clear mid-blue, between Heavenly Blue and various purples, that we have always wanted in a really dwarf bedding type. True medium blue, free flowering, dwarf, compact variety. 14"

W3845 FINEST BEDDING VARIETIES MIXTURE.

We make up this mixture especially for growers whose plant customers want a wide range of color in mass plantings of dwarf petunias. Contains seed of separate varieties of white, cream, soft pink, rose, salmon, blue, violet, purple, red and starred. 14"

Lg. Pkt. 40c; 1/8 Oz. 80c; 1/4 Oz. \$1.50;
Oz. \$4.50.

W3824 FIRE CHIEF. The only real red in the open pollinated bedding petunias and although the plant growth is not as uniform nor the flowers as large as the new hybrids, Fire Chief has a lot to recommend it in areas where growing conditions are good. 12"

Lg. Pkt. 45c; 1/32 Oz. 90c; 1/16 Oz. \$1.65;
1/8 Oz. \$2.75; 1/4 Oz. \$5.00; 1/2 Oz. \$9.00;
Oz. \$17.00.

W3837 CHEERFUL, LOW GROWING. An exceptionally fine strain of this line-bred variety. Plants 10"-12" tall and spreading to 18". Flowers 2 3/4" and deeper salmon than the original strain. Not as free flowering as Silver Medal, but the best open pollinated substitute for it. 12"

W3835 KING HENRY. A deep maroon-red the nana compacta type which is very popular for pot plants. Flowers are large for this type and produced freely. Sometimes called Dwarf Flaming Velvet. 14"

EITHER OF ABOVE TWO VARIETIES: Lg. Pkt. 45c;
1/64 Oz. \$1.00; 1/32 Oz. \$1.75; 1/16 Oz. \$3.00;
1/8 Oz. \$5.50; 1/4 Oz. \$10.00.

W3833 ELK'S STAR, LOW GROWING. A dwarf, compact, upright growing strain producing an abundance of crimson flowers with a well defined white star. A shade darker than our Starbright, not as vigorous nor as free flowering. 12"

W3822 SALMON SUPREME. Rich coral salmon changing to soft pink. Quite low and compact. Especially popular with people who object to vivid colors. 15"

W3843 GLOW. The brightest light carmine rose of all petunias. Since this was introduced we have been making our own selections and feel sure we are growing a most uniform strain, both in plant form and color. 14"

ANY ONE OF ABOVE THREE COLORS: Lg. Pkt. 45c;
1/16 Oz. 80c; 1/8 Oz. \$1.50; 1/4 Oz. \$2.50; Oz. \$7.50.

W3819 ADMIRAL. We consider this by far the finest deep blue petunia because it is uniformly dwarf and has large slightly waved blooms of a rich violet-blue color. 10"

1000 seeds 70c; 1/64 Oz. \$1.25; 1/32 Oz. \$2.25;
1/16 Oz. \$3.75; 1/8 Oz. \$7.00; 1/4 Oz. \$13.00.

GIANT SINGLE AND DOUBLE PETUNIAS

Those varieties marked * are not subject to blindness.

See note in box on page 25

F₁ GRANDIFLORA FRINGED AND WAVED HYBRIDS

W3767 HARRIS' F₁ BLACK OPAL.* (A Harris Exclusive.) Our new color in the Giant F₁ Hybrids is the rich, velvety wine-red or burgundy of King Henry. There the similarity ends however for the size of the blooms is much larger (3 1/2 inches); the plants produce much more bloom and are erect, not sprawly. Black Opal was greatly admired in our Trial Grounds this summer so we predict that plants will sell if a flowering plant can be seen by your customers. A little taller than some of the new hybrids. 14"-15"

500 seeds \$1.00; 1000 seeds \$1.90; 1/128 Oz. \$3.85;
1/64 Oz. \$7.50; 1/32 Oz. \$13.50; 1/16 Oz. \$25.00.

W3768 F₁ MINSTREL.* Another new color in the Giant F₁ Hybrids—variegated purple and white. The gracefully formed 3-inch flowers have waved margins. There are the same variations in the purple and white markings as are found in the open pollinated Royalty but in all there is a perfect star. 14"-15"

500 seeds 90c; 1000 seeds \$1.65; 1/128 Oz. \$3.00;
1/64 Oz. \$5.50; 1/32 Oz. \$10.00; 1/16 Oz. \$18.00.

W3777 F₁ FIRE GLEAM.* An excellent new variety with 3 to 3 1/2-inch ruffled and fringed flowers of salmon scarlet color which is deeper than Ballerina and our new Flamingo but not quite as dark as Tango. Plants have the compact, low spreading habit of Ballerina and the same vigorous growth and abundance of bloom. Can you imagine how folks will "go for" these enormous flowers of "Comanche Color." 12"

500 seeds 90c; 1000 seeds \$1.65; 1/128 Oz. \$3.00;
1/64 Oz. \$5.50; 1/32 Oz. \$10.00; 1/16 Oz. \$18.00.

W3776 F₁ PINK CHARM.* A lovely new 100% grandiflora with 3-inch waved carmine-rose blooms having creamy white throats. Lighter in color than Prima Donna but a vibrant pink. Uniform, extra dwarf, vigorous, bushy plants. Produces more bloom and is more resistant to botrytis than Prima Donna. 10"

500 seeds 90c; 1000 seeds \$1.65; 1/128 Oz. \$3.00;
1/64 Oz. \$5.50; 1/32 Oz. \$10.00; 1/16 Oz. \$18.00.

W3771 HARRIS' F₁ WHITE SAILS.* (A Harris Exclusive.) Discriminating plant growers who looked over our Test Plots of all the white hybrid grandifloras this summer were attracted to White Sails as if it were a magnet; evidence, certainly, that it is outstanding. The 3-inch, beautifully formed, lightly fringed flowers are pure white without the "blushing" usually found in white petunias. They are further highlighted with yellow throats from which pale green veins radiate. Plants produce quantities of large blooms and are not straggly at any time. 12"

500 seeds \$1.15; 1000 seeds \$2.20; 1/128 Oz. \$4.15;
1/64 Oz. \$7.75; 1/32 Oz. \$14.50; 1/16 Oz. \$27.00.

W3773 SNOWCAP.* A great improvement over Popcorn which is a "shy bloomer." The 3-inch flowers are pure white, beautifully ruffled and 100% grandiflora. Growth is dwarf and vigorous. 10"

500 seeds 95c; 1000 seeds \$1.80; 1/128 Oz. \$3.35;
1/64 Oz. \$6.15; 1/32 Oz. \$11.50; 1/16 Oz. \$21.00.

W3774 HARRIS' F₁ FLAMINGO.* (A Harris Exclusive.) There is no better way to describe our new Flamingo than to call it a "glorified Ballerina." The color is slightly deeper and more luminous salmon and the flowers are somewhat larger—many 3 1/4 to 3 3/4 inches across. Vigorous in growth, the very dwarf plants produce quantities of bloom from June until frost. 10"

500 seeds \$1.15; 1000 seeds \$2.20; 1/128 Oz. \$4.15;
1/64 Oz. \$7.75; 1/32 Oz. \$14.50; 1/16 Oz. \$27.00.

W3775 F₁ FAIRYLAND.* Soft Salmon-pink. 100% ruffled and fringed, 3-3 1/2-inch flowers have an elegance of form and color which is greatly admired by people who want restrained rather than "noisy" colors. It is lighter than either our new Flamingo or Ballerina and beautiful alone or in combination with other colors. Plants are dwarf and base branching; early and free flowering.

500 seeds 90c; 1000 seeds \$1.65; 1/128 Oz. \$3.00;
1/64 Oz. \$5.50; 1/32 Oz. \$10.00; 1/16 Oz. \$18.00.

HARRIS' BLACK OPAL—Our new hybrid which is the dark velvety red of King Henry.

The first work in hybridizing the large flowered petunias was aimed at getting uniformly large flowers, early and continuous bloom on compact rather than straggly plants. Hybrid vigor was expected to follow naturally.

Production of hybrid petunias involves hand pollinating so the introduction of male sterile parents into the picture resulted in a decrease in this hand labor. Recently, however, late flowering or lack of bloom has become evident in the offspring of male sterile parents. Because of this fault, we continue to use only male fertile parents in our hybrids. Susceptibility to botrytis disease which spots the flowers and throws the plants out of bloom is also a problem.

PETUNIA, MINSTREL—First variegated purple and white hybrid.

W3769 F₁ EXQUISITE.★ This new ruffled and fringed hybrid is a salmon scarlet and white bicolor with 3-inch flowers on very dwarf, compact, uniform plants. Medium early and very vigorous. Imagine how pot plants of this will sell. 10"

500 seeds 95c; 1000 seeds \$1.80; 1/128 Oz. \$3.35; 1/64 Oz. \$6.15; 1/32 Oz. \$11.50; 1/16 Oz. \$21.00.

F₁ HYBRID EXQUISITE — New salmon-scarlet and white bicolor.

W3811 HARRIS' F₁ BLACK KNIGHT.★ (A Harris Exclusive.) Our plant breeders, appreciating the need for a dwarf and 100% large flowered purple, are pleased that they are the first to have produced this new hybrid. Black Knight is the rich velvety purple of Purple Prince. 4" flowers are gracefully waved and produced in great abundance. The plants have unusual hybrid vigor producing enormous flowers while still in flats. 12"

W3779 F₁ PRIMA DONNA. Last year's All-America winner has the same general habit as Ballerina with 3½" fringed flowers of clear, deep rose borne early and continuously. Much better than Bolero which it replaces. 12"

W3778 F₁ CRUSADER. This new hybrid has 3-inch fringed white flowers irregularly striped and blotched with bright rose. Plants are dwarf, compact and very free flowering, with a diameter of 2 feet. 10"-12"

W3807 F₁ BALLERINA. An All-America Winner for 1952. The ruffled and fringed 3½" flowers of soft glowing salmon are 100% grandiflora type. Plants are dwarf and compact, not at all straggly; growth is most vigorous and extremely free flowering. 10"

W3804 F₁ TANGO. A deep scarlet-salmon, more brilliant than anything seen thus far. Large, fringed flowers produced in abundance. Vigorous but dwarf plants. 12"

W3801 F₁ LA PALOMA. Single fringed pure white 3"-3½" blooms with yellow throat; 100% grandiflora. 14"

ANY ONE OF ABOVE SIX FRINGED F₁ HYBRIDS:
500 seeds \$1.00; 1000 seeds \$1.90;
1/128 Oz. \$3.85; 1/64 Oz. \$7.50;
1/32 Oz. \$13.50; 1/16 Oz. \$25.00.

W3810 GRANDIFLORA F₁ HYBRIDS MIXED.

We are offering this in response to the demand for a mixture of these new large flowered but dwarf hybrids. It will be made from all the F₁ grandiflora hybrids in our list. 500 seeds 90c; 1000 seeds \$1.75; 1/128 Oz. \$3.45; 1/64 Oz. \$6.65; 1/32 Oz. \$12.25; 1/16 Oz. \$22.50; 1/8 Oz. \$42.00; 1/4 Oz. \$80.00.

W3808 F₁ FIRE DANCE. Deeply fringed 3½" orange-scarlet blooms with a large yellow throat are produced on plants 1 ft. tall with a 3 ft. spread. Foliage is rich dark green. All-America winner in '56. Quite susceptible to botrytis. 12"

500 seeds \$1.00; 1000 seeds \$1.90; 1/128 Oz. \$3.85; 1/64 Oz. \$7.50; 1/32 Oz. \$13.50; 1/16 Oz. \$25.00.

GIANT RUFFLED PETUNIAS

W3802 HARRIS' PARAMOUNT GIANTS. An extra fine strain of our own growing especially selected for florists' use. In our Trial Grounds they compare most favorably with strains available from many sources and at higher prices. Immense, deep throated, beautifully ruffled and frilled flowers in a range of vivid and delicate colors, from rich purple through rose and pink to lilac, are produced while the plants are still small. 10"

500 seeds 75c; 1000 seeds \$1.35; 1/64 Oz. \$2.75;
1/32 Oz. \$4.75; 1/16 Oz. \$8.50; 1/8 Oz. \$15.00;
1/4 Oz. \$28.00.

W3806 DWARF CALIFORNIA GIANTS, Mixed Colors. While not comparable to Harris' Paramount Giants in size and color range, this is a very good strain of seed grown in California. The plants are dwarf and fairly compact and bloom freely. 8"

500 seeds 70c; 1000 seeds \$1.25; 1/64 Oz. \$2.50;
1/32 Oz. \$4.25; 1/16 Oz. \$7.50; 1/8 Oz. \$13.00.

GIANT WAVED PETUNIAS

W3812 POPCORN. New several years ago, this dwarf, large flowered white, seems to have done well in some areas and is well worth a trial. It is very similar to Snowstorm but the plants are a little lower. Popcorn is particularly valuable because of its earliness and vigor. 12"

1000 seeds \$1.25; 1/64 Oz. \$2.25; 1/32 Oz. \$4.00;
1/16 Oz. \$7.50; 1/8 Oz. \$14.00; 1/4 Oz. \$27.00.

W3813 PINK GLORY. Large 3 inch well formed flowers of luminous rose-pink with white throat and ruffled edge. An old established variety that is still very popular. 10"

W3809 HARRIS' ROYALTY. Beautiful large velvety flowers vary from pure white touched with purple through many combinations of purple and white to rich, self-colored blooms. 15"

W3814 HARRIS' GIANT SNOWSTORM. Very large, waved, pure white flowers on low growing plants. Blooms constantly in the garden and sells well as potted plant. 14"

W3818 ELKS PRIDE (Dwarf). Large flowers of a deep purple and plants which do well in pots make this a very popular petunia in many areas. 12"

W3816 HARRIS' PURPLE PRINCE. The large, deep violet-blue blooms of velvet texture with wide open throats and beautifully waved petals make our Purple Prince the finest in this class. 14" (See Black Knight for the F₁ hybrid of Purple Prince.)

ANY ONE OF ABOVE FIVE COLORS: 1000 seeds 90c;
1/64 Oz. \$1.75; 1/32 Oz. \$3.00; 1/16 Oz. \$5.50;
1/8 Oz. \$10.50; 1/4 Oz. \$20.00.

DOUBLE PETUNIAS—Our list contains only the outstanding varieties available today.

PETUNIA, FAIRYLAND—Soft salmon color, lighter than Ballerina and Flamingo.

OPEN POLLINATED GRANDIFLORA HYBRIDS

W3805 CARMENCITA. Similar to the rich deep salmon of F₁ Tango but is not a hybrid. A gorgeous color that stands out in any planting. Large flowers are deeply fringed. Plants only 10" high.

W3815 FRINGED SNOWSTORM. Glistening white with a touch of yellow in the throat. Large beautifully fringed flowers are abundantly produced. 12"

W3817 THE ART. Also called "Columbia." An exceptionally free-flowering fringed petunia in unusual color combinations of carmine and white, mostly in blotches. 15"

ANY ONE OF ABOVE THREE FRINGED PETUNIAS:

1000 seeds 90c; 1/64 Oz. \$1.75; 1/32 Oz. \$3.00;
1/16 Oz. \$5.50; 1/8 Oz. \$10.50.

DOUBLE PETUNIAS

With their increasing use as bedding plants, specimen pot plants, cut flowers and the high spots in combination boxes and pots, the new double petunias are making inroads on the old standbys, such as geraniums, because they can be grown at less cost.

November sowing produces large pot plants by late April or early May; December and January, 2½" to 3" pot plants for May sales.

Use milled sphagnum or sterilized soil for seed sowing and 60° to 65° temperatures for germination. Don't cover the seed with soil. Use newspapers to keep the surface moist. A 50° temperature after germination makes for huskier plants.

CANADIAN 100% DOUBLE

W3795 ALL DOUBLE COLOSSAL SHADES OF ROSE. A very dwarf compact strain especially desirable for potting because the plants branch freely and remain dwarf. The full double blooms, often 5" in diameter, include light and deep rose, copper rose, light salmon and magenta. Largest flowered of any of the double varieties. 12"

W3781 CANADIAN SALMON. (A Harris Introduction.) A worthy addition to the Canadian Doubles with 4" to 5" blooms of sparkling salmon-pink fully double and well fringed. The plants are the dwarf and compact form typical of all the Canadian group, and exceptionally uniform in plant habit and color. 12"

W3782 CANADIAN CLEAR ROSE. Bright sparkling rose with no mauve or magenta. Unusually free flowering. 12"

W3780 CANADIAN ALL DOUBLE MIXTURE. A mixture of many shades of rose and salmon plus mauve and white. All the Canadian Doubles are 100% large flowering and produce dwarf, compact, bushy plants ideal for potting or garden culture. 12"

ANY ONE OF ABOVE FOUR COLORS: 500 seeds \$1.90;
1000 seeds \$3.25; 1/128 Oz. \$5.75; 1/64 Oz. \$10.00;
1/32 Oz. \$19.00; 1/16 Oz. \$36.00.

Double Petunias cont'd next page

PAN AMERICAN 100% DOUBLE AMERICAN GROWN PETUNIAS

W3784 NOCTURNE (Dark Purple). Deep midnight purple. A high percentage of large, fringed doubles. The only good double of this color. Plants fairly dwarf. 12"

W3786 SONATA (White). Best double white yet produced. Huge blossoms, deeply fringed, fully double. Plants semi-dwarf, free branching are improved by early pinching. 14"

W3787 CAPRICE (Deep Rose). Brilliant rose pink blossoms are large, deeply fringed and fully double; plants dwarf and compact. 12"

W3788 ALLEGRO (Salmon). Giant deep salmon blossoms deeply fringed; color and form 100% true; plants dwarf; a real sensation. 12"

ANY ONE OF ABOVE FOUR COLORS: 500 seeds \$2.50; 1000 seeds \$4.00; 1/128 Oz. \$7.25; 1/64 Oz. \$14.00; 1/32 Oz. \$27.00; 1/16 Oz. \$52.00.

OTHER DOUBLE PETUNIAS

W3796 ALL DOUBLE GIANT WHITE. New this year, Giant White is more double, slightly larger, and better fringed than Sonata. The flowers remain pure white under all temperatures. Plants are 14" tall with a 3' spread. 14"

W3797 ALL DOUBLE GIANT ORCHID. Large, 4 to 5 inch fully double flowers of uniformly deep orchid shade. So much better than Minuet in color, size and bloom that we are offering only this new one. Plants grow about 1' tall with a 3' spread.

W3792 VICTORIOUS GAIETY. Large fully double flowers beautifully striped and mottled *carmine* and *white* remind one of a tight cluster of apple blossoms. Plants dwarf and compact making it a good subject for pot plants. 10"

ANY ONE OF ABOVE THREE COLORS: 500 seeds \$2.50; 1000 seeds \$4.00; 1/128 Oz. \$7.25; 1/64 Oz. \$14.00; 1/32 Oz. \$27.00; 1/16 Oz. \$52.00.

W3772 DOUBLE AMERICA. The first 100% all double petunia ever created in America. Compact plants 1 ft. high and 1½ ft. across. Small, rose-pink, carnation-flowered blooms. 10"

500 seeds \$1.25; 1000 seeds \$2.00; 1/128 Oz. \$3.50; 1/64 Oz. \$6.50; 1/32 Oz. \$12.00; 1/16 Oz. \$22.00.

W3785 HARRIS' SELECTED MIXTURE. To give you a complete color range of the finest double petunias, we make this special mixture from all of the large flowered double varieties in our list.

500 seeds \$2.25; 1000 seeds \$3.75; 1/128 Oz. \$6.75; 1/64 Oz. \$12.50; 1/32 Oz. \$24.00; 1/16 Oz. \$46.00.

I have never seen any Petunias from plants raised in a greenhouse that compare with your Black Knight that I raised from your seed.

Mrs. Bus Fragile—Box 22—
Raysal, West Va.—8/29/55

BLUE PEONY—The perfect aster for cut flowers

NEW BLUE PEONY ASTER

W1774. This 1956 introduction looks like the finest cut flower variety for florists developed thus far. Plants show unusual vigor, growing 30 inches tall producing 12 or more fully double flowers with no trace of the center and with 12 to 14 inch stems with few laterals. Blooms directly after Cregos and Late Branching.

Lg. Pkt. \$1.00; ¼ Oz. \$1.75; ¼ Oz. \$3.25; Oz. \$9.50.

BOUQUET TYPE ASTERS

This is the new upright and compact aster which was introduced in '54. It receives a sensational response from people who see it in our Test Gardens. The plants are two feet tall with flower stems coming from the base. It is a midseason variety blooming with Cregos and American Branching and having perfectly formed 3-inch quilled blooms similar to the Princess type. The whole plant, which grows only 12 inches wide, may be cut or individual long-stemmed blooms. Plants "sell like hot cakes" at our Garden Store.

W1151 White
W1152 Coppery Rose
W1153 Rose Pink

W1154 Crimson
W1155 Scarlet

ANY ONE OF ABOVE COLORS: Lg. Pkt. 45c; ¼ Oz. \$1.50; Oz. \$4.50.

W1150 BOUQUET POWDER PUFFS (Mixed Colors). To assure a really well balanced color range, we make our mixture from the five above colors.

Lg. Pkt. 40c; ¼ Oz. \$1.35; Oz. \$4.00; ¼ Lb. \$14.00.

NEW EARLY GIANT ASTERS

These shaggy Early Giants have just about reached perfection. They bloom a month earlier than the old California Giants, are wilt resistant and the large flowers with broad gracefully intertwined petals are borne on strong, heavy stems on which few laterals are produced. 1½'

W1821 White
W1822 Rose Marie. Bright rose
W1823 Peach Blossom. Soft pink

W1825 Crimson
W1826 Azure Blue

ANY ONE OF ABOVE COLORS: Lg. Pkt. 40c; ¼ Oz. \$1.25; Oz. \$3.75.

W1820 VARIETY MIXTURE. A balanced mixture made from the above five colors.

Lg. Pkt. 35c; ¼ Oz. \$1.00; Oz. \$3.50.

AMERICAN BRANCHING ASTERS

The standard mid-season variety with broad incurved petals. 2'

W1601 White
W1602 Flesh Pink
W1603 Rose
W1604 Azure Blue

W1605 Purple
W1606 Crimson
W1607 Peach Blossom

ANY ONE OF ABOVE COLORS: Lg. Pkt. 25c; ¼ Oz. 65c; Oz. \$2.00.

W1600 VARIETY MIXTURE.

Lg. Pkt. 20c; ¼ Oz. 50c; Oz. \$1.95; ¼ Lb. \$6.50.

HEART OF FRANCE

W1078. The gorgeous red color that is not duplicated in any other variety. Same type as American Branching. 18"

Lg. Pkt. 40c; ¼ Oz. \$1.00; Oz. \$3.50.

PEERLESS PINK

W1066. This is still the most popular light pink aster. Large double American Branching type flowers on vigorous plants. 2'

Lg. Pkt. 25c; ¼ Oz. 65c; Oz. \$2.00.

ASTERS

14,000 seeds to the ounce.

WILT RESISTANT ASTERS

HARRIS' 8-BEST MIXTURE

For good performance under all conditions, for wide color range and variation in form of flowers there is no finer mixture. We use equal quantities of the following eight wilt resistant varieties.

Crego Shell Pink
Crego Salmon Rose
Peerless Pink
Heart of France

Early Giant Azure Blue
Early Giant Peach Blossom
Am. Branching Purple
Am. Branching White

W1500 EIGHT BEST MIXTURE.

Lg. Pkt. 35c; ¼ Oz. 90c; Oz. \$2.75; ¼ Lb. \$8.50.

BALL TYPE ASTERS

Bred particularly for commercial cut flowers, these are greatly improved American Branching Asters characterized by large, practically full double flowers, rarely showing the yellow centers. Six to eight stems, with few laterals, branch from the base. Under cloth shade, stems are 3 ft. long; outdoors, 2 ft.

W1701 White
W1702 Pink
W1703 Rose

W1704 Azure Blue
W1705 Purple
W1700 Mixed Colors

ANY ONE OF ABOVE COLORS: Lg. Pkt. 45c; ¼ Oz. 85c; ¼ Oz. \$1.50; Oz. \$5.00.

I set one of my cold frames 15 x 6 ft. to Powderpuff Asters. They were set 8 x 8 inches and they averaged better than 3 ft. tall. Some were 3½ ft. tall. I cut from 6 to 8 nice long stemmed flowers besides many smaller ones from each plant. I have never grown or seen a nicer bed of Asters.

Martin L. Meyer—2022 Mill Lane—
Williamsport, Pa.—1/4/55

BOUQUET TYPE ASTERS — The mixture is called Powder Puff Asters.

ALYSSUM

(79,000 seeds.) Royal Carpet and Carpet of Snow growing 4" high and spreading about 12" are perfect companions. Little Gem grows as a neat, upright mound 6" high. Violet Queen is lighter and taller than Royal Carpet. We find a ready sale for plants of alyssum at our Garden Store.

W2020 Sweet 1'	1/4 Oz.	Oz.	1/4 Lb.
W2021 Little Gem 6"	.30	\$.90	\$3.00
W2022 Carpet of Snow 4"	.35	1.00	3.25
W2023 Violet Queen 7"	.35	1.00	3.25

W2024 ROYAL CARPET. Deep violet blue in color, only 4" high but spreading 12", Royal Carpet is an invaluable edging plant and one of the most popular flowers of recent introduction.

Lg. Pkt. 40c; 1/8 Oz. 65c; 1/4 Oz. \$1.00; Oz. \$3.50; 1/4 Lb. \$12.00.

AGERATUM

(238,000 seeds.) We are continually working to true up our stocks of Ageratum and believe ours are now the most uniform available from seed. Sow in January for spring pot plants and combinations; February for bedding plant sales.

W2015 BLUE MINK. A new tetraploid (chromosomes doubled) ageratum with larger leaves and much larger flower heads. The color is fluffy powder-blue. Growth is more uniform than in older varieties from seed. In our tests it grew 10 inches tall in midsummer but was several inches taller by Sept. 10"-12"

Lg. Pkt. 45c; 1/8 Oz. \$1.10; 1/4 Oz. \$1.75; Oz. \$6.00.

W2011 LITTLE BLUE STAR. Particularly valuable because of its earliness and the abundance of small, soft blue flower heads held well above the foliage. 7"

Lg. Pkt. 35c; 1/8 Oz. 70c; 1/4 Oz. \$1.20; Oz. \$4.00.

W2012 MIDGET BLUE. Very dwarf compact small leaved plants which are low mounds of soft blue all summer. 5"

Lg. Pkt. 35c; 1/8 Oz. 80c; 1/4 Oz. \$1.35; Oz. \$4.50.

W2013 BLUE BEDDER. One of the finest varieties from seed since it produces such large flower clusters on uniformly dwarf plants. 7"

Lg. Pkt. 35c; 1/8 Oz. 80c; 1/4 Oz. \$1.35; Oz. \$4.50.

W2014 BLUE BALL. The large showy flower clusters make this the most popular for pot plants, combinations and window boxes as well as borders. 6"

Lg. Pkt. 35c; 1/8 Oz. 80c; 1/4 Oz. \$1.35; Oz. \$4.50.

BEGONIA SEEDS

FIBROUS ROOTED

(33,000 seeds in 1/32 ounce.) The following are the outstanding varieties in the dwarf to intermediate class of fibrous rooted begonias. All of them make bushy plants that are unexcelled as pot plants, bedding material or in combinations.

W2131 SNOW BANK. The best dwarf large flowering pure glistening white. Light green foliage; dense even growth. 8"

1000 seeds 60c; 1/64 Oz. \$2.50; 1/32 Oz. \$4.50.

W2135 ADELIN. An extremely free flowering dwarf variety with foliage slightly tinged with red which points up the large, bright rose-pink blooms. 6"

1000 seeds 70c; 1/64 Oz. \$2.75; 1/32 Oz. \$5.00.

W2136 LUMINOSA COMPACTA. Vivid scarlet-red blooms and light bronze foliage. 5"

1000 seeds 70c; 1/64 Oz. \$2.75; 1/32 Oz. \$5.00.

W2137 INDIAN MAID. Strikingly showy are the large salmon-scarlet blooms in contrast to the deep bronze foliage. 10"

1000 seeds 60c; 1/64 Oz. \$2.50; 1/32 Oz. \$4.50.

W2138 BALL RED. Brightest scarlet-red flowers; reddish green leaves. Very free flowering. 8"

1000 seeds 60c; 1/64 Oz. \$2.50; 1/32 Oz. \$4.50.

W2130 MIXED COLORS. A well balanced mixture of the above five varieties. 5"-10"

1000 seeds 60c; 1/64 Oz. \$2.50; 1/32 Oz. \$4.50.

BEGONIA BULBS

TUBEROUS ROOTED

Healthy, 2-inch and up bulbs of Giant Camellia-Flowered Tuberous Begonias, that sell so well as pot plants in the spring, are available in the following colors: white, pink, salmon, yellow, copper, red and a mixture of these six colors:

25 bulbs \$5.25; 50 bulbs \$10.00;
100 bulbs \$19.00 postpaid.

ANCHUSA

W2041 BLUE BIRD. Sprays of vivid indigo blue all summer. A good blue filler for cut flowers. 2'

1/4 Oz. 40c; Oz. \$1.00.

ASPARAGUS FERN

W2090 Plumosus Nanus

W2091 Sprengerii

EITHER OF ABOVE TWO: 100 seeds 30c;
1000 seeds \$2.50; 3000 seeds \$6.00.

BALSAM (Lady Slipper)

DOUBLE BUSH FLOWERED BALSAM

W2118 SCARLET. (3,000 seeds.) Plants are neat little mounds of bright green with camellia-like flowers borne above the foliage. 14"

Lg. Pkt. 30c; 1/4 Oz. 70c; Oz. \$2.25; 1/4 Lb. \$8.00.

W2115 MIXED COLORS.

Lg. Pkt. 25c; 1/4 Oz. 60c; Oz. \$2.00; 1/4 Lb. \$7.00.

CAMELLIA FLOWERED BALSAM

W2110 BRILLIANT MIXTURE. The old fashioned type with short stemmed double flowers in the axils of the leaves. Ours is a greatly improved strain with larger flowers. The mixture contains white, rose and scarlet. 14"

1/4 Oz. 35c; Oz. 95c.

BELLS OF IRELAND

W2160. This is an old everlasting flower which has had a revival because of its 2 to 3 ft. spikes of green, shell-shaped flowers. They provide interesting green cut flowers with gladiolus and other spiky flowers. The dried sprays sell well in the fall for the new popular "dried arrangements." We sell a lot of plants at our Garden Store in the spring. 3'

Lg. Pkt. 35c; 1/8 Oz. 60c; 1/4 Oz. \$1.00; Oz. \$3.00.

BELLIS (English Daisy)

(192,000 seeds.) Planted in July or August, English Daisies are handled like pansies and forget-me-not and are just as popular as these two for spring bedding plants. 6"

W2141 Monstroza White

W2142 Monstroza Rose

W2143 Monstroza Red

ANY ONE OF ABOVE COLORS: Lg. Pkt. 45c;
1/8 Oz. \$1.10; 1/4 Oz. \$2.00; Oz. \$6.00.

W2140 MIXED COLORS. Made up of the above three colors.

Lg. Pkt. 40c; 1/8 Oz. 85c; 1/4 Oz. \$1.75; Oz. \$5.50.

OUR GREENHOUSE BEGONIA TRIALS—From which we select only the outstanding varieties.

CALENDULA

(4,000 seeds.) Planted in late June to mature in September and October, Calendulas will escape injury from insect pests and develop into large, long stemmed stock. Earlier plantings may be protected with DDT or Malathion.

STANDARD VARIETIES

W2201 Orange King (Improved 18")

W2202 Lemon Queen 18"

EITHER OF ABOVE COLORS: 1/4 Oz. 35c;
Oz. \$1.00; 1/4 Lb. \$3.00.

PACIFIC BEAUTIES

The new Pacific Beauties produce uniformly large, well formed flowers with wide incurving petals, which cover the center and are often tipped with mahogany-red. Colors clearer than in older varieties; stems longer and straighter. Hold up well in the hot weather. 18"

W2221 Persimmon

W2223 Cream

W2222 Lemon

W2224 Apricot

ANY ONE OF ABOVE COLORS: 1/4 Oz. 40c;
Oz. \$1.25; 1/4 Lb. \$3.75.

W2220 PACIFIC BEAUTY MIXTURE.

1/4 Oz. 35c; Oz. \$1.00; 1/4 Lb. \$3.00.

AGERATUM, BLUE MINK—Larger flower heads and more uniform growth in this new one.

CASTOR BEAN (Ricinus)

W2500 TROPICAL MIXTURE. (30 seeds.) This tall growing, large-leaved plant is very popular planted with Cannas or used for a tall, quick growing screen. 10"-12'

Oz. 30c; 1/4 Lb. 90c.

CANDYTUFT

W2275 HYACINTH FLOWERED WHITE. (12,000 seeds.) Some florists find this a profitable cut-flower crop and certainly it is one of the best "fillers" for floral work.

1/4 Oz. 40c; Oz. \$1.25; 1/4 Lb. \$3.75.

W2270 UMBELLATA RAINBOW MIXTURE:

1/4 Oz. 25c; Oz. 75c; 1/4 Lb. \$2.25.

CARNATION (Annual)

W2290 GIANT DOUBLE CHAUBAUD, MIXED COLORS. (14,000 seeds.) If grown under cool conditions, blooms are often as large as greenhouse stock. Seed sown early will produce a continuous crop of summer cut flowers that are large, full double and sweet scented. The mixture contains reds, pinks, yellow and white. 18"

Lg. Pkt. 35c; 1/8 Oz. 50c; 1/4 Oz. 90c;
Oz. \$3.00; 1/4 Lb. \$10.00.

W2295 DWARF COMPACT TOM THUMB, MIXED

COLORS. New in 1956 was this dwarf, compact strain of Giant Chaubauds with 2 1/4" flowers. Because the plants grow erect and hold their flowers upright, they have "eye appeal" in the transplant stage. The mixture includes white, scarlet, crimson, rose and striped. 10"

Lg. Pkt. 45c; 1/8 Oz. \$1.00; 1/4 Oz. \$1.75;
Oz. \$5.50.

CENTAUREA (Bachelor Button)

(6,000 seeds.)

W2321 Snow Man

W2324 Red Boy

W2322 Pinkie

W2325 Blue Boy

ANY ONE OF ABOVE COLORS: 1/4 Oz. 30c;
Oz. 85c; 1/4 Lb. \$2.75.

W2320 MIXED COLORS.

1/4 Oz. 25c; Oz. 75c;
1/4 Lb. \$2.25.

W2340 SWEET SULTAN, MIXED COLORS.

1/4 Oz. 40c; Oz. \$1.25.

CHRYSANTHEMUM (Annual)

W2400 MERRY MIXTURE. (10,000 seeds.) These single daisy-like, long lasting cut flowers are easily grown. Our mixture contains combinations of yellow and mahogany, pink and purple all with chocolate brown centers. 20"

1/4 Oz. 45c; Oz. \$1.50.

CHRISTMAS CHERRY (Solanum)

W2430. Here's another oldtimer that is getting popular again for Christmas pot plants. Sow seed in February, set plants outdoors over summer. In Sept. pot them up for December fruiting.

Lg. Pkt. 50c; 1/4 Oz. \$1.25; Oz. \$3.75.

CELOSIA (Cockscomb)

Recently there has been a revival of interest in Celosia for bedding, pot plants and florists cut flowers. And now they are in great demand for "dried" arrangements. The improved varieties in both the Plumed and Crested types are responsible for this, no doubt.

FEATHERED OR PLUMED TYPES (43,000 seeds)

W2376 DWARF FIRE FEATHER. Uniformly dwarf, compact, many branched plants produce pyramids of rich, fiery crimson, silky plumes. 12"

Lg. Pkt. 30c; 1/4 Oz. 80c; Oz. \$2.50.

2377 DWARF GOLDEN FEATHER. Deep golden yellow plumes, of the same form as Fire Feather. Plants a little taller. 14"

Lg. Pkt. 30c; 1/4 Oz. 80c; Oz. \$2.50.

W2371 GOLDEN FLEECE. This new giant Plumed Cockscomb opens a soft yellow and changes to tawny yellow with age. The long clean stems make it an attractive addition to the summer cut flower list. May be used as an everlasting, too. 3'

Lg. Pkt. 35c; 1/8 Oz. 50c; 1/4 Oz. 90c; Oz. \$3.00.

W2372 PLUMOSA CRIMSON. An unbelievably beautiful bright red companion to Golden Fleece. The undertone is yellow rather than the usual magenta. Stunning with white gladiolus. 3'

Lg. Pkt. 30c; 1/4 Oz. 80c; Oz. \$2.50.

W2374 TALL PLUMED FOREST FIRE. Visitors to our Trial Grounds are most enthusiastic about this spectacular new plumed Cockscomb. The branching plants produce large heavy plumes of a dazzling orange-scarlet which is set off by the dark, bronze red foliage. You can sell plants of this with assurance. 30"

Lg. Pkt. 35c; 1/8 Oz. 50c; 1/4 Oz. 90c; Oz. \$3.00.

W2370 THOMPSONI MAGNIFICA, TALL MIXED. Graceful feathery plumes, 2½ to 3 ft. in many shades of reds and yellows.

Lg. Pkt. 25c; 1/4 Oz. 60c; Oz. \$2.00.

CRESTED OR CRISTATA TYPE (35,000 seeds)

W2386 TOREADOR. This All-America Winner for '55 is a semi-tall crested cockscomb, bright lustrous red with scarlet highlights and light green foliage. Typical plants produce a large center head with from 2 to 6 laterals even with it. Toreador has had a lot of publicity so there is a demand for plants from home gardeners and industrial concerns. 20"

Lg. Pkt. 35c; 1/4 Oz. 60c; Oz. \$2.00.

W2384 DWARF CRESTED EMPRESS. Large dark crimson flower heads and dark red leaves. Early flowering and quite uniformly 10 to 12 inches tall.

Lg. Pkt. 35c; 1/8 Oz. 50c; 1/4 Oz. 90c; Oz. \$3.00.

W2380 FINEST DWARF MIXED COLORS. Enormous combs in shades of yellow, orange, rose, and red on 8 to 10 in. plants.

Lg. Pkt. 35c; 1/8 Oz. \$1.25; 1/4 Oz. \$2.00; Oz. \$6.00.

CELOSIA EMPRESS—Valuable for its early and showy bloom.

CELOSIA, FOREST FIRE—Good for plant sales; good for dried arrangements.

CLEOME (Spider Plant)

W2416 PINK QUEEN. (22,000 seeds.) The large heads of unusual rosy pink flowers are making cleome increasingly popular for mass plantings in parks, etc. Blooms continuously from July until frost. 3½'

W2417 HELEN CAMPBELL. (14,200 seeds.) The white Cleome that is the best tall white annual available. 3½'

EITHER OF ABOVE COLORS: Lg. Pkt. 25c; 1/4 Oz. 60c; Oz. \$2.00.

COLEUS

W2511 HARRIS' EXTRA FANCY MIXTURE. (7,000 seeds in 1/16 ounce.) We grow the seed of this large leaved Coleus ourselves, constantly selecting for good color and form, and know it is far superior to any coleus on the market. The light and brilliant color combinations are unusually showy, all dull and unattractive ones having been taken out. The plants are broad and compact. Many growers who formerly raised Coleus from cuttings are finding that it is much more profitable to use seed of our Extra Fancy Mixture. 2'

Lg. Pkt. 50c; 1/64 Oz. 90c; 1/16 Oz. \$2.75; 1/8 Oz. \$5.00.

W2510 HARRIS' RAINBOW MIXTURE. This is the smaller leaved Coleus which we grow from stock, on which we have been making selections for years, to get brighter color and better plant form. We doubt that there is a better strain available. Lg. Pkt. 35c; 1/16 Oz. \$1.25; 1/4 Oz. \$2.50; Oz. \$8.00.

COSMOS

(5,500 seeds.)

W2466 Sensation, Purity White.

W2467 Sensation, Pinkie.

W2469 Radiance, Rosy red with a crimson center.

ANY ONE OF ABOVE THREE COLORS: Lg. Pkt. 20c; 1/4 Oz. 45c; Oz. \$1.50.

W2465 SENSATION MIXED COLORS: Lg. Pkt. 15c; 1/4 Oz. 40c; Oz. \$1.25; 1/4 Lb. \$3.75.

DAHLIAS

W2606 UNWIN'S DWARF HYBRIDS. (4,000 seeds.) Getting more popular every year with home gardeners and florists for bedding and cut flowers. Start seed in January for pot plants that command a good price. A March sowing of these annual dahlias will provide an abundance of long-stemmed double and semi-double cut flowers from August until October. Colors range from vivid reds, through soft pinks, yellow and orange to pale buff. 2'

Lg. Pkt. 35c; 1/8 Oz. 45c; 1/4 Oz. 75c; Oz. \$2.50.

My Pacific Giant delphinium raised from your seed are glorious to behold. Five feet high with very large florets and such clear soft colors. Galahad is superb.

Mrs. Geo. Barvenik—Hidden Well Farm—Bosmoseen, N. H.—7/11/55

DIANTHUS (Pinks)

W2675 HEDDEWEGI DOUBLE SALMON AND RED SHADES. The 2" double flowers of this new variety are salmon, salmon rose and red shades; colors usually lacking in most mixtures. Makes an unusually charming border. 12"

Lg. Pkt. 35c; 1/4 Oz. 60c; Oz. \$2.00.

W2670 HEDDEWEGI DOUBLE MIXED COLORS. (23,000 seeds.) Large double and semi-double fragrant blooms in a scale of colors ranging from rich crimson through delicate pink to white and interesting combinations of these colors. 15"

Lg. Pkt. 25c; 1/4 Oz. 45c; Oz. \$1.50.

W2680 HEDDEWEGI GAIETY. Large, single, deeply fringed flowers in brilliant shades of pink, white, red and maroon. Very popular edging plant. 15"

Lg. Pkt. 25c; 1/4 Oz. 45c; Oz. \$1.50.

DRACAENA (Spikes)

W2750 INDIVISA. (1500 seeds.) Still very popular for window box and urn plantings. 2'

Oz. 75c; 1/4 Lb. \$2.25.

DUSTY MILLER

W2355 CINERARIA MARITIMA, DIAMOND. (85,000 seeds.) Fine cut foliage; uniformly dwarf growth. The best Dusty Miller for edging, window boxes and combinations. 1'

1/4 Oz. 40c; Oz. \$1.25.

FORGET-ME-NOTS (Myosotis)

W3493 ALPESTRIS, ROYAL BLUE. (30,000 seeds.) The standard biennial type so popular for spring plant sales with pansies and bellis. 1'

Lg. Pkt. 30c; 1/8 Oz. 45c; 1/4 Oz. 80c; Oz. \$2.50.

W3495 VICTORIA, MIXED COLORS. The Victoria varieties are very compact and upright, admirably adapted for borders, baskets, combinations and bedding. 8"

Lg. Pkt. 35c; 1/8 Oz. 60c; 1/4 Oz. \$1.00; Oz. \$3.50.

W3496 Victoria White

W3498 Victoria Blue

W3497 Victoria Rose

ANY ONE OF ABOVE THREE COLORS: Lg. Pkt. 40c; 1/8 Oz. 65c; 1/4 Oz. \$1.10; Oz. \$3.75.

GAILLARDIA

W2900 DOUBLE ANNUAL, MIXED COLORS. (9,000 seeds.) Double flowers of orange, yellow, red, rose and many variegations of these colors. Long lasting and popular cut flower. 2'

Lg. Pkt. 20c; 1/4 Oz. 40c; Oz. \$1.25.

GOURDS

W2985 SMALL SORTS MIXED. (500 seeds.) A good mixture of the most easily grown and popular varieties. The fruits find a ready sale in the autumn. 12"

1/4 Oz. 30c; Oz. 80c; 1/4 Lb. \$2.50.

GYPSOPHILA (Baby's Breath)

W2992 COVENT GARDEN. (35,000 seeds.) No other variety has the large flowers and good keeping qualities of this one. Make successive sowings several weeks apart for a continuous supply. 18"

Oz. 35c; 1/4 Lb. \$1.00; Lb. \$2.75.

HELICHRYSUM (Strawflowers)

W3070 DOUBLE MIXED COLORS. (45,000 seeds.) Easily grown from seed sown outdoors in May. The dried flowers have always been popular in the fall and, with the recent revival of interest in arrangements of dried material, the demand has greatly increased. 3'

Lg. Pkt. 25c; 1/4 Oz. 40c; Oz. \$1.40.

HELIOTROPE

W3132 DWARF REGALE MIXED. (53,000 seeds.) It is not necessary to grow Heliotrope from cuttings. Our selected strain of the Dwarf Regale produces compact plants uniformly 2' tall with large fragrant heads of rich purple.

Lg. Pkt. 35c; 1/4 Oz. \$1.00; Oz. \$3.00.

IMPATIENS (Sultana or Patience)

W3180 DWARF HYBRIDS. (70,000 seeds.) An improved old time favorite growing only 10" high with very large florets. Ideal for spring pot plants or for summer bedding in partial shade. The mixture contains pink, rose, salmon and scarlet.

Lg. Pkt. 75c; 1/32 Oz. \$1.75; 1/16 Oz. \$3.25; 1/8 Oz. \$6.00; 1/4 Oz. \$10.00; Oz. \$33.00.

LARKSPUR

(9,000 seeds.) These new *Regal Larkspurs* again proved their superiority to all other strains planted in our Trial Grounds. They are outstanding because of their vigorous growth, very large florets, which are shatter-resistant, and the abundance of long-stemmed cut flower material they provide. Impressive, too, is their ability to produce good blooms for many weeks.

A sowing in late August or September produces a good early summer cut flower crop. 3'

W3261 White **W3266 Pink**
W3262 Rose **W3267 Lilac**
W3265 Dark Blue **W3268 Salmon Rose**

ANY ONE OF ABOVE COLORS: Lg. Pkt. 25c;
 1/4 Oz. 60c; Oz. \$1.60; 1/4 Lb. \$5.00.

W3260 REGAL VARIETY MIXTURE. Our own mixture of the above six colors.

Lg. Pkt. 20c; 1/4 Oz. 50c; Oz. \$1.50; 1/4 Lb. \$4.50.

LOBELIA

W3300 CRYSTAL PALACE COMPACTA. (910,000 seeds.) A very dwarf, compact edging plant with rich, dark blue flowers and dark, often bronzy, foliage. 5"

Lg. Pkt. 35c; 1/8 Oz. 50c; 1/4 Oz. 90c; Oz. \$3.25.

W3301 CAMBRIDGE BLUE. Light blue flowers above light green foliage. 5"

Lg. Pkt. 40c; 1/8 Oz. 55c; 1/4 Oz. \$1.00.

W3302 MRS. CLIBRAN (Bedding Queen). Very dwarf with medium green foliage; large deep blue flowers with white eye. 5"

Lg. Pkt. 40c; 1/8 Oz. 55c; 1/4 Oz. \$1.00.

MARIGOLDS

8 to 10 thousand seeds to the ounce.

MEDIUM AND TALL VARIETIES

Chrysanthemum-Flowered Marigolds

W3411 GOLDEN CROWN. A stand-out in our Marigold Trials this summer because of its earliness and profusion of bloom. Color is a clear canary yellow, lighter than Happiness. Flowers are the form of Mammoth Mum but not so large. Blooms in early August with Happiness and Honeycomb. 2'

Lg. Pkt. 25c; 1/4 Oz. 80c; Oz. \$2.50; 1/4 Lb. \$6.00.

W3438 HAPPINESS. A new, very early flowering marigold with bright golden yellow 3" blooms that completely cover the plants. Ideal for pot plants and for plant sales because they bloom while still very small. 16"

Lg. Pkt. 25c; 1/4 Oz. 75c; Oz. \$2.00; 1/4 Lb. \$6.00.

W3439 HONEYCOMB. Similar to Happiness in size, earliness and profusion of bloom but the color is vivid orange and the quilled petal arrangement gives a honeycomb effect. Odorless foliage. 18"

Lg. Pkt. 35c; 1/4 Oz. 85c; Oz. \$3.00; 1/4 Lb. \$9.50.

W3409 GLITTERS. The 3" shaggy chrysanthemum-flowered blooms of this All-America Winner are a bright canary yellow and abundantly produced on long strong stems. 3'

Lg. Pkt. 25c; 1/4 Oz. 75c; Oz. \$2.00; 1/4 Lb. \$6.00.

W3408 MAMMOTH MUM. This large chrysanthemum-flowered marigold can be depended upon to give an abundance of bloom earlier than other long stemmed varieties in its class. The 3 to 3 1/2" blooms are a soft yellow color. 3'

Lg. Pkt. 25c; 1/4 Oz. 80c; Oz. \$2.50; 1/4 Lb. \$6.00.

Carnation-Flowered Marigolds

W3428 REAL GOLD. Enormous flowers with petals gracefully arranged. Color soft orange shaded yellow. Blooms early. 3'

Lg. Pkt. 25c; 1/4 Oz. 50c; Oz. \$1.60; 1/4 Lb. \$5.00.

W3426 YELLOW SUPREME. A loose petalled, tall bright yellow which blooms early on long stems. 3'

Lg. Pkt. 25c; 1/4 Oz. 65c; Oz. \$1.75; 1/4 Lb. \$5.50.

W3425 ODORLESS CARNATION FLOWERED MIXTURE. For those people who object to the pungent Marigold odor, this mixture is made up of large carnation flowered varieties in shades of orange and yellow. 3'

Lg. Pkt. 25c; 1/4 Oz. 50c; Oz. \$1.60; 1/4 Lb. \$5.00.

We had a very fine display of pansies from your seed last spring, the best in over 50 years of gardening.

*Mrs. H. E. McIntyre—203 West Clark St.—
 Saginaw, Mich.—8/19/55*

African or Ball Type Marigolds

W3406 CRACKERJACK, MIXED COLORS. Here is a giant flowered marigold that blooms early; something we have not had before. Blooms are the African or Ball type 4" to 5" in diameter fully double and held well above the foliage of the sturdy, compact plants. Colors are primrose, yellow, gold and orange. If you are in an area where Sunset Giants have bloomed only sparsely before freezing weather, we urge you to grow Crackerjack. 3'

Lg. Pkt. 40c; 1/4 Oz. 85c; Oz. \$3.00; 1/4 Lb. \$9.50.

W3404 ORANGE ALL-DOUBLE. Large balls of loosely placed quilled petals in a dazzling orange. 3 1/2"

Lg. Pkt. 35c; 1/4 Oz. 80c; Oz. \$2.50.

W3405 LEMON ALL-DOUBLE. A rich lemon yellow which grows exactly like Orange All-Double. Both of these come almost 100% full double.

Lg. Pkt. 35c; 1/4 Oz. 80c; Oz. \$2.50.

W3400 ALL-DOUBLE MIXED COLORS. A mixture of the Lemon and Orange.

Lg. Pkt. 25c; 1/4 Oz. 75c; Oz. \$2.00.

W3407 SUNSET GIANTS. The largest of Marigolds, a large percentage 4" or more across. They vary in size and shape and range from creamy yellows through deeper yellows to shades of orange. 3 1/2"-4"

Lg. Pkt. 25c; 1/4 Oz. 55c; Oz. \$1.75; 1/4 Lb. \$5.25.

MARIGOLD, RUSTY RED—One of the finest of the new marigolds.

DWARF DOUBLE MARIGOLDS

W3417 PYGMY PRIMROSE. Here's another new very early flowering marigold with 1 1/2" full double flowers of lemon yellow with a mahogany spot at the base of the petals. Very free flowering and one of the earliest to bloom. 12"

Lg. Pkt. 45c; 1/8 Oz. 90c; 1/4 Oz. \$1.75;
 Oz. \$5.00; 1/4 Lb. \$17.50.

W3423 TANGERINE. Well named for the 2 in. double blooms are the color of that fruit. Bloom is abundant, early and continuous. Beautiful alone or in combination with other marigold colors. 18"

Lg. Pkt. 25c; 1/4 Oz. 50c; Oz. \$1.60; 1/4 Lb. \$5.00.

W3412 LEMON DROP. A new dwarf double French with larger flowers (1 1/2") than Yellow Pygmy which it will eventually replace. Particularly good as a spring plant item since it blooms early and the first blooms are fully double. 12"

Lg. Pkt. 25c; 1/4 Oz. 50c; Oz. \$1.60; 1/4 Lb. \$5.00.

W3414 YELLOW PYGMY. Small double yellow flowers on very compact dwarf plants. Excellent for early pot plants. 12"

W3416 SPRY. Very early flowering double golden yellow and red. Especially good for early pots. 15"

W3418 BUTTERBALL. Harmony type with both the crested center and guard petals a clear golden yellow very lightly tipped with red. 12"

W3422 HARMONY. Still one of the most popular. Golden center with red guard petals. 20"

W3432 SUNKIST. Masses of rich orange flowers an inch in diameter. Uniformly dwarf, compact. 12"

ANY ONE OF ABOVE FIVE VARIETIES: Lg. Pkt. 25c;
 1/4 Oz. 50c; Oz. \$1.60; 1/4 Lb. \$5.00.

W3410 HARRIS' DWARF DOUBLE VARIETY MIXTURE. Made up of equal parts of four fine dwarf double varieties: Spry, Butterball, Sunkist, and Lemon Drop. 12"

Lg. Pkt. 20c; 1/4 Oz. 45c; Oz. \$1.50; 1/4 Lb. \$4.50.

MARIGOLD, CRACKERJACK—Really are early flowering Sunset Giants.

W3424 RUSTY RED. This new variety has 2" double blooms of rich mahogany-red highlighted with a penciling of yellow on the margins of petals. Stems are long enough for cutting. Most effective when used in combination with bright yellows and orange. 18"

Lg. Pkt. 25c; 1/4 Oz. 75c; Oz. \$2.00; 1/4 Lb. \$6.00.

W3415 COLOR MAGIC. Full double 1 1/2" flowers in rich shades of yellow, orange and red are irregularly striped and mottled. Plants make uniform compact growth and a fine display of color. 15"-18"

Lg. Pkt. 25c; 1/4 Oz. 50c; Oz. \$1.60; 1/4 Lb. \$5.00.

W3401 CUPID ORANGE. Compact plants, less than a foot high have rich green odorless foliage against which are nestled 2" to 2 1/2" bright orange flowers of the incurved, chrysanthemum type. 10"

W3402 CUPID YELLOW. A yellow companion to Cupid Orange. Each year sees the popularity of this new Marigold increasing. Your plant customers will be asking for it. 10"

EITHER ONE OF THE ABOVE CUPIDS: Lg. Pkt. 45c;
 1/8 Oz. 90c; 1/4 Oz. \$1.75; Oz. \$5.00.

W3403 CUPID MIXED. This mixture contains gold, yellow, lemon yellow and orange which makes a very striking border. 10"

Lg. Pkt. 40c; 1/8 Oz. 80c; 1/4 Oz. \$1.50; Oz. \$4.50.

SINGLE MARIGOLDS

W3436 SUNNY. A fine addition to the single French marigold with its clear bright yellow 2" flowers with delicate cerise markings at the base of petals. 18"

Lg. Pkt. 25c; 1/4 Oz. 45c; Oz. \$1.50; 1/4 Lb. \$4.75.

W3433 FLASH. These single flowers 1 1/2" across are a bright combination of colors from vivid red through burnished copper to bright yellow. Plants uniformly compact. Blooms in 8 weeks from seed. 20"

Lg. Pkt. 20c; 1/4 Oz. 40c; Oz. \$1.25; 1/4 Lb. \$4.00.

W3434 NAUGHTY MARIETTA. Single 2" flowers are a warm yellow with a mahogany spot at the base of petals. Unsurpassed for bedding or cut flowers. 18"

Lg. Pkt. 25c; 1/4 Oz. 45c; Oz. \$1.50; 1/4 Lb. \$4.75.

W3421 LITTLE GIANT. (Scotch Marigold or Tagetes signata pumila.) An improved strain with plants which do not split apart. Small single golden yellow flowers and finely cut foliage. 12"

Lg. Pkt. 25c; 1/4 Oz. 65c; Oz. \$1.75; 1/4 Lb. \$5.50.

MARIGOLD, PYGMY PRIMROSE—Very early; fully double; free flowering; attractive color.

PHLOX TWINKLE, DWARF STAR MIXED — First starred phlox with a wide range of colors.

PHLOX

17,000 seeds to the ounce.

DWARF—8" - 10"

W3866 TWINKLE, DWARF STAR MIXED. This All-America Winner for 1957 is a greatly improved strain with the range of colors found in other phlox but never before available in the starred varieties. Plants are compact carrying the bloom well above the foliage. Visitors to our Test Gardens were enthusiastic about it. Better have some plants available this spring. 6"-7"

Lg. Pkt. 50c; 1/8 Oz. \$1.50; 1/4 Oz. \$2.50; Oz. \$8.00.

W3865 GLOBE MIXED COLORS. An All-America Winner in 1952, Globe is a new and different dwarf phlox. The plants branch freely from the base, resulting in a compact mound or globe shape, 6" to 8" high and 8" to 10" across. There are not as many colors as in Beauty Phlox, but the white, pinks, reds and violet, some self color, some with darker eye, blend into a very pleasing pattern. Particularly valuable because the vigorous seedlings transplant so readily. 8"

Lg. Pkt. 40c; 1/8 Oz. \$1.25; 1/4 Oz. \$2.10; Oz. \$6.00; 1/4 Lb. \$20.00.

W3855 DWARF BEAUTY, MIXED COLORS. A new very early and profuse blooming variety with large individual florets and full flower heads making it most desirable for pot plants. Transplants more readily than older varieties so admirably adapted for spring plant sales. Contains a wide range of colors: white, pale pink, rose, salmon, scarlet, bright blue, lavender, purple, and buff. 10"

Lg. Pkt. 40c; 1/8 Oz. 65c; 1/4 Oz. \$1.10; Oz. \$3.50; 1/4 Lb. \$12.00.

W3850 DWARF MIXED COLORS. Just as showy as the grandiflora. Our mixture contains a wide range of very bright showy colors that blend beautifully. 10"

Lg. Pkt. 35c; 1/8 Oz. 60c; 1/4 Oz. \$1.00; Oz. \$3.00; 1/4 Lb. \$9.50.

GRANDIFLORA—15" - 18"

W3860 MIXED COLORS. Increasing in popularity each year so there is a good demand for plants of this showy annual. Avoid transplanting by sowing seed directly into pots or plant bands. Our mixture contains white, rose, scarlet, crimson, lavender and soft buff; many with white or dark centers. 15"

Lg. Pkt. 25c; 1/4 Oz. 60c; Oz. \$2.00.

Your catalog does not do justice to your Multiflora Sweet Peas. The blossoms are gorgeous, have intense coloring and are so fragrant. Twice a week I cut a 2- or 3-dollar bouquet (from \$1.00 investment). Guests are amazed when I tell them the Sweet Peas come from our garden and usually reply, "Oh thought they came from the florists."

Helen Martin—6799 Havens Road—Blacklick, Ohio—6/27/55

MORNING GLORY

W3473 BLUE STAR. (6 to 7 hundred seeds.) Very large blooms of sky blue color which is accentuated by five deeper blue mid-ribs which form a star. All-America winner in '48. Plants in 2 1/4's will sell well. 12"

W3475 HEAVENLY BLUE. Grow some of these in our Bird Plant Bands. The plants are in good demand and bring a good price. We believe we have the finest strain available. 12"

W3474 PEARLY GATES. This pure white, large flowered variety makes vigorous growth and blooms early and profusely. A perfect companion for Heavenly Blue. 12"

ANY ONE OF ABOVE THREE COLORS:

Lg. Pkt. 25c; 1/4 Oz. 35c; Oz. \$1.00; 1/4 Lb. \$2.50.

PANSIES

21,000 seeds to the ounce.

Ask for our leaflet on Pansy growing.

W3705 SWISS GIANTS. Magnificent Mixture. In tests every year in our gardens this strain of mammoth-flowered pansies has proved to be the best. The color range includes the dark browns and reds as well as rose, cream, yellow, gold, blue, violet, purple and bicolors. The choice of pansy enthusiasts. 8"

Lg. Pkt. 45c; 1/8 Oz. \$1.60; 1/4 Oz. \$2.75; Oz. \$9.50; 1/4 Lb. \$33.00; Lb. \$115.00.

W3720 JUMBO, MIXED COLORS. These are pansies with blooms often 5" across and of fine form and substance. The introducer finds them earlier than other pansies. We found them resistant to summer heat in our trials. The mixture contains many new and different colors: pastel orchid, apricots, yellows, blues, brass and copper hues, purples and reds, and many multi-color combinations and selfs. 8"

Lg. Pkt. 45c; 1/8 Oz. \$1.50; 1/4 Oz. \$2.60; Oz. \$8.00; 1/4 Lb. \$27.00.

W3704 DWARF SWISS GIANTS, MIXED COLORS. A dwarf strain of Swiss Giants having the immense size and all the colors of the finest Swiss Giants. The dwarf habit of growth makes them especially desirable for spring plant sales. 7"

Lg. Pkt. 45c; 1/8 Oz. \$1.50; 1/4 Oz. \$2.60; Oz. \$8.00; 1/4 Lb. \$27.00; Lb. \$90.00.

W3703 MAPLELEAF GIANTS, MIXED COLORS. These are among the largest flowered of any pansies. Stems are long, the plants large, the colors rich and varied. 10"

Lg. Pkt. 50c; 1/8 Oz. \$1.50; 1/4 Oz. \$2.60; Oz. \$8.00.

W3700 EARLY MARKET, MIXED COLORS. An excellent low priced mixture. The low compact plants start blooming very early producing an abundance of flowers, held well above the foliage, in a pleasing range of bright colors. 8"

Lg. Pkt. 35c; 1/8 Oz. 75c; 1/4 Oz. \$1.25; Oz. \$4.00; 1/4 Lb. \$14.00.

GIANT PANSIES SEPARATE COLORS

W3721 JUMBO, MOON MOTH. An immense white with dark blue penciling radiating from the center and often a soft yellow blotch on the lower petal.

W3722 JUMBO, PAY DIRT. The largest golden yellow available, the blooms having dark rays or tiny dark faces.

W3723 JUMBO, BEACONSFIELD. Upper petals orchid-lavender, lower deep violet.

ANY ONE OF ABOVE THREE COLORS: Lg. Pkt. 50c; 1/8 Oz. \$1.85; 1/4 Oz. \$2.90; Oz. \$10.00.

W3735 WHITE SWISS. Large creamy white. Compact plants bloom continuously through the summer. 8"

W3736 SWISS ROSE SHADES. Fills a long felt need for the "pink" pansies your customers always ask for.

W3737 CORONATION GOLD. Rich golden yellow so popular for bedding and edging.

W3738 SWISS BLUE. Large dark blue that combines beautifully with the other colors.

W3739 SWISS RED. Rich mahogany red with just enough variation to give them "class."

ANY ONE OF THE ABOVE FIVE COLORS: Lg. Pkt. 45c; 1/8 Oz. \$1.60; 1/4 Oz. \$2.75; Oz. \$9.00.

VIOLAS

W3760 MIXED COLORS. (25,000 seeds.) Because they produce such an abundance of bloom over so long a season, Violas are among the most popular bedding plants. We make our mixture from the following colors: white, apricot, maroon, dark blue, yellow. 6"

Lg. Pkt. 30c; 1/8 Oz. 75c; 1/4 Oz. \$1.25; Oz. \$4.00.

NASTURTIUM

W3610 GLEAM HYBRIDS MIXED COLORS. The popular cut-flower variety with large double fragrant blooms. The mixture contains yellow, orange, scarlet and salmon. 15"

Oz. 50c; 1/4 Lb. \$1.50; Lb. \$4.75.

W3625 DWARF DOUBLE GEM MIXED COLORS. The Gems make dwarf compact growth so are low mounds of bright color. Colors include scarlet, orange, rose and mahogany. 12"

Oz. 50c; 1/4 Lb. \$1.50; Lb. \$4.75.

NICOTIANA (Flowering Tobacco)

W3675 SENSATION DAYLIGHT MIXED. (239,000 seeds.) Two outstanding qualities recommend this new Nicotiana: the plants grow only 1 1/2 to 2 ft. high and the blooms remain open in the bright sunlight. The colors are unusually attractive and include bright scarlet, crimson, rose, mahogany, lavender, yellow, coral and white. 20"

Lg. Pkt. 25c; 1/4 Oz. 60c; Oz. \$2.00.

W3671 AFFINIS WHITE. The old fragrant white "tobacco plant" that is always in demand. 3"

Lg. Pkt. 20c; 1/4 Oz. 30c; Oz. \$1.00.

NIEREMBERGIA (Cupflower)

W3664 PURPLE ROBE. (5000 seeds in 1/32 ounce.) The new deep lavender cupflower so popular for edgings. Uniformly dwarf and compact. Seedlings are more vigorous than plants from cuttings. 6"

Lg. Pkt. 40c; 1/32 Oz. \$1.25; 1/16 Oz. \$2.00.

PORTULACA

W3875 EXTRA CHOICE DOUBLE MIXED. (300,000 seeds.) Larger and more double flowers, a wider range of colors and increased vigor in plant growth mark this as a real improvement in double portulacas. Colors in the mixture include white, shell pink, rose, salmon, scarlet, bronze and yellow.

Lg. Pkt. 40c; 1/8 Oz. 65c; 1/4 Oz. \$1.10; Oz. \$3.50; 1/4 Lb. \$12.00.

SALPIGLOSSIS

W4500 LARGE FLOWERED MIXED. (105,000 seeds.) For cut flowers grown indoors or out there is no flower of richer color. 2 1/2"

Lg. Pkt. 20c; 1/4 Oz. 45c; Oz. \$1.50.

SCABIOSA

W4665 IMPERIAL GIANTS MIXED. (4000 seeds.) Compared with older varieties, plants of the Imperial Giants are much sturdier, stand up well in hot weather, and bloom until freezing weather. The flowers are larger and do not shatter when cut; colors are richer and more varied and stems are longer. Our mixture contains white, pink, salmon, scarlet, deep red, lavender and blue. 2 1/2"

Lg. Pkt. 25c; 1/4 Oz. 45c; Oz. \$1.50; 1/4 Lb. \$4.75.

SCHIZANTHUS

W4635 DR. BADGER'S IMPROVED HYBRIDS. (43,000 seeds.) Sown in late winter these make beautiful specimens in 5 in. pots for Mother's Day. Rightly called "Poor Man's Orchid" since they resemble spray orchids. Of medium height, this is the finest variety for pots, bouquets and corsages. 18"

Lg. Pkt. 35c; 1/8 Oz. 65c; 1/4 Oz. \$1.25; Oz. \$4.00.

SNOW-ON-THE-MOUNTAIN

W5192 EUPHORBIA VARIEGATA. (2500 seeds.) The green and white foliage of this old time favorite provides a perfect foil for bright flowers such as Salvia. 2 1/2"

1/4 Oz. 45c; Oz. \$1.25.

SWISS GIANT PANSIES—Ours can't be beaten for size and color range.

HARRIS' BONFIRE—Best by far.

SALVIA

7,500 seeds to the ounce.

W4600 HARRIS' BONFIRE. With florists, the name of Harris has become synonymous with salvia of superior quality and high germination. Harris' Bonfire, after years of selection and testing, has resulted in large, long spikes with the florets placed close together and the growth is as uniform as though it had been sheared. The color is a brighter shade than any other variety, and the germination higher. If you want the best, plant Harris' Bonfire. 3'

Lg. Pkt. 35c; 1/8 Oz. 75c; 1/4 Oz. \$1.35;
Oz. \$4.75; 1/4 Lb. \$17.00; Lb. \$50.00.

W4609 AMERICA (Globe of Fire). A popular mid-season variety which makes uniform growth and well filled flower heads. Its blooming season is about the same as Harbinger but it is not so tall so is preferred by those who want later bloom on shorter plants. 20"

Lg. Pkt. 35c; 1/8 Oz. 65c; 1/4 Oz. \$1.10; Oz. \$3.50.

4607 EXTRA DWARF SCARLET PYGMY (Fireball or Scarlet Piccolo). A new, very compact and well branched variety blooming as early as St. John's Fire but 2" to 4" shorter. Especially good for early pots and flats. 8"-10"

Lg. Pkt. \$1.00; 1/8 Oz. \$2.50; 1/4 Oz. \$4.00;
Oz. \$14.00.

W4605 DWARF HARBINGER. (Firebrand) This dwarf and very dependable early flowering salvia is much in demand for spring pot and summer bedding plants. Leaves are a deep bluish green. 2'

Lg. Pkt. 35c; 1/8 Oz. \$1.10; 1/4 Oz. \$1.85;
Oz. \$5.75.

W4604 ST. JOHN'S FIRE. This variety has all the desirable qualities of a dwarf bedding plant. In full bloom in August, remaining in perfect condition until frost. Very uniform, compact and upright. 1"

Lg. Pkt. 75c; 1/8 Oz. \$1.50; 1/4 Oz. \$2.75;
Oz. \$8.50; 1/4 Lb. \$30.00.

W4603 FARINACEA, BLUE BEDDER. Ideal for cutting, the 3' to 3 1/2' plants produce an abundance of graceful sprays of soft blue. As home gardeners come to know this blue flower, the demand for plants has increased at our Garden Store.

Lg. Pkt. 40c; 1/8 Oz. 85c; 1/4 Oz. \$1.50;
Oz. \$4.50.

STATICE

(245 seed clusters.) The most popular Everlasting for winter bouquets as well as a very useful summer cut flower. Seed should be sown early under glass. Likes a warm light soil. 2 1/2'

W6171 Sinuata White W6175 Sinuata Kampf's Blue
W6172 Sinuata Superb Rose W6174 Bonduelli Yellow

ANY ONE OF ABOVE FOUR COLORS: 1/4 Oz. 30c;
Oz. 85c; 1/4 Lb. \$2.75.

W6170 SINUATA MIXED COLORS.

1/4 Oz. 25c; Oz. 75c; 1/4 Lb. \$2.50.

SUNFLOWER

W6195 SUNGOLD. (650 seeds.) A sunflower that grows only 4 1/2 to 5 ft. high, but produces large, 100% double flowers in great profusion. Attracts attention wherever it is grown. 5'

1/4 Oz. 30c; Oz. 85c.

SNAPDRAGONS

200,000 seeds to the ounce.

HARRIS' COLOSSALS

Each year we expect that a new snapdragon will come along that will out-perform our Colossals here in the Northeast. But again this last summer they produced better bloom earlier and more continuously in our Trial Grounds than any others available to date. The husky plants send up many long stemmed flower spikes, foliage is a glossy deep green, colors are clear and attractive, florets are large and beautifully formed. Altho they are not the so-called Rust Resistant type, rust has been infrequent in any of our plantings. 2 1/2"

W5031 White
W5032 Pink Shades
W5033 Orchid

W5034 Yellow
W5035 Crimson
W5036 Orange Shades

ANY ONE OF ABOVE COLORS: Lg. Pkt. 40c;
1/8 Oz. 90c; 1/4 Oz. \$1.75; Oz. \$5.00.

W5030 MIXED COLORS. Lg. Pkt. 35c; 1/8 Oz. 80c;
1/4 Oz. \$1.50; Oz. \$4.50; 1/4 Lb. \$15.00.

TALL GIANT-FLOWERED

W5039 VELVET GIANT. This All-America winner in 1947 stands out in any planting because of its tall, sturdy spikes and rich green foliage. The large, well formed florets of vivid crimson with a gold undertone are closely spaced on tall stems. 2 1/2' (Not "rust resistant.")

Lg. Pkt. 40c; 1/8 Oz. 90c; 1/4 Oz. \$1.75; Oz. \$5.00.

W5040 TETRAPLOID MIXED COLORS. Described by the introducer as stronger and huskier than varieties with the normal number of chromosomes. Flowers large and often ruffled; deep green foliage; wide range of colors. 2' (Not "rust-resistant")

Lg. Pkt. 40c; 1/8 Oz. \$1.25; 1/4 Oz. \$2.25;
Oz. \$6.00; 1/4 Lb. \$21.00.

HALF-DWARF SNAPDRAGONS

W5115 NEW COLOR MIXTURE. Growing 15 to 18 inches tall, these are admirably suited to border and mass plantings. Made up of bright colors, they are showy from early summer until late fall. 15" (Not "rust resistant.")

Lg. Pkt. 30c; 1/8 Oz. 50c; 1/4 Oz. 90c; Oz. \$2.75.

CALIFORNIA GIANT SNAPDRAGONS

W5050 VARIETY MIXTURE. For areas where rust is a serious problem, these California grown, rust resistant "snaps" are advisable. Stems are 2 to 2 1/2 feet long, florets are good size and the plants produce abundant bloom. Seed should be sown in early February for spring plant sales. (Rust Resistant)

Lg. Pkt. 30c; 1/8 Oz. 75c; 1/4 Oz. \$1.25; Oz. \$4.00.

SWEET PEAS

340 seeds to the ounce.

NEW MULTIFLORA SWEET PEAS

W7800 MIXED COLORS. Destined to replace the standard strains of sweet peas are these new Multifloras which bloom between the Cuthbertson and Early Flowering. They make unusually vigorous plant growth with stiff flower stems 14" to 16" long. Starting with four or five flowers to a stem, those which follow have six or seven more flowers on them. Fragrance has not been lost, but rather increased, in this new strain. Our mixture contains all the colors found in sweet peas from white, through shades of pink and salmon, cerise, lavender, purple and red.

1/2 Oz. 85c; Oz. \$1.50; 1/4 Lb. \$5.00.

EARLY FLOWERING SWEET PEAS

W7050 MIXED COLORS. For areas where sweet peas are difficult to grow, these are early enough to flower outdoors before the summer heat. Our mixture contains white, shades of pink, orange, cerise, scarlet, lavender and deep blue.

Oz. 60c; 1/4 Lb. \$1.80; Lb. \$6.00.

SPENCER OR SUMMER FLOWERING

W7675 SPECIAL VARIETY MIXTURE. The standard sweet peas for outdoor growing with colors not available in other varieties. The new Multifloras are much more vigorous so are replacing the Spencers in areas where sweet peas can not stand up to the numerous troubles which seem to beset them. Our mixture is made from ten separate colors: white, cream, blush pink, rose, salmon, crimson, scarlet, orange, lavender and deep blue.

Oz. 40c; 1/4 Lb. \$1.25; Lb. \$3.75.

SPRING FLOWERING (Cuthbertson)

W7110 MIXED COLORS. In areas where sweet peas are readily grown this new strain produces an abundance of large fragrant blossoms on extra long stems. For an indoor crop they will bloom late into the spring. Our mixture is made from the following colors: white, cream, pink, lavender, blue, scarlet and crimson.

Oz. 40c; 1/4 Lb. \$1.35; Lb. \$4.50.

STOCKS, PARK TEN WEEKS—Can be grown 100% double by transplanting only the light green seedlings.

STOCKS

W6030 PARK, TEN WEEKS MIXED COLORS. These are the same type as the regular Ten Weeks but can be grown 100% double by transplanting only the light green seedlings and discarding the dark ones which produce single flowers. This difference in leaf color is more pronounced under cool growing conditions. Our mixture contains white, lavender, purple, flesh pink, rose and blood-red. 15" to 18"

Lg. Pkt. 45c; 1/8 Oz. \$1.00; 1/4 Oz. \$1.75;
Oz. \$6.00.

HARRIS' TEN WEEKS STOCKS

W6020 VARIETY MIXTURE. (18,000 seeds.) Usually thought of as bedding plants, but grown also as pot plants for spring. The soft colors, spicy fragrance and neat compact growth adapt them admirably to this use. Blooms 100% from seed sown outdoors in May. 15"

Lg. Pkt. 25c; 1/4 Oz. 70c; Oz. \$2.25; 1/4 Lb. \$7.50.

GRO-TAINERS

New this year and by far the best "flat," for growing a dozen plants, that we have found to date.

See Inside Back Cover.

HARRIS' COLOSSALS—Best for plants sales and cut-flowers outdoors.

SUPER CACTUS FLOWERED—A great improvement over other Cactus Flowered Zinnias.

THUNBERGIA (Clock Vine)

W7940 ALATA. (1,200 seeds.) This little vine having orange, yellow and creamy white flowers, some with black centers, has always been popular for urns and window boxes. 18"
1/8 Oz. 35c; 1/4 Oz. 65c; Oz. \$2.00.

TITHONIA

W7920 TORCH. (3000 seeds.) Long-stemmed brilliant orange-scarlet single blooms are produced in late August against large, gray-green velvety leaves. Plants grow 3 1/2' to 4' tall and can be used as an attractive temporary hedge.

Lg. Pkt. 40c; 1/8 Oz. \$1.00; 1/4 Oz. \$1.50; Oz. \$4.50.

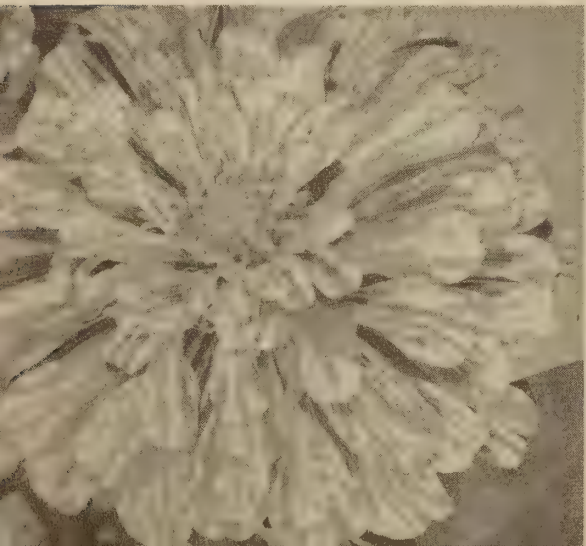

TORENIA (Wishbone Flower)

W7955 FOURNIERI COMPACTA. (375,000 seeds.) We have an even, compact strain of this charming bedding and edging plant. Stands up better than pansies in hot weather. The inch long flowers have a deep lavender standard and rich purple lip with a bright yellow blotch. 10"
1/32 Oz. 40c; 1/16 Oz. 70c; 1/8 Oz. \$1.25.

W8159 ORTHO POLKA MIXED COLORS. A new "glorified" Peppermint Stick that is going to have so much publicity that your plant customers will be asking for it. The 3 1/2 to 4 inch double blooms are of the Giant Flowered rather than the Pumila type. The colors are extremely varied and exotic. There are combinations of pink and white, rose and white, red and white, scarlet and yellow, red and orange; some striped, some flecked. They make vigorous, well branched growth. 3'

Lg. Pkt. 30c; 1/8 Oz. 45c; 1/4 Oz. 75c; Oz. \$2.50; 1/4 Lb. \$8.50; Lb. \$30.00.

ORTHO POLKA ZINNIA—New giant flowered with exciting color combinations.

VERBENAS

MAMMOTH FLOWERING

(12,000 seeds.) Home gardeners will buy all the plants of verbenas you can grow. Since seed is slow to germinate, sow it the last of February or early March in 65°-70° soil. 10"

W8003 Salmon Pink **W8007 Vivid. Scarlet**
W8005 Royale. Purple **W8008 Snowstorm**
W8006 Royal Blue

ANY ONE OF ABOVE COLORS: Lg. Pkt. 35c;
1/8 Oz. 55c; 1/4 Oz. 95c; Oz. \$3.15.

W8015 VARIETY MIXTURE. Lg. Pkt. 25c; 1/8 Oz. 50c;
1/4 Oz. 90c; Oz. \$2.85;
1/4 Lb. \$8.50.

W8000 HYBRIDA GRANDIFLORA COMPACTA MIXED COLORS. About two weeks earlier than the Mammoth Flowering and with more compact manner of growth, is this new strain. Particularly well adapted for pots, combinations, window boxes and narrow borders. The mixture contains a wide range of beautiful colors. 10"

Lg. Pkt. 40c; 1/8 Oz. 75c; 1/4 Oz. \$1.25;
Oz. \$4.00; 1/4 Lb. \$14.00.

VINCA ROSEA (Periwinkle)

W8050 MIXED COLORS. (21,000 seeds.) A "fool-proof" annual that thrives in sun or shade, wet or dry weather. Grow some plants for your "good gardener" trade, but caution against planting it out until cold nights are past. We saw it used effectively in window boxes this summer. Our mixture is made from separate colors—white, white with pink center, rose, and pink with darker center. 18"

Lg. Pkt. 25c; 1/4 Oz. 45c; Oz. \$1.75.

ZINNIAS

Giant Zinnias 3000 seeds to the ounce.

GIANT CACTUS FLOWERED

These new giant zinnias with blooms often 6" across and 2"-3" deep have attractively curled and twisted petals, somewhat similar to the old Fantasy Zinnias. The plants are tall and vigorous and do best if given plenty of space. Plants sell very well at our Garden Store. 2 1/2'

W8172 ICE CREAM. A new and very desirable color in the Cactus Flowered group. Soft, creamy yellow 4" to 4 1/2" blooms which accentuate the other zinnia colors and are useful as a filler with other garden flowers. 2 1/2'

Lg. Pkt. 35c; 1/8 Oz. 55c; 1/4 Oz. \$1.00;
Oz. \$3.00; 1/4 Lb. \$10.00.

W8176 BLAZE. This All-America Winner for '54 is described by the introducer as "opening Mandarin-red which softens to orange-scarlet." With us it is a deep, warm orange which is a most showy but pleasing color. 2 1/2'

Lg. Pkt. 30c; 1/8 Oz. 45c; 1/4 Oz. 75c;
Oz. \$2.50; 1/4 Lb. \$8.50.

W8171 Eskimo. Large white

W8173 Sunny Boy. Clear canary yellow

W8174 Riverside Beauty. Warm luminous azalea-pink

W8175 Floradale Scarlet. Clear scarlet-red

ANY ONE OF ABOVE FOUR COLORS: Lg. Pkt. 30c;
1/4 Oz. 65c; Oz. \$2.00.

W8180 SUPER CACTUS FLOWERED, MIXED COLORS. This new mixture was definitely superior to the original Cactus Flowered Mixture in our Trial Grounds this summer. Flowers are uniformly larger (5" or more) more double and produced more abundantly. Colors are pink, salmon, violet, orange, yellow, white, reds; in fact, a number of colors not found in the original mixture. 3'

Lg. Pkt. 30c; 1/8 Oz. 45c; 1/4 Oz. 75c;
Oz. \$2.50; 1/4 Lb. \$8.50; Lb. \$30.00.

W8170 CACTUS FLOWERED, MIXED COLORS. This is a most attractive mixture of colors which are, for the most part, pastel shades of orange, yellow, pink, lavender, rose with a little scarlet. Long stemmed blooms are as large or larger than the named varieties, the plants equally vigorous. 3'

Lg. Pkt. 30c; 1/4 Oz. 60c; Oz. \$1.75;
1/4 Lb. \$5.75.

MEXICAN ZINNIAS

W8275 PERSIAN CARPET. (22,000 seeds.) All-America Winner for 1952 producing a continuous display of small double blooms in a range of solid and variegated colors: cream, yellow, orange, copper, bronze, mahogany and red. 18"

Lg. Pkt. 35c; 1/8 Oz. 55c; 1/4 Oz. \$1.00; Oz. \$3.00.

GIANT-FLOWERED ZINNIAS

Each year we make large plantings, in our Trial Grounds, of the many Giant and Dahlia Flowered Zinnias available today. We believe that we are in a position, then, to say that the following varieties are the finest obtainable in the various colors. 3'

W8131 Purity. White

W8137 Miss Willmott. Soft Pink

W8146 Violet Queen. Dark Purple

W8147 Cherry Queen. Rose Scarlet

W8149 Illumination. Bright Pink

W8151 Orange King. Orange

W8152 Oriole. Orange and Gold

W8153 Exquisite. Bright Rose, deeper center

W8154 Canary Bird. Yellow

W8155 Crimson Monarch

W8156 Golden Dawn. Deep Yellow

W8157 Will Rogers. Scarlet

ANY ONE OF THE ABOVE COLORS: Lg. Pkt. 25c;
1/4 Oz. 50c; Oz. \$1.35; 1/4 Lb. \$4.00.

W8120 MAGNIFICENT VARIETY MIXTURE. We make this mixture ourselves using seed of all of the varieties described above.

Lg. Pkt. 20c; 1/4 Oz. 45c; Oz. \$1.25;
1/4 Lb. \$3.50; Lb. \$12.00.

W8150 GOLD MEDAL MIXTURE. A good quality lower priced mixture containing a wide range of colors and shades grown as a mixture. 3'

Lg. Pkt. 15c; 1/4 Oz. 40c; Oz. \$1.15;
1/4 Lb. \$3.50; Lb. \$10.50.

W8160 GIANT TWO TONE LIGHT COLOR MIXTURE. Enormous flowers in pastel shades of rose, yellows, buff, salmons, etc. The petals shade to yellow and gold at the base giving the flowers a two tone effect. One of the most popular varieties in the Giant Flowering class especially with people who do not like the "strong" zinnia colors. 3'

Lg. Pkt. 25c; 1/4 Oz. 55c; Oz. \$1.50; 1/4 Lb. \$4.50.

CUT-&COME-AGAIN (Pumila)

(4200 seeds.) The soft colors and medium size of the Pumilas make them most adaptable for florists' use and for home flower arrangements. Many home gardeners prefer them to Pompons and Giants which accounts for the demand for well grown plants. Flowers average 2" in diameter as compared with the 1 to 1 1/4" of the Pompons. 2'

W8262 SALMON ROSE. The best and most popular color in this type.

W8260 SUNSHINE TINTS. A mixture of many new and unusual pastel shades not yet available in separate colors. Be sure to include them in your zinnia plantings.

EITHER OF ABOVE TWO COLORS: Lg. Pkt. 25c;
1/4 Oz. 55c; Oz. \$1.50; 1/4 Lb. \$4.50; Lb. \$13.50.

W8266 PEPPERMINT STICK. While some of the blooms are solid colors, 60 to 70% are striped. Colors are white, yellow, orange, pink, red and purple. The darker are striped and mottled with white; the lighter with darker colors. Same size and habit of growth as the other Pumilas. 2'

Lg. Pkt. 25c; 1/4 Oz. 55c; Oz. \$1.50; 1/4 Lb. \$4.50.

POMPON ZINNIAS (Lilliput)

(4600 seeds.) The flowers are small, full double and borne in profusion eight weeks from sowing. One of the most popular because it is so easily grown. 2 1/2'

W8231 White Gem

W8232 Salmon Gem

W8233 Yellow Gem

W8234 Scarlet Gem

W8236 Orange Gem

ANY ONE OF ABOVE COLORS: Lg. Pkt. 25c;
1/4 Oz. 50c; Oz. \$1.40.

W8230 VARIETY MIXTURE.

Lg. Pkt. 20c; 1/4 Oz. 45c; Oz. \$1.25;
1/4 Lb. \$3.85; Lb. \$11.50.

ZINNIA GRACILLIMA

W8225 RED RIDING HOOD. Bright scarlet bedding plant 2' tall, producing masses of small, double blooms all summer.

Lg. Pkt. 25c; 1/4 Oz. 55c; Oz. \$1.50.

FANTASY ZINNIAS

W8285 MIXED COLORS. (4600 seeds.) While the new Giant Cactus Flowered are much more spectacular, Fantasy Zinnias continue to be very popular. Their smaller size and informal petal arrangement adapt them to a variety of uses. Our mixture contains unusually attractive colors.

Lg. Pkt. 25c; 1/4 Oz. 55c; Oz. \$1.50.

CUPID ZINNIAS

W8220 VARIETY MIXTURE. A good bedding type more dwarf in habit than the Pompons bearing a profusion of small double flowers in a wide range of colors. 2'

Lg. Pkt. 25c; 1/4 Oz. 55c; Oz. \$1.50.

HARRIS' HARDY PERENNIAL SEED

AQUILEGIA (Columbine)

W2070 McKANA GIANTS, MIXED COLORS. (17,000 seeds.) (An All-America Winner for 1955.) Flowers are 3 to 4½ inches across, widely flared and with 3" spurs. Many are two-tone combinations of cream and rose, Violet and white, pale yellow and red as well as solid yellows, lavender and white. Plants are more vigorous than older varieties and the stems heavier. 2½'

Lg. Pkt. 50c; 1/8 Oz. \$1.25;
1/4 Oz. \$2.25; Oz. \$8.00.

W2074 HARRIS' EXHIBITION HYBRIDS. Vigorous plants producing large, long-spurred flowers in a wide range of pastel and deeper color tones. Our breeding and selection have produced a strain that is outstanding. 2½'

Lg. Pkt. 40c; 1/8 Oz. 70c; 1/4 Oz. \$1.20; Oz. \$4.00.

W2075 LONG SPURRED BLUE SHADES. A mixture of soft blues and lavenders. 2½'

Lg. Pkt. 50c; 1/8 Oz. \$1.25; 1/4 Oz. \$2.25.

HARDY CARNATION

(14,000 seeds.) The new Grenadin Carnations are a great improvement over the older strains because of their high percentage of double blooms, their large size and free flowering habit. They are also very fragrant. 18"

W2301 Grenadin White

W2302 Grenadin Rose Queen

W2203 Grenadin Yellow

W2304 Grenadin Compact Scarlet

W2305 Grenadin King of Blacks

ANY ONE OF ABOVE COLORS: Lg. Pkt. 45c;
1/4 Oz. \$1.00; 1/4 Oz. \$1.75; Oz. \$5.50.

W2300 GRENADIN MIXED COLORS. A well balanced mixture made from the above 5 colors.

Lg. Pkt. 40c; 1/8 Oz. 85c; 1/4 Oz. \$1.65;
Oz. \$5.00; 1/4 Lb. \$16.00.

W2310 DWARF GRENADIN MIXED COLORS.

Many growers prefer the dwarf form of Grenadin for sale in quart baskets. This strain, sometimes called Hardy Vienna, is 3 to 5 inches shorter and flowers about two weeks earlier than the regular Grenadin. 15"

Lg. Pkt. 40c; 1/8 Oz. 85c; 1/4 Oz. \$1.65;
Oz. \$5.00; 1/4 Lb. \$16.00.

CAMPANULA (Canterbury Bells)

(130,000 seeds.) One of the best loved and most widely planted flowers. That it is a biennial seems to make no difference. Experienced gardeners want seedlings early in the fall; the less experienced, larger plants in the spring. The Cup and Saucer are more popular than the Doubles. 2½'

W2231 Cup and Saucer White

W2232 Cup and Saucer Rose

W2233 Cup and Saucer Deep Blue

W2234 Cup and Saucer Light Blue

ANY ONE OF ABOVE COLORS: Lg. Pkt. 25c;
1/4 Oz. 60c; Oz. \$2.00.

W2230 CUP AND SAUCER MIXED COLORS.

Lg. Pkt. 20c; 1/4 Oz. 55c; Oz. \$1.75.

W2240 DOUBLE MIXED COLORS. Contains the same soft colors as in the Cup and Saucer.

Lg. Pkt. 20c; 1/4 Oz. 55c; Oz. \$1.75.

W2249 ALL VARIETIES MIREL COLORS. A mixture of Cup and Saucer, Double and Single in all the colors available in Canterbury Bells.

Lg. Pkt. 20c; 1/4 Oz. 55c; Oz. \$1.75.

FOXGLOVE (Digitalis)

W2725 EXCELSIOR STRAIN, MIXED COLORS.

(272,000 seeds.) Here is a distinct break in this old fashioned flower. The florets are carried all around the stem, either horizontal or nearly erect, revealing the full effects of the markings and contrasting blotches of deeper color inside the tubes. Colors range from white, through cream, primrose, delicate pinks to deep rose and deep lavender. 5'-6'

Lg. Pkt. 40c; 1/8 Oz. 75c; 1/4 Oz. \$1.25; Oz. \$4.00.

W2720 PRINCESS PASTEL SHADES. Another biennial that is very popular. The mixture of this new strain is in shades of pink, apricot, buff, rose and heliotrope. 4'

Lg. Pkt. 35c; 1/4 Oz. 60c; Oz. \$2.00.

DELPHINIUM

(13,000 seeds.) The new **PACIFIC GIANTS** are a "must" for anyone growing perennial plants. Our plantings for seed crops have been most impressive, blooming continuously from late June until September. Large vigorous plants; tall sturdy spikes; florets very large and double. 5'

W2669 ASTOLAT. Blush pink, rosy pink to raspberry-rose with dark bee. The first true pink Delphinium available from seed. (Originator's seed only)

Lg. Pkt. (400 seeds) \$1.25; 1/8 Oz. \$3.00;
1/4 Oz. \$5.00; Oz. \$15.00.

W2642 GALAHAD. Pure White

W2662 GUINEVERE. Light pinkish lavender

W2663 LANCELOT. Clear soft lilac

W2664 BLUEBIRD. Bright, medium-blue

W2667 SUMMER SKIES. Clear light blue

W2668 KING ARTHUR. Dark violet

ANY ONE OF ABOVE 6 COLORS: Lg. Pkt. 85c;
1/8 Oz. \$2.00; 1/4 Oz. \$3.50; Oz. \$12.00.

W2665 PACIFIC GIANTS, MIXED COLORS. Contains all the colors in the Pacific Giants except Astolat.

Lg. Pkt. 75c; 1/8 Oz. \$1.85; 1/4 Oz. \$3.25;
Oz. \$11.00.

W2641 HARRIS' MONARCH STRAIN. Our own selection of outstanding material from the best strains on the market. Grown under northern conditions and requires no coddling. 5'

Lg. Pkt. 40c; 1/8 Oz. 75c; 1/4 Oz. \$1.25; Oz. \$4.00.

W2645 BELLADONNA. The standard light blue for florists. 4'

Lg. Pkt. 20c; 1/4 Oz. 60c; Oz. \$2.00.

GAILLARDIA (Blanket Flower)

W2910 DAZZLER. (10,000 seeds.) Easy to grow, adaptable to almost any garden conditions, always popular so plants are easy to sell and as cut flowers they are in great demand. They bloom most of the summer if kept cut back. 2½'

Lg. Pkt. 20c; 1/4 Oz. 50c; Oz. \$1.75.

LUPINS

W3335 NEW RUSSELL, HARRIS' SUPREME MIXTURE. (1400 seeds.) The long, closely set spikes of very large florets in the Russell Lupins are the ultimate in perennial breeding. Here's a perennial that would be profitable sold in bloom in paper pots. We have been making selections from the originator's stock to get increased vigor and the finest possible colors. Pink, rose, buff, bronze, rust red and blues are in our mixture, as well as many bicolors. 3'

Lg. Pkt. 30c; 1/4 Oz. 55c; Oz. \$2.00.

LUNARIA (Honesty)

W3178 BIENNIS. (1500 seeds.) Here's an outstanding example of the changing styles in flowers. A few years ago there was little interest in the seed pods of this biennial which the old timers called Silver Dollars. Now we see many florists' windows featuring them! It takes two years to get flowers and seed pods unless seed is started indoors very early. 2'

1/4 Oz. 35c; Oz. \$1.25.

PRIMROSE

W4025 POLYANTHUS, LARGE FLOWERED MIXED COLORS. (33,000 seeds.) Very large clusters of flowers in various shades of orange, yellow, cream, pink, rose, crimson, lilac, purple and white. The large florets may have "eyes" of a different color or be splashed with golden orange. Bloom in late Apr. and May. 6"-9"

Lg. Pkt. 40c; 1/8 Oz. 90c; 1/4 Oz. \$1.75; Oz. \$5.00.

PYRETHRUM (Painted Daisy)

W4015 ROBINSON'S HYBRIDS. (22,000 seeds.) The best single strain developed thus far with very large daisy-like flowers and long stems. A profitable cut-flower for May and June. Plants sell well, too. 2½'

Lg. Pkt. 30c; 1/8 Oz. 1.00; Oz. \$3.00.

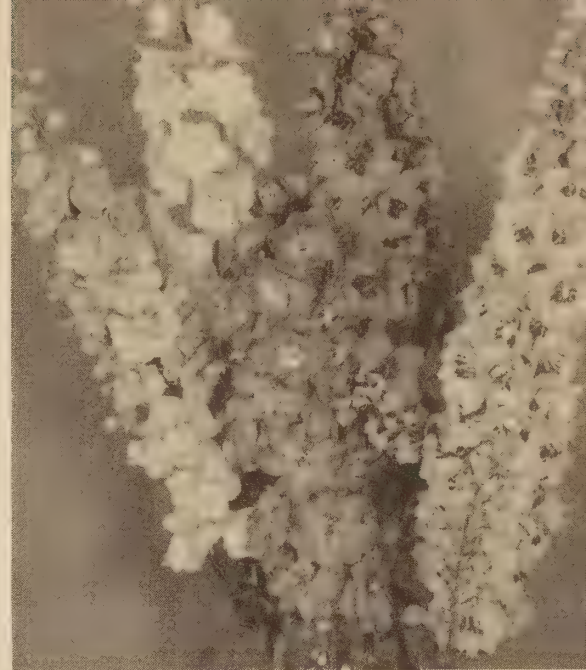

SHASTA DAISY

W4670 ALASKA. (20,000 seeds.) Large single flowers produced in abundance on long stiff stems. 3'

Lg. Pkt. 20c; 1/4 Oz. 45c; Oz. \$1.50.

W4672 DIENER'S DOUBLE. Although no large percentage of these may be double, very new and interesting forms appear in a planting. 3'

Lg. Pkt. 40c; 1/8 Oz. \$1.00; 1/4 Oz. \$1.75; Oz. \$5.50.

PACIFIC GIANT DELPHINIUMS—Undoubtedly the most popular of all perennials.

SWEET WILLIAM

(26,000 seeds.) Short lived perennials that are usually treated as biennials, Sweet Williams provide a lot of color early in the season before many perennials are in bloom. There seems to be a ready sale for flowering plants of both the tall and dwarf. The following are the best colors:

W6132 Newport Pink

W6133 Scarlet Beauty

EITHER OF ABOVE TWO COLORS:

Lg. Pkt. 25c; 1/4 Oz. 60c; Oz. \$2.00.

W6130 TALL MIXED COLORS. Interesting combinations of reds, pinks, salmon and white. 18"

Lg. Pkt. 15c; 1/4 Oz. 50c; Oz. \$1.50; 1/4 Lb. \$5.00.

W6140 DWARF MIXED COLORS. A row of these near your place of business will attract customers for the dwarf plants form a band of warm colors that are as beautifully blended as in an oriental rug. 10"

Lg. Pkt. 35c; 1/4 Oz. \$1.75; Oz. \$4.50; 1/4 Lb. \$16.00.

ALYSSUM (40,000 seeds) 1' Lg. Pkt. 1/4 Oz. Oz.

USE SPHAGNUM FOR PERENNIAL SEED SOWING

Quicker and better germination, less drying out and no damping off. We sow seeds thinner in it than in sterilized soil.

See page 32.

HOTKAPS and HOTENTS

HOTKAPS

These strong wax paper covers form little hot houses over each plant or hill of seed. Permit earlier planting, promote better growth, quicker maturity. Good protection against frost, wind, beating rains and insects. Easy to ventilate during warm periods.

NO-DAMP-OFF SPHAGNUM MOSS

For Starting Seeds Indoors. Amazingly Effective

This horticultural milled sphagnum moss is the greatest help in starting seedlings that we have ever seen. Use it alone or as a ¼ in. layer over your regular soil. It assures excellent germination, less danger of drying out and no damping off!

We've had wonderful results with petunias and other flower seeds, peppers, celery, etc. If you start seeds in the greenhouse or frames, be sure to try it. The 10 oz. package will cover several flats, and the 2 cu. ft. size is economical for commercial plant growers.

10 Oz. Pkg.	95c; 2 cu. ft. size (wt. 6 lbs.)	\$3.25
-------------	----------------------------------	--------

postpaid to 5th zone.

PLEASE NOTE

Items quoted "postpaid to 5th Zone" are shipped at our expense to places in the U.S.A. about 1000 miles from Rochester, an area including Minnesota, Iowa, and Missouri to the West and Alabama and Georgia to the South. Beyond this limit, please add 5c per lb. for extra shipping charges.

TAKE-HOLD — Starter Solution

10-52-17—Soluble—Economic

This high-analysis, low cost starter solution is the best buy in its field, we believe. High phosphates are essential to reduce transplanting shock, and give plants a strong start.

Water it on plants before setting out and add it to the transplanting water. It promotes rapid early growth, quicker ripening. We use it on all our transplanted crops—cabbage, cauliflower, peppers, tomatoes, melons, etc. 3 lbs. to 50 gal. of water.

3 Lbs.	\$1.35; 12 Lbs.	\$3.75 postpaid to 5th zone.
--------	-----------------	------------------------------

Not paid: 50 Lbs. \$11.75

NUTRI-LEAF 60

20-20-20—Feeds Plants Through Leaves

Complete soluble fertilizer, contains traces of minor elements, a safe wetting agent and has improved solubility. One of the finest and most economical materials for leaf-feeding.

Spray directly on plants or water into soil. Combine with insecticide and fungicide sprays—it can be used repeatedly to good effect. Highly recommended for both greenhouse and field use. 5 lbs. per 100 gals. water.

1 Lb.	95c; 5 Lbs.	\$2.25 pp. to 5th zone
-------	-------------	------------------------

SEED TREATMENTS, ETC.

CROW REPELLENT

If you are troubled with crows and other birds pulling up your seed corn, treat it with STANLEY'S CROW REPELLENT. Will not harm seed or clog planter.

½ Pt. (treats 1 bu.)	60c; Pt. \$1.00;
----------------------	------------------

Qt. \$1.75 postpaid to 5th zone.

ISOTOX 25 Seed Treater F

Protects Corn and other seeds against Wire Worms and Seed Corn Maggots.

25% LINDANE, 12% CAPTAN. Economical, effective, easy to use — just add to planter box and stir at time of planting. Also good on beans and vine crop seeds, has some bird repelling effect. 4½ oz. (treats 50 lbs. corn) \$1.35; 1 lb. \$3.45 postpaid.

ORTHO SEED GUARD

Combination Treatment for Insects and Disease

17% LINDANE, 50% CAPTAN. Protects beans and corn against seed corn maggots and wire worms, prevents seed rot and damping off — also used on cucumbers and melons. Mix with water. Pour over seed and stir well. 4½ oz. treats 3 bu. of corn or beans, 100 lbs. of vine seeds. 4½ oz. jar \$1.65; 1 lb. \$4.50 postpaid.

ORTHOCIDE 75 SEED PROTECTANT

Prevents Seed Rot and Damping-Off

75% CAPTAN. Safe and highly effective on nearly all garden seeds. Especially good on beans, beets, cabbage, cucumbers, melons and squash, egg plant and peppers. 1 Oz. treats up to 30 lbs. of most seeds.

4½ oz. jar	\$1.20; 1 lb.	\$2.60 postpaid
------------	---------------	-----------------

SEMESAN—Treats Both Seed and Soil.

Very useful as a dry or liquid seed treatment or as a drench for treating soils and bulbs to control soil rot, damping off, etc.

4 oz.	\$1.80; 12 oz.	\$4.95
-------	----------------	--------

BLOSSOM-SET HORMONE SPRAY

Helps tomato blossoms to set earlier, in spite of cool nights. Fruit ripen quicker, have better quality. May be sprayed over entire plant.

4 oz.	75c; Pt. \$1.75 postpaid to 5th zone.
-------	---------------------------------------

Case of 12 pts. (wt. 21 lbs.) \$16.50 Not paid.

AEROSOL BLOSSOM-SET

All ready to use, no sprayer required—12 Oz. of Blossom-Set (see above), a season's supply for 100 plants, in a handy aerosol bomb.

Ea.	\$1.80; 6 for \$9.60; 12 (wt. 12 lbs.) for \$17.75

Bird GRO-TAINER Flats

**New Dozen Package — The Modern Way to Sell Plants
Ideal Self-Service Unit — Sturdy — Attractive**

Here is the plant container you've been looking for! Good-sized, strong, durable and handsome yet moderately priced. It is easy to grow a dozen plants in these molded fibre flats—twelve holes provide good drainage and with a little leaf-feeding, plants thrive in them. Colored green to blend with the foliage they make a self-service unit that encourages people to buy more plants. It is a package that sells itself, whether with annuals or tomatoes and peppers. The flanged edge makes them easy to handle and they can be picked up by a corner with one hand. A simple wood rack can be made to carry them.

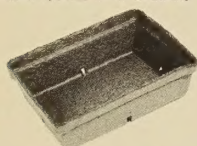

Size: 8¼" x 6¾" at top, full 2½" deep. Ask for folder on "Gro-Tainers"

100 GRO-TAINER Flats (15 lbs.)	\$ 6.00 per M Not prepaid
200 GRO-TAINER Flats (28 lbs.)	11.60 per M Not prepaid
1000 to 9000 (in cases of 200)	58.00 per M Not prepaid
10,000 or more	54.00 per M Not prepaid

Gro-tainers can be sent by mail only to small towns or on rural routes. See box below.*

Note: A dozen 2¼-in. JIFFY POTS fits perfectly into a Gro-Tainer Flat.

MARKET-PAKS (No. 42)

Low Cost,
Slightly Smaller Unit,
Popular for Plant Sales

Used with great success by many large plant growers, these reddish-colored flats are economical both in original cost and in greenhouse space used. Somewhat thinner and lighter than the Gro-Tainer, they hold up well and make a modern, convenient package for bedding plants.

Size: 7½" x 5½" at top, 2¼" deep. More information on request.

Case of 200 Market-Paks (20 lbs.)	\$ 9.20
1000 to 9000 (in cases of 200)	42.00 per M
10,000 or more	38.00 per M

Not prepaid

Market Paks can be sent by mail only to small towns or on rural routes. See below.*

"FERTILE" POTS

Used successfully for many years, these manure pots are plunged into soil in the flat or bench and then set out in the field without being removed. They contain considerable fertilizer and a lean soil is desirable for growing plants in them. A good product, but we now consider the new Jiffy Pots much better for the same purposes.

Purchaser pays transportation.*
Sold in full cases only.

*Items quoted NOT PREPAID are shipped at purchaser's expense. Please see page 1 and specify mail, express, freight or truck. Give nearest express or freight office.

Mail Shipments. Ask your local post office for rates and send postage at zone rate. Note size and weight restrictions: Boxes of Jiffy Pots, Gro-Tainer and Market-Paks cannot be mailed to first class post offices except to a Rural Route or Star Route. Cases of Vita Bands can be mailed to first class post offices within 2nd zone only.

New JIFFY POTS

**The Best Plant Containers We Have Tried.
"Everything Grows Better in Jiffy Pots"**

These light-weight, peat and wood fibre pots from Norway are treated with just the right amount of nutrients and they have given us phenomenal results with nearly all kinds of vegetable and flower plants. The excellent root aeration may be the reason for the **FASTER, STURDIER** growth of plants in these pots. Roots grow right through the pot wall easily, permits transplanting with no check in growth.

We highly recommend Jiffy Pots for early tomatoes, melons, squash, etc. They can be set with a planter at great savings in labor. Ideal for plants to be shipped, wonderful for bedding plants, mums, begonias, foliage plants, etc. Inexpensive, long-lasting, need less watering. Use JIFFY POTS this year.

JIFFY POTS MAKE LARGER, STOCKIER PLANTS

Photo shows the extra root development of plants in Jiffy Pots because they grow through the pot walls and are not confined to a small area. This means huskier growth, better plants for your own use or resale.

HARRIS SEEDS 1957 Wholesale Price List

MARKET GARDENERS AND FLORISTS

TWO NEW ALL-AMERICA WINNERS

RED SATIN—More vivid than Comanche is this scarlet F₁ multiflora All-America Winner for '57. Plants are globe shaped, upright and only 12 inches tall. Bloom is early and continuous; the color nonfading. We predict that plants of Red Satin will be a sellout. See page 25.

GLITTERS—Another F₁ Multiflora Hybrid A-A Winner with brilliant orange-scarlet bloom tipped or striped with white. Early continuous bloom; dwarf 10" plants. See page 25.

TWO NEW HARRIS HYBRIDS

PACESETTER—Most dwarf, early flowering and floriferous of any F₁ Multiflora Hybrid in the rose colors. Similar to Harris' Dream Girl but a little deeper rose and with lustrous sheen. See page 25.

WHITE SAILS—Here is our new, pure white F₁ grandiflora hybrid which is the earliest and most compact of any of the large whites available. Add to this our guarantee that the bloom is continuous and most abundant throughout the season. The 3 inch, slightly fringed blooms are accented with yellow throats giving them additional charm. See page 26.

JOSEPH HARRIS COMPANY Inc., MORETON FARM, ROCHESTER 11, N.Y.
